Acknowledgment

Before all, thank GOD,

Who gave me the strength and patience to fulfill this work,

I would like to express my thanks to Prof. Dr. Assem Rostom, consultant clinical oncologist, the general and medical manager of Alexandria Ayadi Almostakhal Oncology Centre (AAOC) for establishing the AAOC for helping cancer patients for free, , as well as for his encouragement.

I would like to express my deepest gratitude and appreciation to Prof. Dr. Metwally Aly Metwally Kotb, Prof. of Bio-Medical Physics, Bio-Medical Physics Department, Medical Research Institute, Alexandria University, for his precious advice, constructive guidance, willing assistance, kindness, valuable support and encouragement.

I would like to express my supreme gratitude to Prof. Dr. Sofeir Mahmoud El-Kholi, Prof. and Head of Bio-Medical Physics Department, Medical Research Institute, Alexandria University for her valuable guidance throughout this work, as well as for her constant moral support and encouragement.

I express my thanks to Prof. Dr. Yasser Moustafa Elkerm, Assis. Prof. of Clinical Oncology, Cancer Management and Research Department, Medical Research Institute, Alexandria University for his encouragement and valuable guidance throughout this work,

Really words can not describe how indebted and grateful I for Prof. Dr. Yasser Asaad Mohamed Rashed, Assis. Prof. of Medical Physics, Clinical Oncology and Nuclear Medicine Dept., Faculty of Medicine, Menofya Universit, for suggesting this point of research and kindly supplied me with all necessities for its success. His planning, meticulous supervision of every item in this work and invaluable discussions together with objective criticism are gratefully appreciated.

Finally, I would like to express my deepest gratitude to my family who supported and saw me through this work,

Sabbah Ibrahiem
