ACKNOWLEDEMENT

First and foremost thanks to **Allah** whose magnificent help was the main factor in accomplishing this research work.

I am greatly indebted to **Dr. Hoda M. Amin** Prof. of Prosthodontics, Faculty of Dentistry, Tanta University, for suggestion of this study and for instructive supervision, valuable guidance, the time and effort she generously gave me.

I am especially grateful to **Dr. Nahed A. Kashef** Associate Prof. of Prosthodontics, Faculty of Dentistry, Tanta University, for hard effort, fruitful discussion and sacrifice of her time for the sake of this work.

I would like to thank **Dr. Manal A. El Ebiary** Lecturer of Biomaterial, Faculty of Dentistry, Tanta University for guidance, sincere and generous help through out this study.

I would like to express my deepest regards, gratitude and appreciation to **Dr. Abd El-Fatah A. Sadaka** Prof. of Oral and Maxillofacial Surgery, Dean of Faculty of Dentistry, Tanta University, and **Dr. Mohamed M. Khamis** Associate Prof. of Prosthodontics, Faculty of Dentistry, Alexandria University, for their kind help and continuous valuable supervision.

Finally, I would like to thank all the members of the Prosthodontic Department, Faculty of Dentistry, Tanta University, for their encouragement and kind help.

*To my parents,
My Wife
And
My lovely Daughter*
