ECOLOGICAL AND BIOLOGICAL STUDIES
ON THE GREEN BUG, *Nezara viridula* L.
(PENTATOMIDAE: HEMIPTERA)

By

Mohamed Abd El-Hafez Abd El-Mohsen Khattab

B.Sc. Co-operative Agric. Sciences, Institute of Agric. Co-Operation, Cairo, 1982

High Diploma (Plant Protection), Faculty of Agric., Al-Azhar University, 1989

M.Sc. Economic Entomology, Faculty of Agric., Al-Azhar University, 1998.

Thesis

*Submitted in Partial Fulfillment of the Requirements
for the Degree
of*

DOCTOR OF PHILOSOPHY

In

Economic Entomology

*Plant Protection Department
Faculty of Agriculture at Tanta,
Tanta University*

BNA97

APPROVAL SHEET

Title of thesis : Ecological and biological studies on the green bug,
Nezara viridula L. (Pentatomidae: Hemiptera)
Name of student : Mohamed Abd El-Hafez Abd El-Mohsen Khattab
Degree : Ph.D. in Economic Entomology

Approved by:

Prof. Dr. Mohammad Ali Mohammad Ali

Mohammad Ali
.....

*Prof. of Economic Entomology,
Faculty of Agriculture, Al-Azhar Univ.*

Prof. Dr. Megahed Mohamed Yousef Helaly

M.M. Helaly
.....

*Prof. of Economic Entomology,
Faculty of Agriculture, Zagazig Univ.*

Prof. Dr. Refat El-Morsy El-Sufty

Refat El-Sufty
.....

*Prof. of Economic Entomology, Plant Protection Department
Faculty of Agriculture at Tanta , Tanta Univ.*

Prof. Dr. Zakaria Shenishen Farag

Zakaria Shenishen
.....

*Prof. of Economic Entomology and Vice-Dean,
Faculty of Agriculture at Tanta , Tanta Univ.*

SUPERVISION SHEET

Title of thesis : Ecological and biological studies on the green bug,
Nezara viridula L. (Pentatomidae: Hemiptera).

Name of student : Mohamed Abd El-Hafez Abd El-Mohsen Khattab

Degree: Ph.D. in Economic Entomology

This Thesis is Supervised by:

Prof. Dr. Zakaria Shenishen Farag

*Prof. of Economic Entomology and Vice-Dean, Faculty of
Agriculture at Tanta , Tanta Univ.*

Prof. Dr. Ibrahim Said El-Hawary

*Prof. of Economic Entomology and Head of Plant Protection
Department, Faculty of Agriculture at Tanta , Tanta Univ.*

Prof. Dr. Refat El-Morsy El-Sufty

*Prof. of Economic Entomology, Plant Protection Department
Faculty of Agriculture at Tanta , Tanta Univ.*

Prof. Dr. El-Sayed Mohamed El-Sayed Khalafallah

*Head of Research, Piercing and sucking Insects Research
Department (Sakha), Plant Protection Res. Inst. ARC.*

ACKNOWLEDGMENT

Firstly, great thanks are directed to **ALLAH** for every thing.

The author wishes also to express his deep gratitude to his supervisors: **Prof. Dr. Zakaria Shenishen Farag**, Prof. of Econ. Entomol and Vice Dean of Fac. Agric., at Tanta, Tanta Univ.; **Prof. Dr. Ibrahim S. El-Hawary**, Prof. of Econ. Entomol. and Head of Plant Protection Dept., Fac. of Agric., at Tanta; **Prof. Dr. Refat E. El-Sufty**, Prof. of Econ. Entomol., Same Faculty and **Prof. Dr. El-Sayed M. Khalafallah**, Head of Research, Piercing & Sucking Insect Research Dept., (Sakha) Plant Protection Res. Institute, Egypt. The supervisors are highly appreciated for suggesting the problems, continuous directions, sincere advice and for considerable help in preparing and reviewing the manuscript.

Thanks are also due to **Prof. Dr. Ramadan M. Salem**, Head of Piercing & Sucking Insect Res. Dept., Plant Protection Res. Institute for his help and sincere advice throughout the course of study.

The author is also indebted to **Prof. Dr. Ahmed H. El-Heneidy**, Head of Biological Control Res. Dept., Plant Protection Res. Institute for identification of the egg parasitoid. The author thanks also staff members of Weed Control Dept., Sakha Agric. Res. Station for identification of the weed species.

