Acknowledgement

I would like to express my sincere thanks and deepest gratitude to Prof. Dr. Abba El Mashad, Professor of Medical Microbiology and Immunology, Faculty of Medicine, Cairo University. She offered me the motherly encouragement, the generous support and many useful criticisms and suggestions throughout this study, which was carried out in the Virology Unit under her supervision. Her precious guidance and continued support, which were kindly given, are beyond this acknowledgement.

I am greatly indebted to Prof. Dr. Azza Badr, Assist. Professor of Medical Microbiology and Immunology, Faculty of Medicine, Cairo University, for her active cooperation, valuable advise and expert guidance throughout the entire work. My deepest thanks for her kind help and true assistance in fulfilling this work.

I am honored to thank Prof. Dr. Abdel Rahman Saliman, Assist. Professor of Internal Medicine and

Immunology, Faculty of Medicine, Ain Shams University, for his encouragement and the facilities he offered me in the Medical Departments and the Intensive Care Unit of Ain Shams University Hospital, which made the completion of this work possible.

To all my respectable Professors, staff members and colleagues at the Department of Medical Microbiology and Immunology, Faculty of Medicine, Cairo University, to whom I belong, I am deeply grateful.

I would like to extend my appreciation to the staff members of the Virology Department of the Vaccine and Antisera Institute who offered me the generous support, kind help and cooperation in fulfilling the tissue culture procedure of this work. Great thanks to them.

Finally, I am honored to thank the staff members of the Chest Department of Kasr el Aini University Hospital for their generous cooperation.
