قرار لجنة الحكم والمناقشة

قررت لجنة الحكم والمناقشة ترشيح السيد ط.ب / أيمن السباعي فوده للحصول علي درجة الماجستير في العلوم الطبية البيطرية تخصص أمراض معدية .

الأستاذ الدكتور / حسين إبراهيم حسين

أستاذ الأمراض المعدية

كلية الطب البيطري - بني سويف - جامعة القاهرة

الأستاذ الدكتور / عبد الكريم عبد التواب محمود

أستاذ الأمراض المعدية ورئيس قسم طب الحيوان والطب الشرعي

كلية الطب البيطري - جامعة الإسكندرية .

الأستاذ الدكتور / متولي محمد الشناوي

أستاذ الأمراض المعدية

كلية الطب البيطري جامعة الإسكندرية

(والمشرف علي الرسالة) .

الأستاذ الدكتور / أحمد عبد المنعم زغاوه

أستاذ الأمراض المعدية

كلية الطب البيطري - مدينة السادات - جامعة المنوفية

(والمشرف علي الرسالة)

تحريراً في ١٩٩٩/٦/٣

UNDER THE SUPERVISION OF

Prof. Dr. Metwali M. El-Shinnawy

Professor of Infectious Diseases

Faculty of Veterinary Medicine

Alexandria University

Dr. Ahmed A. Zaghawa

Professor of Infectious Diseases

Faculty of Veterinary Medicine

Sadat City - Menoufia University

Dr. Adel M. Khader

Lecturer of Infectious Diseases

Faculty of Veterinary Medicine

Alexandria University

B1-492

ACKNOWLEDGEMENT

First of all prayerful thanks to our merciful GOD who gives me every thing I have.

I wish to express my deepest appreciation and sincere gratitude to the supervisor Prof. Dr. Metwali M. El-Shinnawy, Professor of Infectious Diseases, Faculty of Veterinary Medicine, Alexandria University for his keen supervision, extreme valuable advises, great efforts, discussions and guidance throughout this study.

Grateful thanks and sincere gratitude are also to Prof. Dr. Ahmed A. Zaghawa, Professor of Infectious Diseases, Faculty of Veterinary Medicine, Sadat City, Menoufia University, for his supervision, guidance and continuous advice.

My thanks are extended to Dr. Adel M. Khadr, Lecturer of Infectious Diseases, Faculty of Veterinary Medicine, Alexandria University, for his valuable help, suggestions, guidance, criticism and continuous encouragement.

1. INTRODUCTION	1
2. LITERATURE	4
2.1. Infectious bovine rhinotracheitis	4
2.1.1. Etiology and classification	4
2.1.2. Infectious bovine rhinotracheitis (IBR) in sheep and goats	5
2.1.3. Disease in Egypt	7
2.2. Border disease (BD)	10
2.2.1. Etiology and classification	10
2.2.2. Border diseases virus infection in sheep and goats	14
2.2.2.1. Transplacental transmission	14
2.2.2.2. Postnatal infection	19
2.3. Peste des petits ruminants (PPR)	21
2.3.1. Etiology and classification	21
2.3.2. Peste des petits ruminants in sheep and goats	23
2.3.3. Disease in Egypt	28
3. MATERIAL AND METHODS	30
3.1. Material	30
3.1.1. Animals	30
3.1.2. Serum separation	30
3.1.3. Viruses	31
3.1.3.1. Bovine herpesvirus-1 (BHV-1)	31
3.1.3.2. Peste des petits ruminants virus (PPR)	31
3.1.3.3. Bovine virus diarrhoea virus (BVDV)	31
3.1.4. Newborn calf serum	31
3.1.5. Horse serum	31
3.1.6. Eagle's minimum essential medium (EMEM)	32
3.1.7. Phosphate buffer saline (PBS) pH 7.0 - 7.2	33
3.1.8. Phosphate buffer saline without calcium and magnesium with versen pH 7.3	33
3.1.9. 1% Trypsin solution	33
3.1.10. Bicarbonate solution	34
3.1.11. Antibiotic solution	34

3.2. Methods	34
3.2.1. Cell culture	34
3.2.1.1. Madin-Darby bovine kidney (MDBK) cell culture	34
3.2.1.2. Vero cell culture	34
3.2.1.3. Passage of MDBK cells and Vero cells	35
3.2.2. Production of stock viruses	35
3.2.2.1. Bovine herpesvirus-1 (BHV-1)	35
3.2.2.2. Bovine viral diarrhoea virus (BVDV)	36
3.2.2.3. Peste des petits ruminant virus (PPRV)	36
3.2.3. Titration of viruses	37
3.2.3.1. Bovine herpesvirus-1 (BHV-1)	37
3.2.3.2. Bovine viral diarrhoea virus (BVDV)	38
3.2.3.3. Peste des petits ruminants virus (PPRV)	38
3.2.4. Microtitre neutralization test	39
3.2.4.1. Microtitre neutralization test for BHV-1	39
3.2.4.2. Microtitre neutralization test for BVDV	40
3.2.4.3. Microtitre neutralization test for PPR	40
3.2.5. Antibody titration	41
4. RESULTS	42
4.1. Prevalence of neutralizing antibodies to BHV-1 virus in sheep sera	42
4.2. Prevalence of neutralizing antibodies to BHV-1 virus in goat sera	47
4.3. Prevalence of neutralizing antibodies to BVD and/or BDV virus in sheep sera	47
4.4. Prevalence of neutralizing antibodies to BVD and/or BDV virus in goats	47
4.5. Prevalence of neutralizing antibodies to PPR and/or RPV virus in sheep sera	52
4.6. Prevalence of neutralizing antibodies to PPR and/or RPV virus in goat sera	52
4.7. Statistical analysis	57
5. DISCUSSION	62
6. SUMMARY	74
7. REFERENCES	75

