

Molecular Detection of Candida DNA in Intertrigo Caused by Candida Species

Thesis

Submitted for partial fulfillment of master degree
in *Dermatology, Venereology and Andrology*

Presented By

Waleed Esmail Mohammed Al-Dhahebi
(M.B., B.Ch.)

Under Supervision of

Prof. Dr. May Hussein El-Samahy

Professor of Dermatology, Venereology and Andrology
Faculty of Medicine, Ain Shams University

Dr. Sahar El-Sayed Ahmed

Assistant Professor of Dermatology, Venereology and Andrology
Faculty of Medicine, Ain Shams University

Dr. Marwa Saad Mohammed Fathi

Lecturer of Medical Microbiology and Immunology
Faculty of Medicine, Ain Shams University

Faculty of Medicine
Ain Shams University
2012

List of Figures (Cont.)

Tab. No	Title	Page
Figure (11):	Growth of Candida Krusei on brilliance agar.....	75
Figure (12):	Growth of Candida Parapsilosis on brilliance agar	76
Figure (13):	Incidence of each species on chromogenic media.....	77
Figure (14):	Result of PCR with incidence of each candida species	78
Figure (15):	Comparison between the results obtained by chromogenic media and PCR as regard identification of candida species	79
Figure (16):	A dye in the false passage mimicking esophageal atresia.....	52

List of Contents

Title	Page
♦ List of Contents	I
♦ List of Abbreviations	II
♦ List of Tables	III
♦ List of figures	V
♦ Introduction	1
♦ Aim of the Work	4
♦ Review of the Literature	5
o Chapter 1: Candida	5
o Chapter 2: Polymerase Chain Reaction (PCR)	37
o Chapter 3: PCR Detection of Fungal Infections	51
♦ Patients and Methods	64
♦ Results	70
♦ Discussion	81
♦ Recommendations	93
♦ Summary	94
♦ References	94
♦ Arabic Summary	--

List of Abbreviation

BAL	: Bronchoalveolar Lavage.
BSA	: Bovine Serum Albumin
C.	: Candida
DNA	: Deoxyribonucleic Acid
ITS	: Internal transcribed spacer
MTLs	: Multiple Locus Sequences Typing
PCR	: Polymerase Chain Reaction
PLB	: Phospholipase B
RAPD	: Random amplification of polymorphic DNA
RELP	: Restriction Fragment Length Polymorphism.
SAPs	: Secreted Aspartyl Proteinases
SP	: Species
VC	: Vaginal Candidiasis

List of Tables

Tab. No	Title	Page
Table (1):	Candida genome sequence databases	30
Table (2):	Comparison of C. albicans and C. dubliniensis	35
Table (3):	Oxoid guide for Brilliance candida chromogenic media.....	67
Table (4):	Length of PCR products	69
Table (5):	Number and percentage of males and females included in this study	70
Table (6):	Site distribution of the study sample	71
Table (7):	Results of gram stain	71
Table (8):	Result of culture on SDA	71
Table (9):	Results of culture on chromogenic media...	72
Table (10):	Incidence of each species on chromogenic media.....	77
Table (11):	Result of PCR with incidence of each candida species.....	78
Table (12):	Comparison between the results obtained by chromogenic media and PCR as regard identification of candida species	79

List of Tables (Cont.)

Tab. No	Title	Page
Table (13):	Concordance rate between PCR and chromogenic agar	81
Table (14):	Sensitivity and specificity for chromogenic agar in comparison with PCR results.....	81

List of Figures

Tab. No	Title	Page
Figure (1):	Scanning electron micrographs of a <i>C. albicans</i> biofilm on the inside lumen of a vascular catheter from a rat central venous catheter model	9
Figure (2):	Scheme of Als adhesin structure	19
Figure (3):	(SAPs) during infection. Based on data of...	23
Figure (4):	Oxoid guide for Brilliance candida chromogenic media.....	27
Figure (5):	Chromosome number and size estimates using CHEF. Chromosome bands are labeled alphabetically from smallest to largest.....	32
Figure (6):	Species phylogeny reconstruction of sequenced <i>Candida</i> and <i>Saccharomyces</i> clade species.....	33
Figure (7):	Results of culture on chromogenic media.....	73
Figure (8):	Growth of <i>Candida Albicans</i> on brilliance agar	74
Figure (9):	Growth of <i>Candida Tropicalis</i> (blue) with <i>glabrata</i> (light brown) and <i>Albicans</i> (green) on brilliance agar	74
Figure (10):	Growth of <i>Candida Tropicalis</i> on brilliance agar	75

الكشف الجزيئي عن الحمض النووي للمبيضات في مرض المذح الناتج عن الإصابة بالمبيضات

رسالة

توطئة للحصول على درجة الماجستير في الأمراض الجلدية
والتناسلية وأمراض الذكورة

مقدمة من

الطبيب / وليد إسماعيل محمد الذاهي

(بكالوريوس طب وجراحة)
جامعه ذمار

تحت اشراف

أ.د/ مي حسين السماحي

أستاذ الأمراض الجلدية والتناسلية وأمراض الذكورة
كلية الطب - جامعة عين شمس

د/ سحر السيد أحمد

أستاذ مساعد الأمراض الجلدية والتناسلية وأمراض الذكورة
كلية الطب - جامعة عين شمس

د/ مروي سعد محمد فتحي

مدرس الميكروبيولوجيا الطبية والمناعة
كلية الطب - جامعة عين شمس

كلية الطب

جامعة عين شمس

٢٠١٢

بسم الله الرحمن الرحيم

وَقُلْ رَبِّ زِدْنِي عِلْمًا

صدق الله العظيم

سورة طه (الاية ١١٤)

Acknowledgement

First, I wish to express my deep thanks and sincere gratitude to ALLAH for helping me, caring for me and granting me the ability to accomplish this thesis.

*I wish to express my deep appreciation and sincere gratitude to **May Hussein El-Samahy**, Professor of Dermatology, Venereology and Andrology, Faculty of Medicine, Ain Shams University, for her close supervision, valuable instructions, continuous help, patience and guidance. She has generously devoted much of her time and effort for planning and supervision of this study. It was a great honor to me to work under her direct supervision.*

*I wish to express my supreme gratitude to **Dr. Sahar El-Sayed Ahmed** Assistant Professor of Dermatology, Venereology and Andrology, Faculty of Medicine, Ain Shams University for her kind supervision, indispensable advice, continuous support and great help in this work.*

*I would like to express my great thanks to **Dr. Marwa Saad Mohammed Fathi** Lecturer of Medical Microbiology and Immunology, Faculty of Medicine, Ain Shams University, for her great help and contributions.*
