ACKNOWLEDGEMENT

First and foremost thanks to ALLAH, the most beneficent and merciful.

The reviewer would sincerely wish to express his utmost gratitude to *Prof. Dr. Sameh Abdel Hay Abdel Hamid*, Professor of Pediatric Surgery, Faculty of Medicine, Ain Shams University, who suggested this point of research and for without his sincere guidance, valuable remarks and continuing support, this work undoubtedly would have never been brought into light.

The helpful guidance of *Assist. Prof. Dr. Mahmoud Hatem Sherif*, Assistant Professor of Pediatric Surgery, Faculty of Medicine, Ain Shams University, is greatly acknowledged. and his constructive comments during the process of preparing this work continue to demonstrate his faithful commitment to proper medical education.

I would also like to acknowledge the continuous support and advice, offered by *Dr. Sherif Mahmoud Soliman*, Lecturer of Pediatric Surgery, Faculty of Medicine, Ain Shams University, which brought this work to its present form.

Great thanks and true appreciation are for *Prof. Dr. Esam El-Sady*, Professor of Histology, Faculty of Medicine, Ain Shams University, for his kind help in reading the histopathology.

The reviewer would like to sincerely thank in advance the judging committee for sparing their valuable time and effort to evaluate the review inspite of their grave responsibilities.

I wish to extend my thanks to all the Members of Medical Research Center, Faculty of Medicine, Ain Shams University, for the kind help, anesthesia and follow-up of the dogs.

Many thanks are for *Dr. Ashraf Kabesh* for his sincere help and support in this work.

This acknowledgement would never be complete without thanking my fellow residents in Department of Pediatric Surgery, for their continuing support and baring during the preparation of this humble work.
