**OXIDATIVE STRESS IN HEPATITIS "C"
VIRAL INFECTION**

Σ.Ε.Ν

Thesis

Submitted for Partial Fulfillment of
M.D. Degree in
Internal Medicine

By

Mohammad Abo-El-Fotouh Saad

M. B., B. Ch., M. Sc.

Supervised By

Prof. Dr. M. Awad Allah Sallam

FRCP (L), FRCP (G), FACP (U.S.A.)

Prof. of Internal Medicine

Ain Shams University

Prof. Dr. Nehad Ahmed Amer

Prof. of Internal medicine

Ain Shams University

Prof. **Dr. Rawiah A. El-Feky**

Asst. Prof. ~~Prof.~~ *of Internal Medicine*

Ain Shams University

Dr. Khalid M. Abdel Wahab

Lecturer of Internal Medicine

Ain Shams University

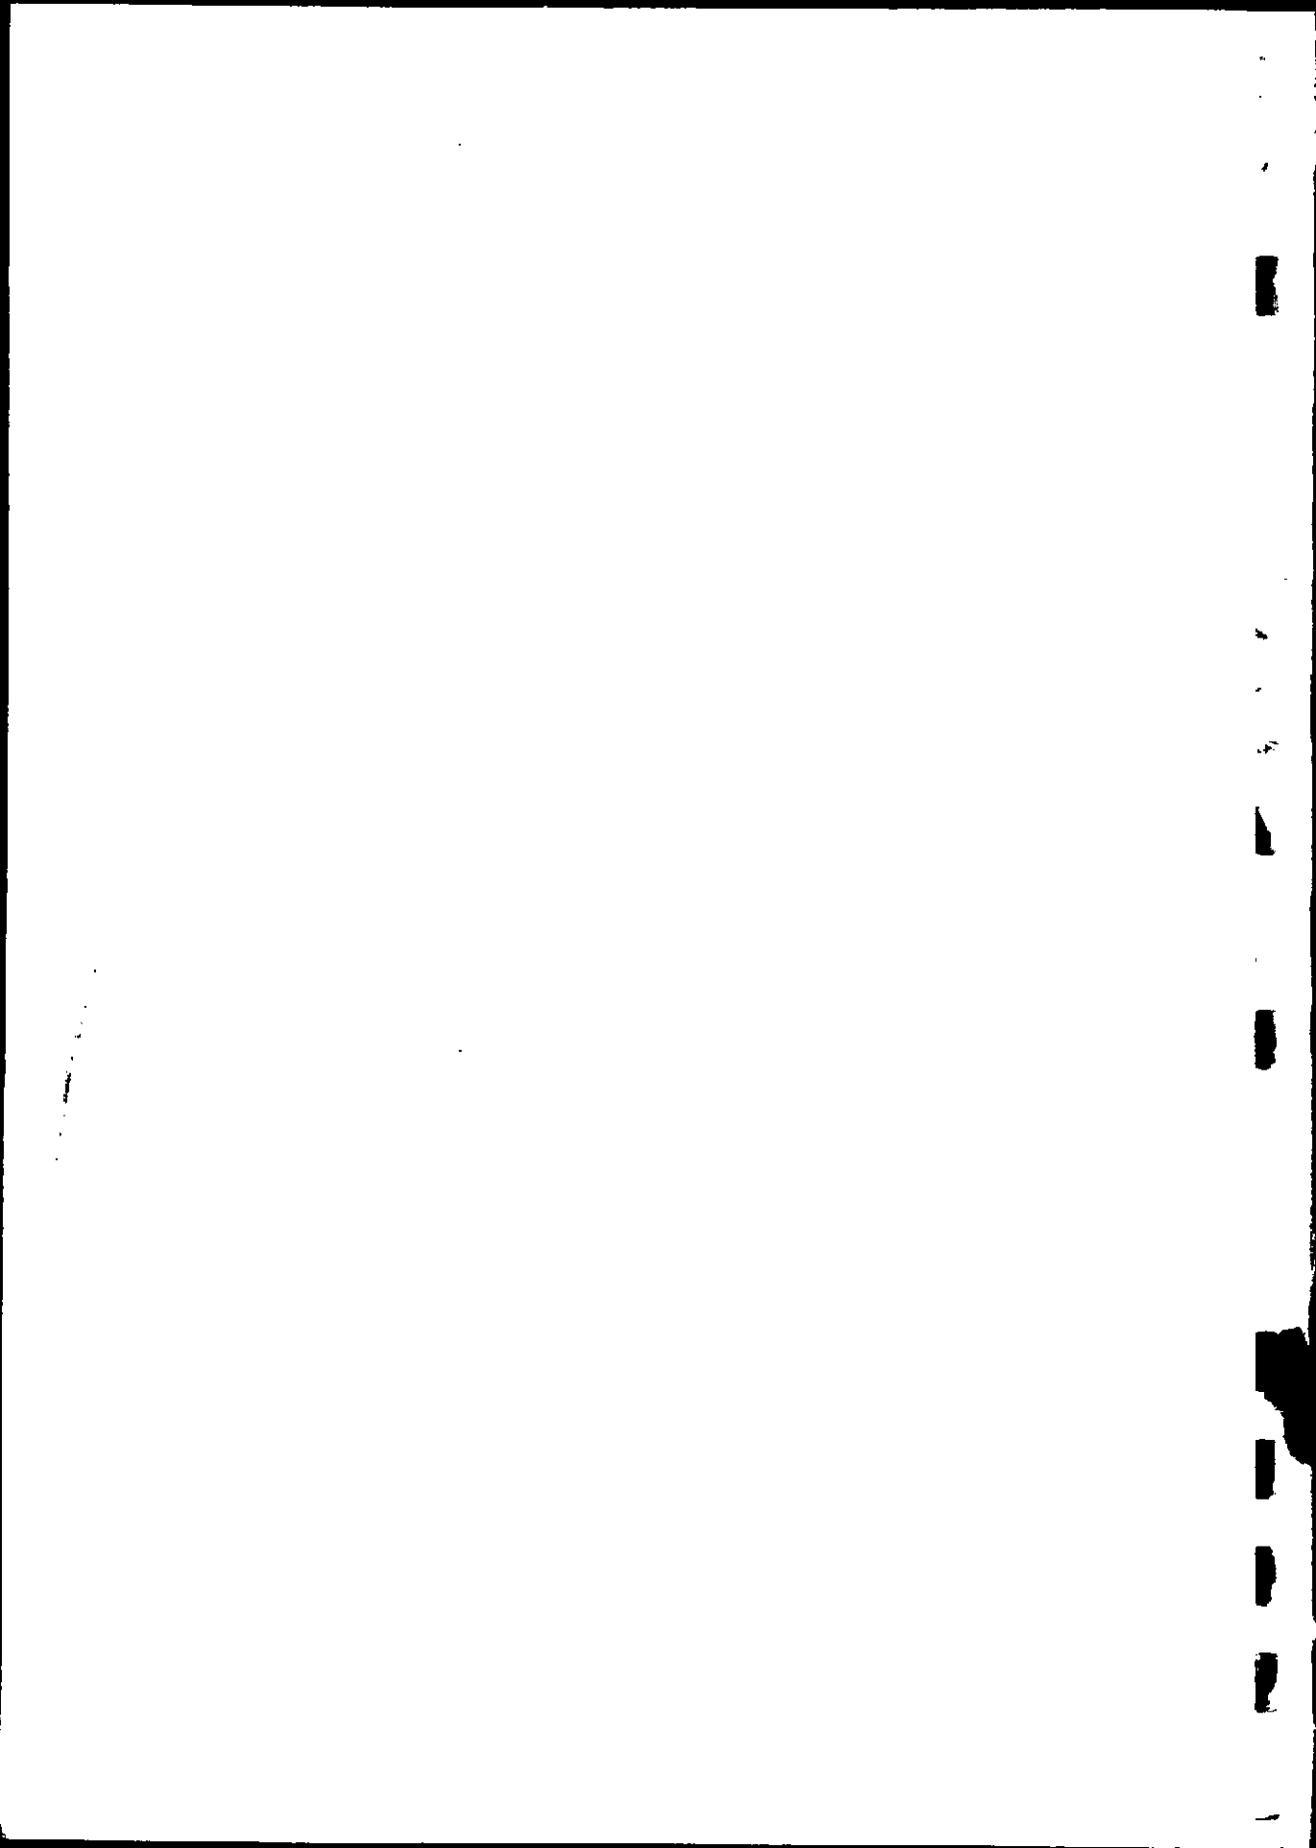

Dr. Hanaa Ahmed Amer

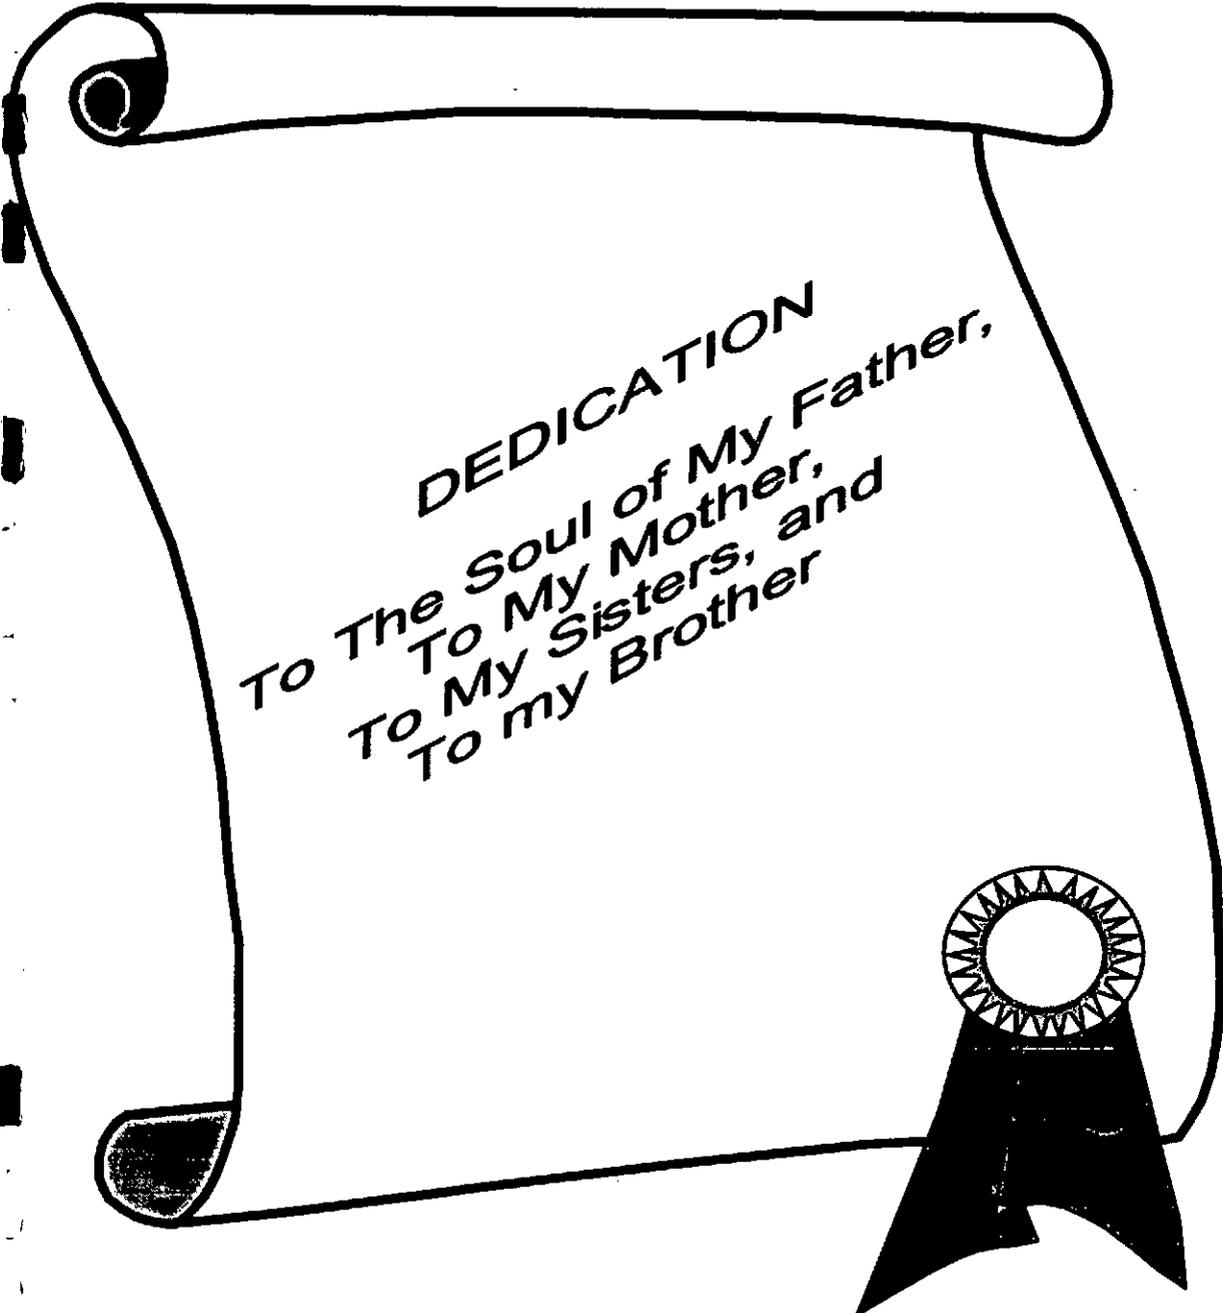

Lecturer of Clinical Pathology

Ain Shams University

Faculty of Medicine
AIN SHAMS UNIVERSITY

2000

DEDICATION

TO The Soul of My Father,
