**TOXICOLOGICAL STUDIES ON THE
NILE FISH *Clarias anguillaris* (L.)
EXPOSED TO CADMIUM AND LANNATE**

THESIS

Submitted to the Faculty of Science
Ain Shams University

In Partial Fulfillment of the Requirements
for the degree of

MASTER OF SCIENCE IN ZOOLOGY
(Aquatic Ecology)

By

ABIR ABDUL RAHMAN KOUSSA
B.Sc. in Biology
(Aquatic Ecology Diploma, Syria)

Supervised by

Professor Ahmed R. Ezzat
Professor of Physiology
Zoology Department, Faculty of
Science, Ain Shams University

Dr. Magdy T. Khalil
Assist.Prof. of Aquatic Ecology
Zoology Department, Faculty of
Science, Ain Shams University

Dr. El-Syed Fikry A. Eldawy
Lecturer of Comparative Anatomy
Zoology Department, Faculty of
Science, Ain Shams University

ACKNOWLEDGMENTS

A special thanks is extended to Professor Ahmed Refaat Ezzat, Professor of Physiology, Faculty of Science, Ain Shams University. I deeply value his guidance and substantial contribution to the planning and writing of this thesis, without which this work would not be possible.

I would like to offer my thanks to Dr. Magdy T. Khalil, Assistant Professor of Aquatic Ecology, for his suggestions, encouragement and support. Appreciation is also expressed to Dr. El-Sayed Fikry El-dawy, Lecturer of Comparative Anatomy for supervising the histological studies presented in this work.

A word of thanks is also extended to Dr. Hamdy H. Sweelam, Assistant Professor of Histology for his help in the presentation of the histological work.

Finally, to the head of the Zoology Department, Professor Abdulla Ibrahim, staff members, and fellow graduate students, I say thank you for your encouragement and support above and beyond the call of duty.

ABSTRACT
