Acknowledgements

I would like to thank God, the most Merciful. Without His guidance this work would not exist. I would like to acknowledge Prof. Dr. Nihad Mahmoud ElShimi, Professor of Clinical and Chemical Pathology, Faculty of Medicine, Cairo University, who can never be given the credit she deserves for her patience, technical support and the great effort she exerted. I am also grateful to Ass. Prof. Dr. Reem Jan Farid, Lecturer of Clinical and Chemical Pathology, Faculty of Medicine, Cairo University, who was always available, helpful, ready for my questions and for providing me with numerous helpful comments. My gratitude is extended to my friends and colleagues for being very supportive of this endeavor. I dedicate this work to all my family, especially my dear husband, for their enduring patience, support and for the peaceful environment they provided me with during this research.
