ACKNOWLEDGEMENT

I am greatly indebted to Prof. Abdel Salam Al-Nowaihi Professor of Plant Taxonomy, Botany Department, Faculty of Science, Ain Shams University for his keen supervision, vital help and advice during the morphological and anatomical studies and for his guidance throughout this work and revision of the manuscript.

I would also like to express my thanks to Prof. Sayed Farag Khalifa, Professor of Plant Taxonomy & Flora and Head of Botany Department, Faculty of Science, Ain Shams University for his Keen supervision, generous help, whole hearted encouragement.

Deep thanks and sincere gratitude is due to Prof. Abdel Fattah Badr, Professor of Plant Genetics and Head of Botany Department, Faculty of Science, Tanta University for suggesting the problem, continuous guidance, vital help and advice on cytological and electrophoretic procedures and numerical analysis of data and for his assistance in preparation and revision of the manuscript.

I am also greatly indebted to Prof. Seham M. Moustafa
Ex-Head of Botany Department, Faculty of Science, Ain Shams
University for her encouragement throughout this work.

Thanks and gratitude are also to all staff members of
Botany Department, Faculty of Science, Ain Shams University,
and to every one who helped me to complete this thesis.

Lastly, I would like to express my sincere thanks to my
parents, my sister and to my son Saif for sacrificing their own
interests for the success of this work.
