Socio Economic	49
Nutritional Education Program	52
Malnutrition	53
Material and Methods	59
Results and Discussion	63
Summary	103
Recommendations	110
References	111
Appendix	123
Arabic Summary	

## List of Tables

Table	Page
1. Percent Distribution of Students According to Education Level of Mothers	63
2. Percent Distribution of Students According to Education level of Fathers	65
3. Percent Distribution of Students According to Occupation of Mothers	67
4. Percent Distribution of Students According to Occupation of Fathers	69
5. Percent Distribution of Students According to Family Income	71
6. Percent Distribution of Students According to Family Size	73
7. Percent Distribution of Students According to Education Level of Mother	75
8. Percent Distribution of Students According to Education Level of Father	77
9. Percent Distribution of Students According to Occupation of Mothers	79
10. Percent Distribution of Students According to Occupation of Fathers	81
11. Percent Distribution of Students According to Income of Family	83
12. Percent Distribution of Students According to Family Size	85
13. T. Test for Food Intake of Males Between Urban & Rural in primary School (boys)	87
14. T. Test for Food Intake of Females Between Urban & Rural in primary School (Females)	88
15. T. Test for Food Intake in Prim, at Urban Between Male & Female	89
16. T. Test for Food Intake in Prim, at Rural Between Male & Female	90
17. T. Test for Food Intake of Females In Prp. School Between Urban & Rural	91
18. Correlation Between Mean Food Intake of Urban Male Students and Family Size	92
19. Correlation Between Mean Food Intake of Urban Female Students and Family Size	93
20. Correlation Between Mean food Intake of Rural Male Students and Family Size	94
21. Comparison Between Means SD of Anthropometric Measurements of Primary School Students in Urban and Rural	95
22. Comparison Between Anthropometric Measurements of Males & Females At Primary School Students as Percentage of Standard	96

23. Anthropometric Measurements of all primary School Students as Percentage of Standard	97
24. Correlation Between the Education Level of Fathers and Food Intake of Mals of Rural Primary School	98
25. Correlation Between Mean Food Intake of Rural Females Students and Family	99
26. Correlation Between Mean Food Intake of Urban Adolescent Females Students and Family Size	100
27. Correlation Between Mean Food Intake of Rural Adolescent Female and Family Size	101
28. Anthropometric Measurements of all prep. School Students as Percentage of Standard	102

## List of Figures

Figure No.	Page
1. Percent Distribution of Students According to Education Level of Mother for Primary School	64
2. Percent Distribution of Students According to Education Level of Fathers for Students According to Education Level of Fathers for Primary School	66
3. Percent Distribution of Students According to Occupation of Mothers for Primary School	68
4. Percent Distribution of Students According to Occupation of Fathers for Primary School	70
5. Percent Distribution of Student According to Family Income for Primary School	72
6. Percent Distribution of Students According to Family Size for Primary School	74
7. Percent Distribution of Students According to Education Level of Mothers for Preparatory School	76
8. Percent Distribution of Students According to Education Level of Fathers for Preparatory School	78
9. Percent Distribution of Students According to Occupation of Mothers for Preparatory School	80
10. Percent Distribution of Students According to Occupation of Fathers for Preparatory School	82
11. Percent Distribution of Students According to Family Income for Preparatory School	84
12. Percent Distribution of Students According to Family Size for Preparatory School	86

## **ABBREVIATIONS**

RDA : Recommended dietary allowances.

URD : Upper River Division.

MUAC : Mid upper arm circumference.

SD : Standard deviation

WHO : World Health Organization.

CIC : Circulating immune complexes

W/A : Weight for age.
