**Effect of adding some biocontrol agents on non-target microorganisms in root diseases infecting soybean and broad bean plants.**

**By**

**Mohamed Farouk Atya Ahmed Hugar**

B.Sc. Agricultural Co-operation 1996, Higher Institute of Agric.

Co-operation, Ministry of Higher Education

Fulfillment of B.Sc., Agric.Sci, (Plant Pathology), 1998, Fac.

Agric., Moshtohor, Zagazig University, Benha Branch

**Thesis**

Submitted in Partial Fulfillment of the Requirement For

The degree of

**Master-of Science**

In

**Plant Pathology**

Agricultural Botany Department,

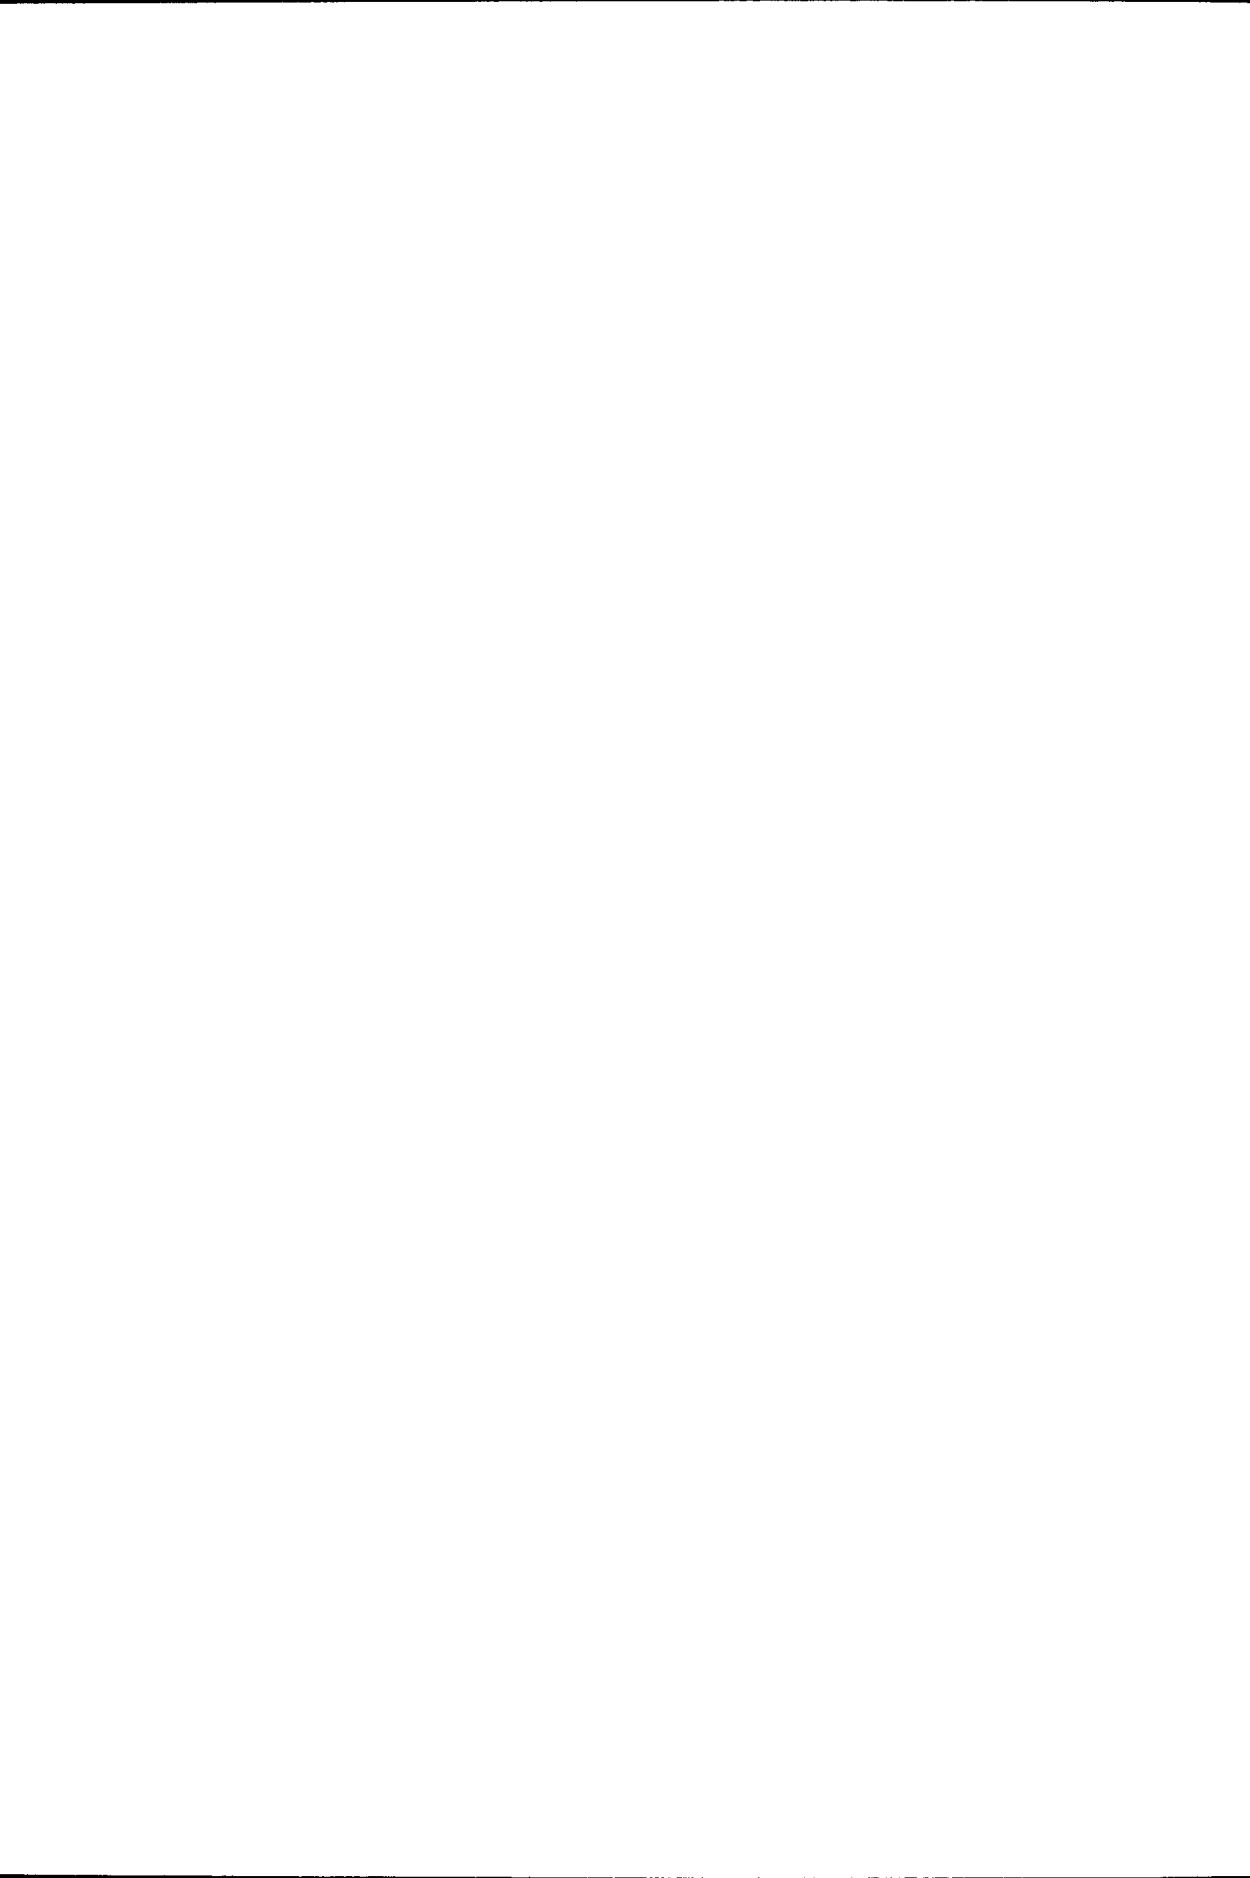

Plant Pathology Branch

Faculty of Agriculture, Moshtohor

Zagazig University, (Benha branch)

**2004**

## **Supervision committee**

**Prof. Dr. Abdel-Moneim Ibrahim Ismaeil El-Fiki**

Professor of Plant Pathology  
Agric. Botany Dept., Fac. Agric., Moshtohor  
Zagazig University (Benha Branch)

**Prof. Dr. Tawfic H. Abd-El-Moity**

Professor of Biological Control and Plant Pathology  
Central Lab. of Organic Agriculture, Agricultural,  
Research, Center (ARC), Giza.

**Dr. Fathy Gad Mohamed**

Associate Prof. of Plant Pathology.  
Faculty of Agriculture  
Zagazig University (Benha Branch)

# APPROVAL SHEET

**Effect of adding some biocontrol agents on non-target  
microorganisms in root diseases infecting soybean and  
broad bean plants**

## Acknowledgment

*First and foremost, I feel always indebted to God, the most beneficent and merciful*

