**THE EFFECT OF SCHOOL MEAL GIVEN TO THE
SECONDARY AGRICULTURAL SCHOOL
STUDENTS AT MENOUFIA GOVERNORATE ON
THEIR NUTRITIONAL STATUS**

By

HASSAN ABD EL-AZEM ABDALLA

B.Sc. Agriculture (1984) - Al -Azhar University

THESIS

***SUBMITTED IN PARTIAL FULFILLMENT OF THE
REQUIREMENT FOR THE DEGREE OF MASTER
OF SCIENCE IN HOME ECONOMICS
NUTRITION AND FOOD SCIENCE***

Supervisors

Prof. Dr.

MOHAMMED SAMIR EL-DASHLOOTY

Prof. of Nutrition

Faculty of Home Economics

Menoufia University

Dr.

SOURAYA MESSALLAM

Assistant Prof. of Nutrition

Faculty of Home Economics

Menoufia University

Dr.

LAILA MOHAMMED TAWFIK

Lecturer of Nutrition

Faculty of Home Economics

Menoufia University

Department of Nutrition
and Food Science
Faculty of Home Economics

* Arabic summary	

List of tables

	Page
* (1) Recomended energy intakes for adolescents	10
* (2) The total studied students according to study site	26
* (3) Presents the classification of students according to school location and sex	26
* (4) Shows the frequency distribution of students according to having the school meal	27
* (5) The levels of education in Shibin El kom city .	28
* (6) Presents the levels of education in Quesna city.	29
* (7) Presents an account for all the parameters carried out on the studied individuals group .	30
* (8) A detailed list of food consumed from a typical 24 hr food recall for females	32
* (9) A detailed list of food consumed from a typical 24 hr food recall for males	33
* (10) Selected socioeconomic characteristics of the school students	39
* (11) Mean estimates of some social variables for students	42
* (12) Analysis of variance for boys and girls of (age) between three groups .	43
* (13) Analysis of variance for boys and girls of (Paresnt's education) between three grou ps .	43
* (14) Analysis of variance for boys and girls of (Family income per month) between three groups .	43
* (15) Analysis of variance for boys and girls of (number of brothers & sisters) between three groups	44
* (16) Analysis of variance for Boys and girls of (number of person's) between three groups .	44
* (17) Analysis of variance for boys and girls of	44

List of tables

Page

* (18) Analysis of variance for boys and girls of (Degree of crowdedness) between three groups .	45
* (19) Analysis of variance for boys and girls of (School meal period) between three groups .	45
* (20) Follow up test comperisans (School meal period)	45
* (21) Analysis of variance for boys and girls of (Time Spending) in exercise between three groups .	46
* (22) Analysis of variance for boys and girls of (Range concentrations) between three groups .	46
* (23) Inter-correlation between some social variables for students	48
* (24) The ingredients and nutretional values of the school meal compared to RDA , 1989	50
* (25) Means and standard deviations of several nutrients intake for students compared with the RDA 1989	54
* (26) Means estimates of nutrients intake among students	57
* (27) Analysis of variance for boys and girls of (K. calories) between three groups .	58
* (28) Analysis of variance for boys and girls of (animal protein) between three groups .	58
* (29) Analysis of variance for boys and girls of (To tal protein) between three groups .	58
* (30) Analysis of variance for boys and girls of (Animal fat) between three groups .	59
* (31) Analysis of variance for boys and girls of (Total fat) between three groups .	59
* (32) Analysis of variance for boys and girls of (Carbohydrute) between three groups .	59

List of tables

Page

* (33) Analysis of variance for boys and girls of (Calcium) between three groups .	60
* (34) Analysis of variance for boys and girls of (Animal iron) between three groups .	60
* (35) Analysis of variance for boys and girls of (Total iron) between three groups .	60
* (36) Analysis of variance for boys and girls of (Sodium) between three groups .	61
* (37) Analysis of variance for boys and girls of (Zinc) between three groups .	61
* (38) Analysis of variance for boys and girls of (Vit . A .) between three groups .	61
* (39) Analysis of variance for boys and girls of (Vit. B1) between three groups .	62
* (40) Analysis of variance for boys and girls of (Vit .B2) between three groups .	62
* (41) Analysis of variance for boys and girls of (Niacin) between three groups .	62
* (42) Analysis of variance for boys and girls of (Vit. B6) between three groups .	63
* (43) Analysis of variance for boys and girls of (B.12) between three groups .	63
* (44) Analysis of variance for boys and girls of (Folate) between three groups .	63
* (45) Analysis of variance for boys and girls of (Vit . C.) between three groups .	64
* (46) Analysis of variance for boys and girls of (Cholesterol) between three groups .	64

