#### TANTA UNIVERSITY FACULTY OF ENGINEERING

#### ENGINEERING CHARACTERISTICS OF CENTRAL DELTA CLAY

Thesis submitted for the degree of Doctor of Philosophy in Civil Engineering

In the field of Soil Mechanics and Foundations

BY

Eng. ASHRAF KAMAL NAZIR BEKHIT

Supervised by

Prof. Mohamed M. Bahloul

Prof. Eng of Soil Mechanics and Foundations

Faculty of Engineering

Tanta University

Dr. Mohamed A. Sakr

Lecturer of Soil Mechanics and

and Foundations Faculty of Engineering

Tanta University

Prof. Osama M. El Shafee

Assistant. Prof. of Soil Mechanics

and Foundations

Faculty of Engineering

Alexandria University

Dr. Mohamed S. El-Shanawany

Lecturer of Soil Mechanics

and Foundations

Faculty of Engineering

Tanta University

M- FL Shanau

2002

#### **EXAMINERS**

Prof. Dr. Magda M. Abdel Rahman (external examiner)
Professor of Soil Mechanics and Foundation Engineering,
Faculty of Engineering, Cairo University.

Prof. Dr. Mahmoud A. Mahmoud (external examiner)
Professor of Soil Mechanics and Foundation Engineering,
Faculty of Engineering, Alexandria University.

Prof. Dr. Mohamed M. Bahloul

Prof. Dr. Mohamed M. Bahloul (supervisor)

Professor of Soil Mechanics and Foundation Engineering,
Faculty of Engineering, Tanta University.

#### ACKNOWLEDGMENT

I would like to thank many people, without whom this research would never has been completed. I indebted to Professor Dr. Mohamed Mahmoud Bahloul, Faculty of Engineering Tanta University, for his excellent supervision and valuable suggestions during every stage of this investigation. Also I wish to express my great gratitude to Pofessor Osama Mostafa El Shafee, Faculty of Engineering Alexandria University for his excellent advises and discussions during the whole stages in this investigation. Also I would like to thank Dr. Mohamed A. Sakr and Dr. Mohamed S. El-Shanawany, Faculty of Engineering Tanta Universityfor their excellent advises and discussions during this research.

Finally I dedicated this thesis work—the spirit of my mother, also I dedicated this work to my daughter, Mariam and my wife.

## TABLE OF CONTENTS

| Chapter 1: INTRODUCTION                                  | . 1 |
|--|-----|
|  |     |
| 1.1General   | - 1 |
| 1.2 Objective of This Study                              | 1   |
| 1.3 Organization of Thesis                               | 2   |
| Chapter 2 : LITERATURE REVIEW                            | 4   |
| 2.1 Introduction:  | 4   |
| 2.2 History of Nile Delta                                | 4   |
| 2.3 Origin of the Nile Delta                             | 6   |
| 2.4 Properties of Fine Grain Soil                        | 8   |
| 2.4.1 Structure of Clay Minerals                         | 8   |
| 2.4.2 Classification of Clay Minerals                    | 9   |
| 2.4.2.1 Kaolinite group                                  | 9   |
