## **ACKNOWLEDGMENT**

*Firstly and foremost, I find myself very obliged, and grateful to the Almighty; the Lord that granted, grants and will forever grant the source of knowledge, and awareness to His creation of human beings and the alike; the creator of the pain and the cure.*

*I am deeply indebted to my eminent **Professor Dr. Karima Ahmed Abdel-Khalik**; professor of pediatrics, Ain Shams University, for giving me the privilege of working under her supervision, and also for dedicating much of her precious time, valuable knowledge and wide experience to help me accomplish this thesis.*

*It was a great pleasure and honor to work under the supervision of **Professor Dr. Magda Yehia Hussein**; professor of pediatrics, Ain Shams University. She offered me much of her time, support, and wise advice and suggestions, which helped me throughout this study.*

*I owe my deepest gratitude to **Dr. Maisa Nasr Farid**; lecturer in the Postgraduate Institute of Childhood Studies, Ain Shams University, for her utmost help, kind indispensable guidance, valuable instructions, and technical support.*

*No words can express my deep appreciation and gratitude to my husband **Dr. Atef Mohy El-Din**; Poison Control Center, Ain Shams University. He performed all the laboratory investigations. He sacrificed too much and his cooperation was of great help to me. His experience was behind the whole of this study.*

A special words of thanks to **Assistant Professor Dr. Magda Abdel-Fattah**; the head of pediatric department, TMRI and to the whole staff of the pediatric department in the TMRI. Their cooperation and understanding are very much appreciated.

Lastly, I would like to express my sincere greetings to all the children who participated in this study, wishing them a healthy and happy future.