ARABIC SUMMARY

LIST OF TABLES

	Page
Table (1): Prevalence of neutralizing antibodies to BHV-1 virus in sheep sera collected from Matrouh and Behera provinces	43
Table (2): Frequency distribution of neutralizing antibody titers to BHV-1 virus in sheep sera collected from Matrouh and Behera provinces	43
Table (3): Prevalence of neutralizing antibodies to BHV-1 virus in goat sera collected from Matrouh and Behera provinces	45
Table (4): Frequency distribution of neutralizing antibody titers to BHV-1 virus in goat sera	45
Table (5): Prevalence of neutralizing antibodies to BVD virus in sheep sera collected from Matrouh and Behera provinces	48
Table (6): Frequency distribution of neutralizing antibody titers to BVD virus in sheep sera	48
Table (7): Prevalence of neutralizing antibodies to BVD virus in goat sera collected from Matrouh and Behera provinces	50
Table (8): Frequency distribution of neutralizing antibody titers to BVD virus in goat sera collected from Matrouh and Behera provinces	50
Table (9): Prevalence of neutralizing antibodies to PPR virus in sheep sera collected from Matrouh and Behera provinces	53
Table (10): Frequency distribution of neutralizing antibody titers to PPR virus in sheep sera collected from Matrouh and Behera provinces	53
Table (11): Prevalence of neutralizing antibodies to PPR virus in goat sera collected from Matrouh and Behera provinces.	55
Table (12): Frequency distribution of neutralizing antibody titers to PPR virus in goat sera collected from Matrouh and Behera provinces	55
Table (13): Prevalence of neutralizing antibodies to BHV-1, BVD and PPR in sera of sheep as compared to those in goats	58
Table (14): Means of serum neutralizing antibodies to BHV-1, BVD and PPR in sera of sheep as compared to those in goats	60

LIST OF FIGURES

	Page
Figure (1): Prevalence of neutralizing antibodies to BHV-1 virus in sheep sera collected from Matrouh and Behera provinces	44
Figure (2): Frequency distribution of neutralizing antibody titers to BHV-1 virus as percentage from total positive in sheep sera	44
Figure (3): Prevalence of neutralizing antibodies to BHV-1 virus in goat sera collected from Matrouh and Behera provinces	46
Figure (4): Frequency distribution of neutralizing antibody titers to BHV-1 virus as percentage from total positive in goat sera	46
Figure (5): Prevalence of neutralizing antibodies to BVD virus in sheep sera collected from Matrouh and Behera provinces	49
Figure (6): Frequency distribution of neutralizing antibody titers to BVD virus as percentage from total positive in sheep	49
Figure (7): Prevalence of neutralizing antibodies to BVD virus in goat sera collected from Matrouh and Behera provinces	51
Figure (8): Frequency distribution of neutralizing antibody titers to BVD virus as percentage from total positive in goat sera	51
Figure (9): Prevalence of neutralizing antibodies to PPR virus in sheep sera collected from Matrouh and Behera provinces	54
Figure (10): Frequency distribution of neutralizing antibody titers to PPR virus as percentage from total positive in sheep sera	54
Figure (11): Prevalence of neutralizing antibodies to PPR virus in goat sera collected from Matrouh and Behera provinces.	56
Figure (12): Frequency distribution of neutralizing antibody titers to PPR virus as percentage from total positive in goat sera	56
Figure (13): Prevalence of neutralizing antibodies to BHV-1, BVD and PPR in sera of sheep and goats	59
Figure (14): Means of serum neutralizing antibodies to BHV-1, BVD and PPR in sera of sheep and goats	61

LIST OF ABBREVIATIONS

AGID:	Agar gel immunodiffusion
BD:	Border disease
BHV-1:	Bovine herpesvirus-1
BVDV:	Bovine virus diarrhoea virus
CDV:	Canine distemper virus
CPE:	Cytopathogenic effect
ELISA:	Enzyme linked immunosorbent assay
EMEM:	Eagle's minimum essential medium
HCV:	Hog cholera virus
IBR:	Infectious bovine rhinotracheitis
IPV:	Infectious pustular vulvovaginitis
MDBK:	Madin-Darby bovine kidney
MN:	Measles virus
MoAbs:	Monoclonal antibodies
NCP:	Non-cytopathic
PBS:	Phosphate buffer saline
PPR:	Peste des petits ruminants
RPV:	Rinderpest virus
SPC:	Stomatitis pneumoenteritis complex
TCID:	Tissue culture infectious dose
TCRPV:	Tissue culture rinderpest virus
VNT:	Virus neutralization test

Introduction
