**THE EFFECT OF EXPOSING QUAIL EGGS DURING INCUBATION
TO DIFFERENT REGIMES OF LIGHT ON HATCHABILITY
AND GROWTH OF CHICKS**

PRESENTED

By

**Nadia Abd El-Atty Hassan El-Wakeel
Poultry Production Department**

THESIS

PRESENTED TO

**Faculty of Agriculture, Menofiya University
Submitted in Partial Fulfillment of
The requirements for the degree**

of

Master of Science

in

**Agricultural Science
Poultry Production**

Poultry Production Department

Faculty of Agriculture

Menofiya University

1996

APPROVAL CERTIFICATE

This is to certify that the dissertation entitled

**THE EFFECT OF EXPOSING QUAIL EGGS DURING INCUBATION TO
DIFFERENT REGIMES OF LIGHT ON HATCHABILITY
AND GROWTH OF CHICKS.**

PRESENTED

By

Nadia Abd El-Atty Hassan El Wakeel

has been accepted towards fulfillment of the requirements for

M.Sc. degree in Agricultural Science
(Poultry Production)

Prof. Dr. Mohamed G. El-Deen Kamar

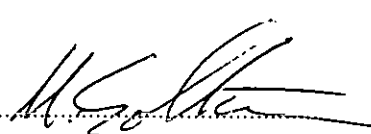

Prof. of Poultry Production.

Faculty of Agriculture,

University of Cairo.

Prof. Dr. Mohamed E. H. Soltan

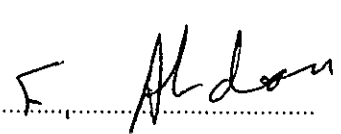

Prof. of Poultry Breeding,

Faculty of Agriculture,

University of Menofiya.

Prof. Dr. Farouk H. Abdou

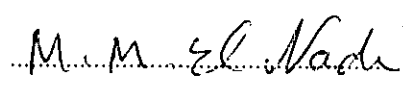

Prof. of Poultry Breeding,

Faculty of Agriculture,

University of Menofiya.

Prof. Dr. Mohamed Mohamed El-Nady

Prof. of Poultry Physiology,

Faculty of Agriculture,

University of Menofiya.

Major Professor

Committee in charge,

Date / / 1996

SUPERVISORS

PROF. Dr. Mohamed Mohamed El-Nady

Prof. of Poultry Physiology

Poultry Production Department

Faculty of Agriculture, Menofiya University

M.M. El Nady

PROF. Dr. Farouk Hassan Abdou

Prof. of Poultry Breeding and Head of

Poultry Production Department

Faculty of Agriculture, Menofiya University

F. Abdou

Dr. Mordy Abdel Azim Kalamah

Lecturer of Poultry Physiology

Poultry Production Department

Faculty of Agriculture, Menofiya University

Mordy Kalamah

ACKNOWLEDGEMENT

ACKNOWLEDGEMENT

I would like to express my sincere and profound thanks to Allah for helped me to prepair this book.

Deep wishes and gratitude is due to Prof. Dr. Mohamed Mohamed El-Nady, Prof. of Poultry Production Department, Faculty of Agriculture Menofiya, University, for their valuable guidance, help, constant encouragements, supervision and valuable support.

The author wishes to express his appreciation and sincere gratitude to Prof. Dr. Farouk Hassan Abdou, Prof. of Poultry Production Department, Faculty of Agriculture Menofiya, University, for suggesting the problem of the present study and his valuable advises encouragements and support.

Thanks and appreciation are extended to Dr. Mordy Abd El-Azem Kalama, Lecturer of Poultry Production Department, Faculty of Agriculture Menofiya, University, for this sincere help, guidance during this work and who have contributed in any way to make this study possible.

Finally, gratefulness and thanks are due to my family, all those who helped me, especially, my parents, for their patience and encouragement and the facilities they provide to me during this work.

Nadia Abd El-Atty El-Wakeel

LIST OF TABLES

Title	Page
1- The consecutive experimental study included.....	12
2- Composition of the experimental diets.....	15
3- The effect of different light regimes on hatchability and hatching time.....	19
4- Effect of light regimes and egg storage period on hatchability and hatching time.....	23
5- Analysis of variance of hatchability percentages of egg stored different periods and exposed to different light regimes during incubation	24
6- The effect of egg size on hatchability and hatching time under different lighting treatments	26
7- Analysis of variance of hatchability percentages of egg exposed to different light treatments.....	27
8- The effect of different light regimes on embryonic mortality.....	30
9- Effect of different light regimes and egg storage on embryonic mortality.....	31
10-Proportional mortality of light to dark (Mortality % of light /dark) of quail chicks hatched from eggs exposed to different light at different ages.....	33
11- Means \pm s.d of body weights for chicks hatched under continuous white light at different ages.....	36
12- Analysis of variance of body weight for chicks hatched under continuous white light at different ages.....	38
13- Means \pm s.d of body weight for chicks hatched under discontinuous white light at different ages.....	40
14- Analysis of variance of body weight at different ages of different chicks hatched under discontinuous white light.....	41
15- Means \pm s.d of body weight for chicks at different ages hatched under continuous red light.....	43

Title	Page
16- Analysis of variance of body weight at different ages for chicks hatched under continuous red light.....	44
17- Means \pm s.d of body weight at different ages of chicks hatched under continuous blue light.....	46
18- Analysis is of variance of body weight at different ages of chicks hatched under continuous blue light.....	47
19- Means \pm s.d of growth rate at different ages of chicks hatched under continuous white light.....	48
20- Analysis of variance of growth rate at different ages hatched under continuous white light.....	49
21- Means \pm s.d of growth rate at different ages of chicks hatched under discontinuous white light.....	52
22- Analysis of variance of growth rate at different ages of chicks hatched under discontinuous white light.....	53
23- Means \pm s.d of growth rate at different ages of chicks hatched under continuous red light.....	54
24- Analysis of variance of growth rate at different ages of chicks hatched under continuous red light.....	55
25- Means \pm s.d of growth rate (%) at different ages of chick hatched under continuous blue light.....	57
26- Analysis of variance of growth rate at different ages of chicks hatched under continuous blue light.....	58
27- Means \pm s.d of body weight of chicks hatched at different hatching time and fed different rations.....	59
28- Analysis of variance of body weight of chicks hatched at different hatching times and fed different rations.....	60
29- Means \pm s.d of growth rate (%) of chicks hatched at different hatching times and fed different rations.....	62