Great thanks are also directed to staff members of Plant Protection Dept., Fac. Agric., at Tanta, Tanta University and Piercing & Sucking Insect Res. Dept., Sakha Agric. Res. Station for their assistance and cooperation.

INTRODUCTION	1
REVIEW OF LITERATURE	3
1. Ecological studies	3
1.1. The host range of <i>Nezara viridula</i> L.....	3
1.2. Seasonal abundance of <i>Nezara viridula</i> L.	6
1.3. Effect of both natural enemies and weather factors on <i>Nezara viridula</i> L.	8
1.3.1. Natural enemies	8
a. Predators	8
b. Parasitoids.....	10
1.3.2. Weather factors	13
1.4. The effect of sowing dates on <i>Nezara viridula</i> L. infestation	15
1.5. Susceptibility of different crop varieties to <i>Nezara</i> <i>viridula</i> L. infestation.....	16
1.6. Damage of <i>Nezara viridula</i> L.....	17
1.7. Overwintering of <i>Nezara viridula</i> L.	20
2. Biological studies.....	22
2.1. Effect of host plants and weather factors on <i>Nezara</i> <i>viridula</i> L.	22
a. Effect of host plants	22
b. Effect of weather factors	24
2.2. Annual generations of <i>Nezara viridula</i> L.	26
2.3. Response of the first nymphal instar to feeding.....	27
MATERIALS AND METHODS	28
1. Ecological studies	28
1.1. Survey of the host plants of <i>Nezara viridula</i> L.....	28
1.2. Seasonal abundance of <i>Nezara viridula</i> L. and their associated predators on field crops.....	28
1.3. Effect of weather factors on <i>Nezara viridula</i> L.	31
1.4. Effect of the associated predators on <i>Nezara viridula</i> L.	31
1.5. Effect of corn sowing dates on <i>Nezara viridula</i> L. population size.....	32
1.6. Susceptibility of soybean and rice varieties to <i>Nezara</i> <i>viridula</i> L. infestation.....	32
1.7. Estimation of <i>Nezara viridula</i> L. injury to faba bean.....	33
1.8. Determination of the parasitism of the parasitoid, <i>Trissolcus</i> <i>megallocephalus</i> (Ashmead) on <i>Nezara viridula</i> L.	34

2.	Biological studies.....	35
2.1.	Laboratory culture of <i>Nezara viridula</i> L.....	35
2.2.	Duration and number of <i>Nezara viridula</i> L. generations in laboratory.....	35
2.3.	The effect of different host plants on certain biological aspects of <i>Nezara viridula</i> L.	36
2.4.	Response of the first nymphal instar of <i>Nezara viridula</i> L. to plant feeding	37
2.5.	The effect of <i>Nezara viridula</i> L. egg age on the parasitism by <i>Trissolcus megallocephalus</i> (Ashm.).....	37
	RESULTS AND DISCUSSION	39
1.	Ecological studies	39
1.1.	The host range of <i>Nezara viridula</i> L.....	39
1.2.	Hibernation of <i>Nezara viridula</i> L.	42
1.3.	Seasonal abundance of <i>Nezara viridula</i> L. and its relation to associated predators and certain weather factors	42
1.3.1.	On summer crops	42
a.	Cotton	42
b.	Corn.....	47
c.	Soybean.....	52
d.	Mungbean	56
e.	Rice.....	61
1.3.2.	On winter crops.....	65
a.	Faba bean	65
b.	Wheat.....	69
c.	Clover	73
1.3.3.	Distribution of <i>Nezara viridula</i> L. on some crops.....	78
1.4.	Effect of corn <i>Zea mays</i> L. planting date on <i>Nezara viridula</i> L. infestation.....	84
1.5.	Susceptibility of soybean and rice varieties to <i>Nezara viridula</i> L. infestation	87
1.5.1.	Soybean varieties	87
1.5.2.	Rice varieties.....	91
1.6.	Estimation of injury to faba bean caused by <i>Nezara viridula</i> L. under field conditions	94
1.7.	Determination of the parasitism by the parasitoid, <i>Trissolcus megallocephalus</i> (Ashmead) on <i>Nezara viridula</i> L. eggs under field conditions.....	97
2.	Biological studies	102
2.1.	Duration and number of <i>Nezara viridula</i> L. generations under laboratory conditions.....	102
