ACKNOWLEDGEMENT

Firstly I would like to express my deepest thanks praise to God (ALLAH) for bestowal, continues giving and help to finish this work .

The author is greatly indebted to Prof. **Dr. Ahmed A. Radwan**, Professor of Poultry Physiology, Faculty of Agriculture, Moshtohor, Benha University for his kind supervision, encouragement sincere and valuable advice during the various stages of this work.

I wish to express my sincere appreciation to **Dr. Magdy A. Soltan**, Assistant Professor of Fish Nutrition, Faculty of Agriculture, Moshtohor Benha University for his close supervision, valuable help and guidance during the progress of this work.

I wish to express my sincere appreciation to **Dr. Mohamed N. Bakeer** Head of Department of Aquaculture, central laboratory for Aquaculture Research, Abbassa for his close supervision, voluble help and guidance during the progress of this work.

Last but not least My Heartily thanks to **My Father and My Mother and My Brothers** for their continuous encouragement. Mortal support and patience throughout my study period.
