THE IMPACT OF SOME ORGANIZATIONAL CHARACTERISTICS
ON
INFORMATION SYSTEMS PLANNING SUCCESS

A Thesis

Submitted in partial fulfillment of the requirements
for the master in business administration degree

Supervised by

Prof. Dr. Mohamed El Hennawi

Prof. of Business Administration

Faculty of Commerce

Alexandria University

Dr. Sonia El Bakry

Assoc. Prof. of Business Administration

Faculty of Commerce

Alexandria University

Submitted by

Sally Moustafa Kamal Gabr

2002

أعوذ بالله من الشيطان الرجيم

بسم الله الرحمن الرحيم

"أله نـشـرح لك صـدرك (1) ووضـعنا مـنك وـزرك (2) الذي انقـض

ظـمرك (3) ورفـعنا لك ذكـرك (4) فإن مـع العـسر يسراً (5) إن مـع العـسر يسراً (6)

فإذا فرغـت فأنـصـب (7) وإلى ربك فارنج (8)" صدق الله العظيم

سورة الشرح

Acknowledgements

Thanks to ALLAH, who gives us the strength and ability to continue this work.

I dedicate my efforts to Egypt, that taught the world and that will sustain all over time.

To our people who deserve all the happiness and a better standard of living.

Thanks fail to express my gratefulness to my parents and family for their encouragement, for their prayers and their patience.

I would like to win the chance to acknowledge those who were very kind and generous to me all time. Assoc. Prof. Dr. Sonia Bakry, my advisor who gave me her valuable time and knowledge. Without her support, I admit that this thesis would have never come to light. I was very lucky to have her as my advisor. She helped me gaining a deeper understanding of my subject, was very patient all time, caring and supportive.

I am also indebted to Prof. Dr. Mohamed El Hennawi for accepting the supervision of my thesis and for leading the esteemed committee today.

Many thanks to the esteemed committee members that undergo the burden of coming today for the dissertation, Prof. Dr. Ibrahiem Abdel Salam and Prof. Dr. Yahiaa Helmy I am very appreciable to both of them.

My sincere thanks to all my professors and teachers that added to my knowledge through out time, they all contributed directly or indirectly to my work.

I am appreciable to Miss Zeinab Younis, as of her great assistance in the statistical part of the thesis. To my friends and colleagues and to every one who assisted me in any and every step of this work, pragmatically or emotionally.

Last , but not least , I wish to thank all those who gave time and effort to respond to the survey questions which made this thesis possible.

Table of contents:

Acknowledgments	III
Table of contents	IV
Abbreviations	VIII
List of figures	IX
List of tables	X
 <u>Chapter one: Introduction</u>	 1
1-1: Introduction	2
1-2 : Research objectives	4
1-3: The importance of the study	4
1-4: Research variables	7
1-5 : Research hypothesis	7
1-6 : Research Plan	8
 <u>Chapter two: Information systems planning (ISP)</u>	 10
2-1:Introduction	10
2-2: Strategic information systems planning	11
2-2-1: Strategic information systems planning (SISP) definitions	11
2-3: Origins of strategic information systems planning	16
2-4: Information systems planning methodologies	18
2-4-1: Choosing a methodology	20
2-5: IS planning process:	21
2-5-1: Henderson & Sifonis (1988)	24
2-5-2: Prekumar & king (1991)	27
2-5-3: Lederer & Salmela (1996)	29
2-5-4: Lederer & Sethi (1996)	32
2-6 : Strategic planning system characteristics	37
2-7: Summery and Discussion	40

<u>Chapter Three: Literature review</u>	41
3-1: Introduction	42
3-2: Empirical studies Focusing on the relationship between IS planning & Strategic business planning (SBP)	42
3-2-1: Adrians and Hoogakker(1989)	43
3-2-2: Lederer and Mendelow (1989)	45
3-2-3: Zviran (1990)	45
3-2-4: Goldsmith (1991)	47
3-2-5: Burn and Szeto (2000)	47
3-2-6: Reish and Benbasat (2000)	48
3-3 Studies Focusing on the Strategic Information systems planning success :	49
3-3-1: Raghunathan and King (1988)	49
3-3-2 Raghunathan and Raghunathan (1989)	51
3-3-3 Raghunathan and Raghunathan (1990)	51
3-3-4: Premkumar (1992)	52
3-3-5: Saunders and Jones (1992)	53
3-3-6: Raghunathan and Raghunathan (1994)	55
3-3-7: Premkumar & King (1994)	58
3-3-8: Hann and weber (1996)	60
3-3-9: Ang et al (1999)	63
3-3-10: Doherty et al (1999)	65
3-4: Discussion	69
<u>Chapter Four : Some organizational characteristics that affect the information systems planning (ISP)</u>	70
4-1: Introduction	71
4-2 : Factors affecting the success of IS planning	72
4-3: Approaches for measuring ISSP Success	75
4-4: Organization Characteristics that affect IS planning success	78
4-4-1: The Strategic Role of Is in the organization	78
4-4-1-1 The importance of choosing the role of IS in the organization as influential factor to Information systems planning success	79
1: IS has a strategic significance	79
A:: Transforming the value chain:	79
B: Transforming the product:	79

