## **ACKNOWLEDGMENT**

I am very much grateful to Prof. ***Dr. Ahmed Sherief Hafez***. Professor of public health and Vice Dean for environment and community affairs, Faculty of Medicine, Ain Shams University, for his kind valuable assistance and continuous guidance in conducting this work. It was a great honor and chance to be supervised by ***Dr. Hafez***. a very knowledgeable scientist in this field.

I would like to extend my deep thanks and appreciation to ***Prof. Dr. Mohammed Fahmy Sedeak***. Head of department of food hygiene, Institute of Nutrition, Ministry of Health, for his continuous unlimited help and encouragement. He was very generous in time and effort during the initiation, progress, and completion of the work.

Also, I am thankful to ***Dr. Ossama Shams El-Din Rasslan***, professor of microbiology and immunology, Faculty of Medicine, Ain Shams University, for his help and support in microbiology, laboratory part of this study, and for his helpful comments and for providing continuous advise, guidance, and support.

I would like, also, to express my deepest gratitude to ***Dr. Mahmoud Khalil El-Sayed***, Assistant professor of microbiology and immunology , Faculty of Medicine, Ain Shams University, for his help and support in laboratory valuable assistance, and advises.

***Lastly, I owe great thanks to women and preschoolers who participated as a sample member of the study.***
