**Role of leptin hormone as a new
prognostic marker in monitoring different
therapeutic modalities for obesity**

Thesis

**Submitted in partial fulfillment for the requirement of the
master Degree in Physical Medicine**

By

**Mohamed Hassan Mohamed
M.B.,B. Ch. (Ain Shams University)**

Under

Supervision of

Prof. Dr. Nadia Abdul Salam El kadery

**Prof. Of Physical Medicine & Rehabilitation
Faculty of Medicine-Ain Shams University**

نadia عبد السلام الكادري

Dr. Mona Mansour M. Hassab El Nabi

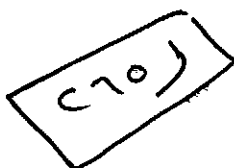

**Ass. Prof. Of physical Medicine & Rehabilitation
Faculty of Medicine – Ain Shams University**

مونا منسى

Dr. Ahmed M. El Yasaki

**Lecturer of Physical Medicine & Rehabilitation
Faculty of Medicine – Ain Shams University**

وَقُلْ رَأَيْتُنِي مَرْسُومًا
فَإِنْ كُنْتُ مِنْ عِنْدِ اللَّهِ لَبِيتُنِي بِرُحْمٍ
مُقَدَّمَةٍ

Acknowledgement

I would like to express my deepest gratitude to **Prof. Dr. Nadia Abdul Salam El Kadery**, Professor of Physical Medicine, Faculty of Medicine, Ain Shams University, for her help, precious advice and her constructive guidance all through this work.

Also, I would like to express my sincere appreciation to **Prof. Dr. Mona Mansour M. Hassab El Nabi**, Assis, Prof. of Physical Medicine, Faculty of Medicine, Ain shams University, for her support and valuable instructions,

My deep gratitude and thanks are expressed to **Dr.Ahmed M. El Yasaki**, Lecturer of Physical Medicine, Faculty of Medicine, Ain Shams University, for his faithful help and continuous -encouragement with no limits.

I am greatly indebted and grateful to **Dr. Nahla M. Zakaria Yousef**, Ass.Prof. Of Clinical Pathology, Faculty of Medicine, Ain Shams University, for her great effort in performing the practical part of this work.

Introduction	1
Aim of the work	3
Review of literature	
Obesity	4
Definitions	4
Direct techniques for estimating body fat	5
Indirect techniques for estimating body fat	8
Regulation of energy balance and body weight	11
What causes obesity	21
Level of energy intake in obese individuals	22
State of energy expenditure in human obesity	24
Genetics of obesity	26
Environmental influences	28
Consequences of obesity	29
Morbidity and mortality	40
Treatment of obesity	41
Diet	44
Behavior therapy	51
Role of exercise in treatment of obesity	53
The role of drugs in treatment of obesity	59
Surgical procedures used in treatment of obesity	65
Leptin	69
Role of Acupuncture in treatment of obesity	100
Patients and Methods	121
Results	139
Discussion	163
Summary and conclusion	174
References	176
Arabic summary	

List of table

Table No.	Title	Page
1.	Values of acceptable weight range and obese in relation to height.	11
2.	Molecules that regulate food intake	15
3.	Single gene defects in rodent model of obesity	26
4.	Metabolic and cardiovascular risk factors associated with visceral obesity	34
5.	Associated disease risk relative to BMI	41
6.	Weight reduction treatment options based on health risk	42
7.	Approximate energy expenditure in selected activities for people of different weights.	58
8.	Inducers and supressors of leptin expression	72
9.	Aproximate composition per 100 gram edible portion	126
10.	Descriptive data of study group	139
11.	Descriptive data of control group	140
12.	Initial descriptive data of subgroup I	141
13.	Initial descriptive data of subgroup II	141
14.	Effect of treatment with diet & exercise	142
15.	Effect of treatment with diet + acupuncture	143
16.	Comparison between subgroup I and control group	144
17.	Comparison between subgroup II and control group	144
18.	Comparison between subgroup I and subgroup II as regard age, Height SBP,DBP , FBS	145
19.	Comparison between subgroup I and subgroup II as regard weight, BMI , WHR and SL	145
20.	Comparison between subgroup I and subgroup II as regard change in weight, BMI , WHR and SL	146
21.	Correlation between S.leptin (before) and other variables in all studied cases	147
22.	Correlation between the decrease in S.leptin and the change in other variables in all studied cases	147
23.	Sensitivity of serum leptin	147
