STUDIES ON THE TOXINS OF THE PUFFERFISH IN THE NORTH WESTERN PART OF THE RED SEA

Thesis Submitted For
The Award of The Degree of
Master of Science
in
Zoology

BY

ADEL SALAH MOHAMED
B.Sc. (1988)

*Research Assistant in
National Institute of Oceanography and Fisheries,
Suez and Aqaba Gulfs Branch*

To

Zoology Department,
Faculty of Science,
Suez Canal University,
Ismailia, Egypt

1995

TO MY PARENTS

Approval Sheet

Title : STUDIES ON THE TOXINS OF THE PUFFERFISH IN THE
NORTH WESTERN PART OF THE RED SEA

Name: Adel Salah Mohamed

This thesis has been approved by:

Dr. Mohamed M. Abbas:

*Asst. Prof. National Institute of
Oceanography and Fisheries,
Alexandria*

Abbas M. M

Dr. Nour El-Din H. S. Al-Sherif:

*Asst. Prof. Zoology Department,
Faculty of Science,
Suez Canal University*

Nour Sherif

Dr. Abdallah El-Sayed Ali:

*Lecturer, Marine Biology
Department, Faculty of Science,
Suez Canal University*

Abdallah E. Ali

REFEREES DECISION

Title: STUDIES ON THE TOXINS OF THE PUFFERFISH IN THE NORTH
WESTERN PART OF THE RED SEA

Name: Adel Salah Mohamed

Referees:

Name	Position
Prof. Dr. Magda I. Zaki	Head of Aquaculture Division, National Institute of Oceanography and Fisheries, Alexandria.
Prof. Dr. Mostafa M. Omar	Head of Zoology Dept., Faculty of Science, Al-Azhar Univ.
Dr. Nour El Dien H. Saleh	Asst. Prof. in Zoology Dept., Faculty of Science, Suez Canal Univ

Date of Discussion: 28/8/95

Referees Signature:

Name	Signature
Prof. Magda I. Zaki	M.I. Zaki
Prof. Mostafa M. Omar	Mostafa M. Omar
Dr. Nour El Dien H. Saleh	Nour El Dien H. Saleh

ACKNOWLEDGMENTS

Praise to Allah, lord of the Universe by whom grace this work has been completed.

I wish to express my deep thanks and gratitude to Dr. Mohamed Mamdoh Abbas, Asst. Prof. of marine pollution National Institute Of Oceanography and Fisheries Alexandria, for supervising the present work, constructive criticism, continuous guidance, keen interest, encouragement during this work, and reading the manuscript.

My great thanks and gratefulness to Dr. Nour El-Din Hussein Saleh Al-Sherif, Asst. Prof. of molecular biology, Zoology Department, Faculty of Science, Suez Canal University, for supervising the present work, continuous help and for a critical reading of the manuscript.

I wish to express my deep thanks and gratitude to Dr. Abdallah EL-Sayed Ali Lecturer of marine chemistry, Marine Biology Department, Faculty of science, Suez Canal University for suggesting the problem of this thesis, supervising the present work and reading the manuscript.

Thanks are also to Prof. Dr. Hussein Kamel Badawy, the Head of the National Institute of Oceanography and Fisheries for his parental care.

Thanks are also to Prof. Dr. Mohamed Ebrahim El-Samra, the Director of the National Institute of Oceanography and fisheries, Suez and Aqaba Gulfs Branch for his continuous help and providing facilities.

It is not possible to give individual recognition to all of the many persons who have aided me in the collection of the fish, but I gratefully Acknowledge their help. Thanks are also to my colleagues for their sincere help.

Thanks are also to my friend Kamal Fathy EL-Boray for typing the thesis.

My sincere thanks to the Head of Zoology Department, Faculty of Science, Suez Canal University and the staff members for their continuous encouragement.
