ACKNOWLEDGMENT

First of all, ultimate thanks are due to our God " Allah " who gave me the power and knowledge for finishing this investigation.

Ultimate thanks to " Allah " I remember with great gratitude the soul of late Prof. Dr. Abdel-Azim Mohamed Badr. Dr. A. M. Badr was the head of the advisory committee who suggested the subject of this study.

I am expressing many thanks to Dr. G. Y. Hammam Professor of Agronomy, Faculty of Agriculture, Moshtohor, Zagazig University for his supervision, and reviewing the manuscript.

I would like to express my sincere thanks to Dr. Sadiék A. S. Mehasen, Associate Professor of Agronomy for his supervision and guidance.

Thanks are also due to Dr. F. M. Seif El-Naser Chief Researcher at the Field Crop Research Institute, Agricultural Research Centre, Giza, Egypt for his supervision and great help and guidance.

Thanks are also due to all staff members of Agronomy Department, Faculty of Agriculture, Moshtohor, Zagazig University, for their help during the study.

Thanks are also due to all Researchers in Crop Intensification Department, Field Crops Research Institute, A.R.C., Egypt for their help and encouragement during the study and manuscript preparation.

Deep thanks are also due to Dr. H. A. Ashoush, Researcher at the Field Crops Research Institute, Agricultural Research Centre, Giza, Egypt for his help and encouragement, throughout the course of my study.
