

# **Comparison of Patterns of Early Tooth Loss and Normal Occlusion of Primary Dentition Among Groups of Egyptian and Libyan Children**

A Thesis Submitted to the Faculty of Dentistry  
Ain- Shams University in Partial Fulfillment of the  
Requirements for the Master Degree in Pediatric  
Dentistry.

# Dedication

First of all, I would like deeply to thank *GOD*.

To my wonderful father the symbol of strength and enthusiasm. *Dad*, you have been supporting, listening carefully, giving unconditionally and pushing me forward smoothly thanks a lot.

With great honor, I dedicate this work to my lovely *Mother*, the endless source of love and patience.

Last but not least, I would like to thank all who were patient with me and supported me all the way and for being there for me when I needed them most.

## Acknowledgments

I would like to express my most sincere gratitude and appreciation to:

**Prof. Dr. Amr M. Abdelaziz**, Professor and head of the Pediatric Dentistry and Dental Public Health Department, Faculty of Dentistry, Ain-Shams University, for his insightful comments, outstanding help and encouragement throughout this work.

**Dr. Amira S. Badran**, Lecturer of Pediatric Dentistry and Dental Public Health Department, Faculty of Dentistry, Ain-Shams University, for her kindness, precious advice, continuous support, patience and cooperation.

**Dr. Assem A. Sabkha**, Assistant Professor in Orthodontic and Pediatric and Prevention Department, Faculty of Dentistry, Alzawia University, for his guidance, valuable advice, extreme effort and support.

I would like to thank all the staff members of the Pediatric Dentistry and Dental Public Health Department, Faculty of Dentistry, Ain-Shams University, especially **Prof. Dr. Nadia Metwally**.
