AIN SHAMS UNIVERSITY FACULTY OF ENGINEERING IRRIGATION AND HYDRAULICS DEPARTMENT

LAKE NASSER FLOOD ANALYSIS

By

Eng. Nahla El-Saied Sadek Taha

(M.Sc., Civil Engineering, Ain Shams University, 1998)

A Thesis Submitted in Partial Fulfillment of the requirements for the Degree of Doctor of Philosophy in Civil Engineering

Supervised by

Prof. Dr. Ahmed Ali Ali Hassan Irrigation and Hydraulics Dept. Faculty of Engineering, Ain Shams University. Prof. Dr. Ali Mohamed Talaat
Irrigation and Hydraulics Dept.
Faculty of Engineering,
Ain Shams University.

Prof. Dr. Mohamed Rafeek Abd El-Bary Vice Chairman of National Water Research Center,

National Water Research Center, Cairo, Egypt

Cairo 2002

STATEMENT

This dissertation is submitted to Ain Shams University for the partial fulfillment of the requirements for the degree of Doctor of Philosophy in Civil Engineering.

The work included in this thesis was carried out by the author in the Department of Irrigation & Hydraulics, Ain Shams University, from February 2000 to February 2002.

No part of this thesis has been submitted for a degree or a qualification at any other University or Institution.

AUTHOR CURRICULUM VITAE

PERSONAL DATA

Name : Nahla El-Saied Sadek Taha

Data of Birth : 14/1/1962

Place of Birth : Cairo, Egypt

Present Position: Assistant Researcher, Nile Research Institute, National

Water Research Center.

EDUATION

1985 : B.Sc. Civil Engineering, Ain Shams University.

1998 : M.Sc. degree, Hydraulic and Irrigation Dept.,

Faculty of Engineering Ain Shams University.

Thesis Title "MORPHOLOGICAL CHANGEDS ON

THE RIVER NILE BEFORE AND AFTER HIGH

ASWAN DAM"

To My parents, My dear husband Ahmed, My lovely children

ACKNOWLEDGMENTS

First of all, I'd like to thank Allah, the exalted, for offering me the opportunity to do my Doctor of Philosophy in Civil Engineering and providing me with such inestimable help and support that enabled me to achieve this work.

There are a number of people who have paved the way of my success. First and foremost, I acknowledge the deepest gratitude to my supervisor, **Dr. Ahmed Ali Ali Hassan** for his invaluable guidance, untiring effort, and sustainable encouragement given throughout to make the success of this thesis materialize. My grateful appreciation to **Dr. Ali Mohamed Talaat** for offering valuable help, excellent suggestions, and continuous advice throughout the preparation of this work.

I also acknowledge gratitude to **Dr. Mohamed Rafeek Abdel- Bary**, for his smart and valuable remarks that have opened different horizons in the way I approached my thesis.

It is a pleasure to express my thanks to **Dr. Ahmed Fahmy**, NRI director, for his support. A special sincere thank you goes to **Dr. Medhat Aziz**, Associate Professor, NRI for his useful guidance, valuable discussions and support throughout the preparation of this work.

I would like to appreciate and thanks all the NRI staff specially Dr. Karima, Dr. Youssef Hafez, Eng. Nasr Hekal, Eng. Diaa Abdel Wahab and Eng. Nader Shafik for their support and help.

My deepest thanks go to my husband Ahmed for his continuous, encouragement and support, which provided great aid for the accomplishment of this work. I'd like to express my deepest thanks,

gratitude and appreciation to my parents, my mother in low, my sisters and my dear brother Nabegh for their love and support.

Finally words are not enough to my lovely daughters, Raghda, Esraa, Norhan and my cute son Mohamed for their endless love, care, and support. Finally, I thank all those who have in various other ways contributed to the success of my research and to all of them, I would like to present this dissertation.
