Ecological Studies on Insect Rice Fauna

By

Mohamed Shaban Mahmoud Assas

B.Sc. Agric. Sci. Zagazig University, 1999

Thesis

*Submitted in Partial Fulfillment
of the Requirements for the Degree
of
Master of Science*

In

*Agricultural Science
(Economic Entomology)*

*Department of Economic Entomology
Faculty of Agriculture, Kafr El-Sheikh
Tanta University*

2005

B 1192

Sheet 102

Approval Sheet

Name of Student : Mohamed Shaban Mahmoud Assas
Title of Thesis : Ecological Studies on Insect Rice Fauna.
Degree : M. Sc. in Economic Entomology

Supervisor Committee:

1- Prof. Dr. Hessien Abd El-Moniem Boraie

Prof. and Head of Economic Entomology, Fac. of Agric., Kafr El-Sheikh, Tanta Univ.

2- Prof. Dr. Mamdouh Mohamed Essawy

Prof. of Economic Entomology, Fac. of Agric., Kafr El-Sheikh, Tanta Univ.

3- Dr. Asmhan El-Said Youssef

Associate Professor, of Economic Entomology, Fac. of Agric., Kafr El-Sheikh, Tanta Univ.

Approved by:

Prof. Dr. Hessien Abd El-Moniem Boraie *H. Boraie*.....

Prof. Dr. Mohamed Salem Abd El-Wahed *M. Salem*.....

Prof. Dr. Mahmoud Ramzy Sherif *Mahmoud Ramzy Sherif*.....

Date: 2 / 10 / 2005

Acknowledgement

The author would like to express his deep thanks to Economic Entomology Department Fac. Agric., Kafr El-Sheikh, Tanta Univ., for giving me the opportunity to carry out the present work and Rice Resaerch and Training Center where I carried out most of the field experiments.

Sincere thanks are directed to Dr. Hessien A. Boraei, Prof. Econ. Entomol. and Head of Econ. Entomol. Dept., Fac. Agric., Kafr El-Sheikh, Tanta Univ., for suggesting the proplem., revising the text and close supervision, and also to Dr. Mamdouh. M. Essawy, Prof., Econ. Entomol. and Dr. Asmhian E. Youssef, Associate Prof., Econ. Entomol., Dept., Econ. Entomol., Fac. Agric., Kafr El-Sheikh Tanta Univ.,

Gratitude is also extended to Prof. Dr. Mahimoud R. Sherif, Head of Entomology Dept., Rice Research and Training Center, Sakha, Agric. Res. Center for providing me with important materials, Dr. Mahimoud I. Abou Youssef, Breeding Department, Rice Research and Training Center, Agric. Res. Center for providing me with hybrid rice varieties and Dr. Ahmed S. Hendawy, Biol. Cont. Specialist, Plant Prot. Res. Inst., Agric. Res. Center for helping in the identification. Sincere thanks are due to the staff of the Taxonomy Research Department at Plant Protection Research Institute for confirmation the identification.

Deep thanks grateful to Dr. Nasser I. Tashia Soil Sci. Dept., Sakha, Agric. Res. Stn., helping in estimating some chemical elements in rice plants and Dr. Sabry M. Shaheen Soil Sci. Dept., Fac. Agric., Kafr El-Sheikh, Tanta Univ. for evaluating silica in rice plants.

Thanks are due to all staff members of Econ. Entomol. Dept., Fac. Agric., Kafr El-Sheikh, Tanta Univ., for sincere help and support during this work.

Contents

	Page
I. Introduction.....	1
II. Review of Literature.....	3
1. Survey insect pests and their natural enemies inhabiting rice fields	3
2. Studies on the rice stem borer.....	11
2.1. Seasonal abundance and annual generations.....	11
2.2. Damage and losses.....	14
3. Plant characters.....	19
3.1. Relationship between certain rice morphological characters and infestation with the rice stem borer.....	19
3.2. Relationship between certain rice chemical characters and infestation with the rice stem borer.....	21
III. Materials and Methods.....	25
1. Survey insect pests and their natural enemies inhabiting rice field:	25
1.1. Survey by the different traps.....	25
1.1.1. Sweep net.....	25
1.1.2. Photoelector.....	27
1.1.3. Pit-fall trap.....	27
1.1.4. Vacuum machine.....	30
1.1.5. Malaise trap.....	30
1.1.6. Light trap.....	33
1.1.7. Water fine screen trap.....	33
1.1.8. Yellow sticky board traps.....	33
1.2. Evaluating the trap types used in the survey.....	37
2. Studies on the rice stem borer.....	38
2.1. Seasonal abundance.....	38
2.2. Field observation.....	38
3. Studies on recent hybrid rice varieties.....	39
3.1. Field experiments.....	39
3.1.1. Susceptibility of certain rice varieties to infestation with the rice stem borer.....	39
3.1.1.1. Infestation of the rice varieties.....	39
3.1.1.2. Rice genotypes preferred to oviposition preference.....	40
3.1.2. Effect of infestation on the rice grain yield.....	43
3.1.2.1. Effect of fertilizers on the infestation levels and rice grain yield.....	43
3.1.2.2. Effect of insecticide applications on the infestation level and rice grain yield.....	44

3.2. Studies on plant characters.....	44
3.2.1. Relationship between certain rice morphological characters and infestation with the rice stem borer.....	44
3.2.2. Relationship between certain rice chemical characters and infestation with the rice stem borer.....	45
IV. Results and Discussion.....	48
1. Survey insect pests and their natural enemies inhabiting rice fields	48
1.1. Survey by the different traps.....	48
1.1.1. Sweep net.....	48
1.1.2. Photoelector.....	48
1.1.3. Pit-fall trap.....	53
1.1.4. Vacuum machine.....	53
1.1.5. Malaise trap.....	55
1.1.6. Light trap.....	61
1.1.7. Water fine screen trap.....	63
1.1.8. Yellow sticky board traps.....	63
1.2. Evaluating the trap types used in the survey.....	65
2. Studies on the rice stem borer.....	71
2.1. Seasonal abundance.....	71
2.2. Field observation.....	73
3. Studies on recent hybrid rice varieties.....	75
3.1. Field experiments.....	75
3.1.1. Susceptibility of some rice varieties to infestation with the rice stem borer.....	75
3.1.1.1. Infestation of the rice varieties.....	75
3.1.1.2. Rice varieties preferred to oviposition preference.....	78
3.1.2. Effect of infestation on the rice grain yield.....	79
3.1.2.1. Effect of fertilizers on the infestation levels and rice grain yield.....	79
3.1.2.2. Effect of insecticide applications on the infestation levels and rice grain yield.....	83
3.2. Studies on plant characters.....	87
3.2.1. Relationship between certain rice morphological characters and infestation with the rice stem borer.....	87
3.2.2. Chemicals analysis of hybrid rice varieties in relation to th infestation with the rice stem borer.....	91
3.2.2.1. Potassium contents.....	91
3.2.2.2. The pH values.....	92
3.2.2.3. Phosphorus contents.....	93
3.2.2.4. Zinc contents.....	94

3.2.2.5. Iron contents.....	95
3.2.2.6. Manganese contents.....	96
3.2.2.7. Silica contents.....	97
3.2.2.8. Quantitative relations of chemical constituents of rice plants and rates of infestation by the rice stem borer....	99
VI. Conclusion.....	101
VI. Summary.....	103
VII. References.....	112