List of tables

Page

* (47) Frequency distribution and percentage of K. calories consumption of students compared to the RDA, 1989	68
* (48) Frequency distribution and percentage of protein consumption of students compared to the RDA, 1989	68
* (49) Frequency distribution and percentage of iron consumption of students compared to the RDA, 1989	69
* (50) Frequency distribution and percentage of calcium consumption of students compared to the RDA, 1989	69
* (51) Frequency distribution and percentage of zinc consumption of students compared to the RDA, 1989	70
* (52) Frequency distribution and percentage of vit A consumption of students compared to the RDA, 1989	70
* (53) Frequency distribution and percentage of Vit B1 consumption of students compared to the RDA, 1989	71
* (54) Frequency distribution and percentage of Vit B 2 consumption of students compared to the RDA, 1989	71
* (55) Frequency distribution and percentage of niacin consumption of students compared to the RDA, 1989	72
* (56) Frequency distribution and percentage of Vit B 6 consumption of students compared to the RDA, 1989	72
* (57) Frequency distribution and percentage of Vit B 12 consumption of students compared to the RDA, 1989	73

List of tables

	Page
* (58) Frequency distribution and percentage of folate consumption of students compared to the RDA, 1989	73
* (59) Frequency distribution and percentage of Vit C consumption of students compared to the RDA, 1989	74
* (60) Percentage of protein , fat and carbohydrate from the total calories	89
* (61) Analysis of variance for boys and girls of (Animal lipids) between three groups .	91
* (62) Follow up L . S . D test comparisons (Animal lipids)	91
* (63) Analysis of variance for boys and girls of (Baladi bread) between three groups .	92
* (64) Follow up L . S . D test comparisons (Baladi bread)	92
* (65) Analysis of variance for boys and girls of (cheese) between three groups .	93
* (66) Follow up L . S . D test comparisons (cheese)	93
* (67) Analysis of variance for boys and girls of (cooked vegetables) between three groups .	94
* (68) Analysis of variance for boys and girls of (Egg) between three groups .	94
* (69) Follow up L . S . D test comparisons (Egg)	94
* (70) Analysis of variance for boys and girls of (Foreign bread) between three groups .	95
* (71) Analysis of variance for boys and girls of (Fish) between three groups .	95
* (72) Analysis of variance for boys and girls of (Fruits) between three groups .	95

List of tables

Page

* (73) Follow up L . S . D test comparisons (Fruits)	96
* (74) Analysis of variance for boys and girls of (Fresh vegetables) between three groups .	96
* (75) Analysis of variance for boys and girls of (Legumes) between three groups .	97
* (76) Analysis of variance for boys and girls of (Macaroni) between three groups .	97
* (77) Analysis of variance for boys and girls of (Meat) between three groups .	97
* (78) Analysis of variance for boys and girls of (Milk) between three groups .	98
* (79) Analysis of variance for boys and girls of (Pickles) between three groups .	98
* (80) Follow up L . S . D test comparisons (Pickles)	99
* (81) Analysis of variance for boys and girls of (plant lipids) between three groups .	99
* (82) Follow up L . S . D test comparisons (Plant lipids)	100
* (83) Analysis of variance for boys and girls of (Poultry) between three groups .	100
* (84) Analysis of variance for boys and girls of (Rice) between three groups .	101
* (85) Follow up L . S . D test comparisons (Rice)	101
* (86) Analysis of variance for boys and girls of (Sugar) between three groups .	102
* (87) Follow up L . S . D test comparisons (Sugar)	102
* (88) Analysis of variance for boys and girls of (Tea) between three groups .	103

List of tables

	Page
* (89) Analysis of variance for boys and girls of (Whole bread) between three groups .	103
* (90) Follow up L . S . D test comparisons (whole bread)	103
* (91) Mean estimates of food consumption among students	105
* (92) Inter correlation between nutreints intake for students	109
* (93) Inter-correlation between food consumption pattern for students	112
* (94) Correlation coefficients between food consu mption pattern and nutreints intake for students	115
* (95) Correlation coefficients between social status and nutreints intake for students	118
* (96) Carrlation coefficient between food consumption pattern and social variables for students	121
* (97) Mean estimates of anthropometric measurement for students	123
* (98) Frequency distribution of weight as percentage of standard	126
* (99) Frequency distribution of height as percentage of standard	126
* (100) Frequency distribution of arm circumference as percentage of standard	127
* (101) Frequency distribution of triceps skinfold thickness as percentage of standard	127
* (102) Frequency distribution of arm muscle circumference as percentage of standard	128
* (103) Analysis of variance for boys and girls of (weight) between three groups .	134