C: Direction and pace of change:	79
2: IS change the nature of competition	80
A. Changing the industry structure:	80
B: Create competitive advantage.	80
C: Generating completely new business.	80
4-4-2: The quality of Facilitation Mechanism	84
4-4-2-1: The importance of the Facilitation mechanism as influential factor to IS planning:	86
A: Importance of user participation and involvement as a facilitation mechanism	86
B: Importance of Management support and commitment as a facilitation mechanism	87
C: The importance of resources as a facilitation mechanism	88
D: The Importance of Interorganization systems as a tool of facilitation mechanism	88
4-4-3: The quality of strategic business planning	89
4-4-3-1: The importance of coordinating IS planning with the organization's business planning.	90
4-4-4: The quality of Implementation Mechanism:	92
4-4-4-1: The importance of Implementation as influential factor to Information systems planning success	93
4-5: Discussion	101
<u>Chapter Five: Research Methodology</u>	102
5-1: Introduction	103
5-2: Research model	104
5-3: Research hypothesis	105
5-4: Research variables, operational definitions, and measurement indicators	106
5-4-1: Independent variables	106
5-4-2: Dependent variables	108
5-4-3: Reliability of the measures.	110
5-5: Research methodology	111
5-6: Population and Sampling	111
5-6-1: characteristics of the sample	113
5-7: Data collection	115
5-8: Statistical analysis	116

5-8-1: Descriptive statistics	116
5-8-2: Hypothesis testing	116
5-8-3: Data analysis	116
<u>Chapter six: Analysis of the research findings</u>	118
6-1: Introduction	119
6-2: Descriptive Statistics for research variables	119
6-3: Inferential analysis of the data	120
6-3-1: Research hypothesis related to the role of IS in the organization	120
6-3-2: Research hypothesis related to the quality of facilitation mechanism	123
6-3-3: Research hypothesis related to the quality of strategic business planning	125
6-3-4: Research hypothesis related to the quality of Implementation Mechanism	127
6-4: Stepwise multiple regression analysis:	129
6-4-1: For the quality of IS planning process	130
6-4-2: For the Extent of fulfillment of IS objectives	130
6-4-3: For the improvement in the system capability	131
6-4-5: Summery	132
6-5: Canonical correlation Analysis	132
6-6: A summery table of all the hypothesis along with its support or not by different statistical techniques	136
6-7: Conclusion and discussion	137
6-8: Implication of future research	142
6-9: Research limitations	144
References.	145
Appendices:	161
Appendix (1): Some Proprietary SISP methodologies	162
Appendix (2): A sample strategic information planning process	163
Appendix (3): Questionnaire	164

Abbreviations:

BP: Business plan.
BSP: business system planning.
CAS: Critical assumption set.
CDS: Critical decision set.
CFA: Confirmatory factor analysis.
CSF: Critical success factors.
DSS: Decision support systems.
EMS: Electronic meeting systems.
IE: Information engineering.
IOS: Inter organizational systems
IRM: Information resource management.
IS : Information Systems.
ISP: Information systems planning.
ISSP: Information systems strategic planning.
IT: Information technology.
MIS: Management information systems.
P: Planning measures.
PC: personal computers.
R&D: Research and development.
ROE: Return on equity.
ROI: Return on investment.
S: Success measures.
SDM: Strategic data model.
SDP: Strategic data planning.
SISP: Strategic information systems planning.
SOG: Stage of growth.
SSP: Strategic systems planning.
VBP: Value based process.

List of Figures:

2-1: IS Planning process – Henderson and Sifonis (1988)	24
2-2: : IS Planning Model – Premkumar and King (1991)	27
2-3: Theory of strategic information systems planning – Lederer and Salmela (1996)	30
3-1: Steps in IS planning – Adrians and Hoogakker(1989)	43
3-2: Impact of information systems planning on the organization- Raghunthan and King (1988)	50
3-3: IS performance evaluation model – Sounders and Jones (1992)	54
3-4: IS planning success model – Raghunthan and Raghunthan (1994)	56
3-5: Impact of some organizational characteristics on IS planning system success- Premkumar and King(1994)	59
3-6: IS planning behavior model - Hann and Weber (1996)	61
4-1: Strategic Grid – Mc Farlan (1984)	83
6-1: Research model	104

List of Tables:

2-1: Characteristics of strategic systems	38
3-1: Coordinating IS plan with Business plans (reason and actions)- Lederer and Mendelow (1989)	45
3-2: Profile of IS objectives corresponding to organizational objectives – Zviran 1990	46
3-3: Raghunthan and Raghunthan two ISP dimensions with literature support	57
3-4: The propositions and results of Hann and Weber study	61
3-5: Definitions for the planning and success variables	65
3-6: Earl's (1993) five approaches	68
4-1: Summery of the IS Planning success factors	74
4-2: Various aspects of understanding – Megal and Snead (1993)	87
4-3: Factor and items – Lederer and Sethi (1992)	95
4-4: The challenges of Information systems planning- Lederer and Sethi (1992)	96
4-5: Items for measurement of implementation predictor constructs	98
4-6: Four potential measurements for the implementation – Gottschalk (1999)	100
5-1: Reliability analysis	110
5-2: Population characteristics and size	112
5-4: Allocation of Sample among industries	113
5-5: Characteristics of the sample size	114
6-1: Descriptive statistics for research variables	119
6-2: t- test	121
6-3: Correlation matrix	129
6-4: Summery of the research findings (Person correlation)	129
6-5: Stepwise Multiple regression analysis - quality of IS planning	130
6-6: Stepwise Multiple regression analysis - extent of fulfillment of IS objectives	130
6-7: Stepwise Multiple regression analysis - Improvement in the system capability	121
6-8: Summery of the stepwise Multiple regression analysis	132
6-9: Canonical correlation analysis	133
6-10: Canonical function	134
6-11: Canonical relationship to function no. 1	135
6-12: Redundancy analysis	135
6-13: A summery table of all the hypothesis along with its support or not by different statistical techniques	136
6-14: Factors that determine the success of IS planning from the perspective of the respondents	140