TO My Mother,
TO My Sisters, and
TO my Brother

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿ وَمَا تَوْفِيقِي إِلَّا بِاللَّهِ عَلَيْهِ تَوَكَّلْتُ ﴾

صَلَّى اللَّهُ الْعَظِيمِ

[هود : ٨٨]

Acknowledgements

I wish to express my deep thanks and gratitude to the great **Prof. Dr. Mohammad Awad Allah Sallam**, FRCP (L), FRCP (G), FACP (U.S.A.), Professor of Internal Medicine, Ain Shams University, for allowing me to register for the M.D. Degree in Internal medicine, for giving me the privilege of working and for his skillful guidance and supervision throughout the whole work. He gave me a lot of his great and deep experience.

I am greatly indebted to **Prof. Dr. Nehad Ahmed Amer**; Professor of Internal medicine, Ain Shams University; for her initial advice, constant guidance, patience and stimulating interest in conducting this study. Honestly, she facilitated so many difficulties that I have faced during this work.

I am also really thankful to **Dr. Rawiah A. El-Feky**, Lecturer of Internal Medicine and to **Dr. Khalid M Abdel Wahab**; Lecturer of Internal Medicine; Ain Shams University for their constructing criticism. They very kindly read the entire thesis, page by page and made many valuable advices.

My warm thank to **Dr. Hanaa Ahmed Amer**, Lecturer of Clinical pathology, Ain Shams University for her great help in the laboratory work and during revision of the thesis.

A special thanks to **Dr. Yasser Ahmed Zeitoun**, Lecturer of Clinical Pathology, Ain Shams University for his volunteer assistance and great effort during the laboratory work. To him, I am greatly indebted.

LIST OF FIGURES

No.	Title	Page
1	The univalent pathway for reduction of molecular oxygen	9
2	The univalent reduction of oxygen	11
3	Some examples of reactive oxygen species-generating systems	18
4	proposed mechanism for ischaemia-induced production of superoxide.	25
5	Diagrammatic illustration of reduction and protonation of semiquinone (SQ) portion of oxidative phosphorylation to show free radical intermediary (SQ [•]).	32
6	Schematic representation of lipid peroxidation	34
7	Mechanism of hydroxyl radical injury to DNA base	45
8	Superoxide dismutase	57
9	Schematic presentation of the glutathione (GSH) redox cycle	67
10	Summary of mechanisms of free radicals in pathological status.	92
11	How tissue damage can cause oxidative stress	93
12	The role and interrelationships of vitamins in antioxidant defense	96
13	Mechanisms of tissue injury	109
14	Mean age of patients and controls	159
