**Bacteriological and Serological Studies On The
Different Species of Genus Clostridium Associated
With Neonatal Calf Diarrhoea**

**A Thesis Presented
By**

Ramzy Hamouda Hamouda Abd El-Sayed
B.V.Sc.(1993), Cairo University

**For the Master degree
In
Veterinary Medical Science
(Bacteriology, Immunology, Mycology)**

Under Supervision of

Professor. Dr. Ahmed Farid
Prof. of Microbiology
Faculty Of Veterinary Medicine,
Cairo University

Dr.Kamil Naguib Mettias
Chief Researcher
Animal Reproduction Research Institute,
Haram, Giza

B

11401

{2001}

Approval Sheet

This is to approve that the dissertation presented by Ramzy H.H. Abd.El Sayed to Cairo University for the Degree of Master in Veterinary science (Bacteriology Immunology and Mycology) has been approved by the examining committee.

Prof. Dr. Fawzy R. El Saiedy

Chairman and Professor of Microbiology
Faculty of Veterinary Medicine
(Beni Swef)
Cairo University

F. R. El Saiedy

Prof. Dr. Mamdouh Abd El-Ghani Abd. El. Aziz

Professor of Microbiology
Faculty of Veterinary Medicine
Cairo University

M. Abd El-Ghani

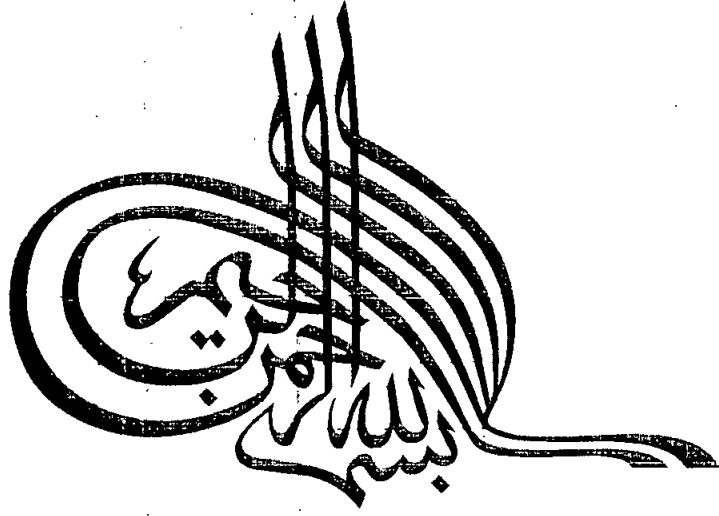

Prof. Dr. Ahmed F. H. Faried

Dept. of Microbiology
Faculty of Veterinary Medicine
Cairo University

A. Faried

Supervisor of thesis

13/6/2001

﴿وقل رب زدني علما﴾

Acknowledgement

I am extremely grateful to my God

I wish to express my cardial thanks and deep gratitude to *Professor Dr. Ahmed Farid* Professor of Microbiology, Fac. Vet. Med., Cairo Univ., for his supervision and planning of the work, encouragement, great help and valuable advice during the course of this research, without which, the work entailed in this thesis would have been more difficult.

No word can express my gratitude and appreciation to *Dr. Kamil Naguib Mettias*, Chief Researcher and Chairman of Department of Mastitis and Neonatal Diseases, Animal Reproduction Research Institute, for supervising and sincere help, faithful guidance and willing efforts to facilitate the difficulties during this work.

I express my sincere gratitude to *Dr. Nabil Ahmed El Danaf* Director of Animal Reproduction Research Institute for his sincere help in the work at hand.

I am especially indebted to *Dr. Amal El Rashidy* Chief Researcher in Animal Reproduction Research Institute.

It is a great pleasure to record my kind gratitude to all the *Staff members* of Department of Mastitis and Neonatal Diseases Animal Reproduction Research Institute.

I want to thank *Mr. Onsy El-Shaikh and his Family* who give me a lot of their time, and efforts.

I want to thank *Mr. Mohamed Hussien Abu-Deshieesh* for his efforts with me.

Finally, I want to thank *My family, my wife and my daughter*, who gave me a lot of their time, help and support.

List of Contents

Page number

1. Introduction	1
2. Review of literature	3
2.1. Clostridium spp. as a cause of diarrhea in calves	3
2.2. Identification of <u>C. perfringens</u>	19
2.3. Immunity against <u>C. perfringens</u>	35
3. Material and methods.....	57
3.1. Materials.....	57
3.1.1. Animals.....	57
3.1.1.1. Pregnant Cows	57
3.1.1.2. Calves	57
3.1.1.3. Laboratory animals.....	57
3.1.2. Samples.....	58
3.1.2.1. Faecal Samples.....	58
3.1.2.2. Blood samples	59
3.1.3. Media.....	60
3.1.3.1. Liquid media	60
3.1.3.2. Solid media	61
3.1.3.3. Semisolid media	62
3.1.3.4. Media for biochemical tests.....	62
3.1.4. Indicators and reagents.....	65
3.1.5. Solutions	67
3.1.6. Apparatus.....	68

	Page number
3.2. Methods	69
3.2.1. Collection of samples.....	69
3.2.2. Enrichment and isolation of Clostridium organisms	70
3.2.3. Identification of anaerobic Isolates	70
3.2.4. Determination of Toxigenic activity of isolates of <u>C.perfringens</u>	71
3.2.5. ELISA procedure	72
3.2.6. Statistical analysis	74
4. Results	75
4.1. Incidence of <u>C.perfringens</u> in neonatal calves	75
4.2. Incidence of <u>C.perfringens</u> in apparently healthy calves....	76
4.3. Incidence of <u>C.perfringens</u> in diseased calves	77
4.4. Correlation between the age and Isolation of <u>C.perfringens</u> from faecal samples.....	78
4.5. <u>C.perfringens</u> antitoxin titer in calves delivered from vaccinated and non vaccinated dams	79
4.6. <u>C.perfringens</u> antibody profile in calves delivered from non vaccinated dams	80
4.7. <u>C.perfringens</u> antibody profile in calves delivered from vaccinated dams.....	81
4.8. Incidence of diarrhea in calves receiving colostrum from vaccinated and non vaccinated dams	82
4.9. Incidence of <u>C.perfringens</u> in calves delivered from vaccinated dams.....	83
4.10. Incidence of <u>C.perfringens</u> in calves delivered from non vaccinated dams	84

	Page number
5. Discussion.....	85
6. Summary	96
7. References.....	100

Arabic summary

List of Tables

Table (1) Feacal Samples obtained from calves in different Governorates	58
Table (2) Blood Samples obtained from calves in different Governorates	59
Table (3) Incidence of <u>C.perfringens</u> in neonatal calves	75
Table (4) Incidence of <u>C.perfringens</u> in healthy calves	76
Table (5) Incidence of <u>C.perfringens</u> in diseased calves	77
Table (6) Correlation between age and Isolation of <u>C.perfringens</u> from faecal samples	78
Table (7) <u>C.perfringens</u> antibody titer in calves Delivered from vaccinated and non Vaccinated dams	79
Table (8) <u>C.perfringens</u> antibody profile in calves delivered from non Vaccinated dams	80
Table (9) <u>C.perfringens</u> antibody profile in calves delivered from vaccinated dams	81

Table (10) Incidence of diarrhea in calves receiving
colostrums from vaccinated and non
vaccinated dams.....82