The author wishes to express his deepest gratitude and indebtedness to the senior supervisor of the present work **Prof. Dr. Abd El-Moneim Ibrahim Ismaiel El-Fiki**, Professor of Plant Pathology, Agric. Botany Dept., Fac. Agric., Moshtohor, Zagazig University (Benha Branch) for his constructive supervision, valuable advice, kind guidance and for his help in putting thesis in its final form.

The author would also like to express his profound gratitude and appreciation to **Prof. Dr. Tawfic H. Abd-El-Moity** Professor of Biological control and Plant Pathology, Central Lab. of organic Agriculture, Agric., Res., center (ARC), Giza, for his great assistance his continuous help, valuable scientific advice and attention throughout his work.

Thanks and deepest gratitude also to **Dr. Fathy Gad Mohamed** Associates Prof. of Plant Pathology, Dept. of Agric. Botany, Fac. Agric. at Moshtohor, Benha Branch, Zagazig University, for his valuable help during the course of this investigation

The writer would like to express his deep thanks also to all staff members of Integrated Control Dept., Plant Pathology Institute, Agric. Res. Center (ARC), and Plant Pathology Branch, Botany Dept., Fac. Agric. Moshtohor, Zagazig University for their kind help and encouragement.

Special thanks are due to my parents, brothers and sisters for their kindness, encouragement and grateful feelings during investigating my study.
