بِسْمِ اللَّهِ الرَّحْمَٰنِ الرَّحِيمِ

يُؤْتِي الْحِكْمَةَ مَن يَشَاءُ ۚ
وَمَن يُؤْتَ الْحِكْمَةَ فَقَدْ أُوتِيَ
خَيْرًا كَثِيرًا ۗ وَمَا يَذَّكَّرُ
إِلَّا أُولُو الْأَلْبَابِ

"صدق الله العظيم"

"الآية ٢٦٩ من سورة البقرة"

TO MY PARENTS

AND

MY WIFE

ACKNOWLEDGMENTS

Great appreciation and gratitude are due to Dr. Ahmed Sabry. Prof. of Geophysics, Geophysics Department, Faculty of Science, Ain Shams University, for his faithful guidance, supervision, encouragement, kind help and valuable advises as well as his keen care during the circular and final revision for the accomplish this work.

The author is highly indebted to Dr. Mohamed Hamed Abdel Aal. Assistant Professor of Geophysics, Biological Sciences and Geology Department, Faculty of Education, Ain Shams University for his supervision, for doing his best in solving all problems which I'd faced dur ing the long run of the research work, the interpretation and guidance in all preparation of this thesis.

The author is deeply indebted to Dr. Mohamed El-Eraqi- Assistant Professor of Geophysics, Geology Department, Faculty of Science, Zagazig University, for continuous help and his encouragement and generous advice in the preparation of this research.

Finally, I would like to express my deepest gratitude and special thanks to my parents and my wife for their continuous encouragement.

Emad

CONTENTS

LIST OF TABLES

LIST OF FIGURES

ABSTRACT..... i

INTRODUCTION..... 1

CHAPTER I 4

GENERAL GEOLOGY 4

A) Geologiccal Setting.....4

A.1- The basement complex 4

A.2 - The sedimentary rocks.....7

B) Structural Setting 13

C) Mineralization And Hydrocarbon.....14

CHAPTER II 19

DATA PROCESSING AND RESULTS OF GRAVITY.....19

Methods Of Interpretations 21

A) Two dimensional digital Filtering 21

A.1- Filtering theory 21

A.2- Results of digital filtering 32

B) Structural trend analysis 45

B.1- Theory 45

B.2- Results of structural analysis 46

C) Autocorrelation 58

C.1- Theoretical basis of autocorrelation 59

D) Spectral Analysis 63

D.1- Theoretical basis of the spectral analysis .....65.

D.2 Results of Fourier's spectral analysis and autocorrelation.....67

E) Seismic Gravity Modelling 69

E.1- Linear gravity modelling 70

E.2- Results of linear gravity modelling 71

CHAPTER III 84

DATA PROCESSING AND RESULTS OF SEISMIC DATA.....84

A) INTRODUCTION.....84

B) Velocity Analysis And Acoustic Impedance Relations Between the Different Formations In The Study Area.....91

B.1- Average and interval velocity maps.....93

B.1.1- Interpretation of the velocity maps 93

C) Reflection Coefficient Analysis 108

D) Interpretation Of The Subsurface Structural Features (In The Area Between latitudes 27° 50`-28° 10`N and longitudes 33° 10` - 33° 20`E).....109

D.1- Structural - time contour maps 110

D.2- Structural - depth contour maps.....111

E) Subsurface Structural Significant Of Seismic Data.....111

E.1 - Introduction 111

E.2. Subsurface structural features.....118

CHAPTER IV 126

DISCUSSION AND CONCLUSION 126

CHAPTERV 134

REFERENCES..... 134

ARABIC SUMMARY

LIST OF TABLES

Tab. No.	Tab. Title	Page
1	Coefficients in the first quadrant of 8.0 unit regional filter (Coefficients in the table are actual coefficients multiplied by 10^6).	27
2	Coefficients in the first quadrant of 16 unit regional filter (Coefficient in the table are actual coefficients multiplied by 10^6).	28
3	Coefficients in the first quadrant of 21.3 unit regional filter (Coefficient in the table are actual coefficients multiplied by 10^6).	29
4	Outputs of spectral analysis and autocorrelation computations.	69
5	The TVF parameters, FBS parameters and display of studied seismic lines.	85
6	Field parameters of seismic lines.	90
7	The depth velocity analysis for different formations in Shukier-4 well.	105

Tab. No.	Tab. Title	Page
8	The depth velocity analysis for different formations in El-Safa-1 well.	105
9	The depth velocity analysis for different formations in El-Safa-2 well.	106
10	The depth velocity analysis for different formations in El-Safa-3 well.	107
11	The depth velocity analysis for different formations in W-Dara -1 well.	107
12	Distribution of the fault trends obtained from the reflection seismic data at top Kareem formation.	122
13	Distribution of the fault trends obtained from the reflection seismic data at top South Gharib formation.	122
14	Distribution of the fault trends obtained from the reflection seismic data at top Zeit formation.	123

LIST OF FIGURES

Fig. No.	Fig. Title	Page
1	Location map of the study area	3
2	Geological map (after Conoco and EGPC, 1987)	5
3	Bouguer gravity map (after EGPC, 1984).	20
4	Gravity map with 8-unit regional filter	33
5	Gravity map with 16-unit regional filter.	34
6	Gravity map with 21.3 unit regional filter.	35
7	Gravity map with 8-unit residual filter.	38
8	Gravity map with 16-unit residual filter.	39
9	Gravity map with 21.3 unit residual filter.	40
10	Gravity map with 16-8 unit band pass filter.	42
11	Gravity map with 21.3 - 16 unit band pass filter.	43
12	Gravity map with 21.3-8 unit band pass filter.	44
13	Rose diagram of the major tectonic trends at the northern, central and southern parts of the area.	48
14	Tectonic trends deduced from the Bouguer gravity map.	49
