ACKNOWLEDGMENT

First and foremost, I thank GOD, who gave me strength to fulfill this work,

I am deeply grateful to Professor Dr. Mohamed Refaat, Professor and chairman of Physiology department Faculty of Medicine, Ain Shams University, for his support and generous cooperation throughout this work,

I would like to express my deep appreciation and utmost thanks to professor Dr. Fatma Mohamed Iebda, Professor of Physiology, Faculty of Medicine, Ain Shams University, for suggesting and planning this study, close supervision, and for her precious help in solving all the problems met me throughout the entire work .

I am indeed extremely grateful to professor Dr. Azza Abdel-Hameed Ahmed ,Professor of Physiology, Faculty of Medicine ,Ain Shams University , for her valuable direction and for her kind supervision throughout the whole work.

I would like to express my deep appreciation to Dr. Magda Hassanein Metwally, Lecturer of Physiology, Faculty of Medicine, Ain Shams University, for her kind help, generous cooperation and continuous encouragement.

I would like to thank all members of Physiology Department for their interest.

Last but not least, I would like to offer my deepest thanks and gratitude to my family for their helpful assistance and moral support.

CONTENTS

• Introduction	1
• Aim of work.	3
• Review of literature	
-Normal hemostasis	4
-Renal failure and hemostasis	
* Platelet dysfunction.	9
* Coagulation defects.	17
* Fibrinolytic abnormalities.	20
-Nicotine and hemostatic function.	22
* Nephrotoxic effects of nicotine	25
* Potential mechanisms of nicotine	26
-Selenium and renal failure	29
• Material and methods.	33
• Results.	55
• Discussion.	82
• Summary and conclusion.	91
• References.	94
• Arabic summary.
