Acknowledgment

First of all, I feel thankful to **Allah** for giving me the guidance and internal support in all my life and every step that I made until this study was completed.

I would like to express my appreciation to Dr.**Omaima Hassan Ghallab**, Associate Professor of Operative Dentistry, Faculty of Dentistry, Ain Shams University for her valuable ideas, constant encouragement, stimulating discussions, enlightening guidance, and keen supervision that she has kindly given me throughout the research program, which was instrumental in achieving the completion of this study.

I would like to express my heart full thanks and deep gratitude to Dr. **Shreen Bendary El Sayd**. Associate Professor of Medical Microbiology and Immunology , Faculty of Medicine Ain Shams University , for her unforgettable help, advice, wise guidance, and fruitful assistance during the course of this research.

Dedication

To the soul of my dear Father who taught me the principles that guided me through every step in my life. I hope he is proud of me now.

To my dear Mother, without her sacrifices I won't be where I am now.

To my dear loving Husband for his patience & support throughout my work.

To my sister, my brothers and my kids the real smile in my life.
