A PHARMACOGNOSTICAL STUDY OF
***PLATANUS ORIENTALIS* L. FAMILY**
PLATANACEAE CULTIVATED IN EGYPT

A THESIS SUBMITTED BY

615, 13
Σ. 720P **DALIA ADEL M. AL-MAHDY**

FOR THE DEGREE OF MASTER IN PHARMACEUTICAL SCIENCES (PHARMACOGNOSY)
UNDER THE SUPERVISION OF

PROF. DR. TAHA S. EL-ALFY

PROFESSOR OF PHARMACOGNOSY
FACULTY OF PHARMACY
CAIRO UNIVERSITY

PROF. DR. HAMIDA M. EL-GOHARY

PROFESSOR OF PHARMACOGNOSY
FACULTY OF PHARMACY
CAIRO UNIVERSITY

DR. NADIA M. SOKKAR
ASSIST. PROFESSOR OF PHARMACOGNOSY
FACULTY OF PHARMACY
CAIRO UNIVERSITY

PHARMACOGNOSY DEPARTMENT

APPROVAL SHEET

A Pharmacognostical Study of *Platanus orientalis* L. Family Platanaceae cultivated in Egypt

Approved by:

.....*Prof. S. El-Alfy*.....

.....*Moshana E. L. Shakeri*.....

.....*Ahmed M. Abdel-Baky*.....

.....~~*Hamid*~~.....

.....*Madhoun*.....

Date: 11 / 11 / 2007

Acknowledgment

A word of thanks to God, the most gracious, merciful and the source of all knowledge by whose abundant grace this work has come to fruition.

Neither words nor the available space can describe my greatest appreciation, deepest thanks and sincere gratitude to Prof. Dr. Taha S. El-Alfy, Prof. of Pharmacognosy, Faculty of Pharmacy, Cairo University for supporting the work in this thesis, his continuous valuable supervision, constructive comments, indispensable advice, backup and kind and restful smile.

I am profoundly grateful to Prof. Dr. Hamida M. El-Gohary, Prof. of Pharmacognosy, Faculty of Pharmacy, Cairo University for her fruitful supervision, continuous encouragement, kind relation, assistance and help during this work.

I would like to thank Dr. Nadia M. Sokkar, Assist. Prof. of Pharmacognosy, Faculty of Pharmacy, Cairo University for her continuous supervision, assistance and help during the development of this work.

I would like to thank Prof. Dr. Amani A. Sleem, Prof. of Pharmacology, National Research Center for carrying out the pharmacological and toxicological testings of the plant extracts.

I would like to express my deep appreciation to Dr. Sahar Abd El-Tawab, Lecturer of Plant Cytology and Genetics, Botany Department, Faculty of Girls, Ain Shams University for carrying out the DNA fingerprinting study of the plant.

I am grateful to all members of Pharmacognosy Department, Faculty of Pharmacy, Cairo University, who gave me the benefit of their experience and encouragement. Special thanks are owed to Dr. Inas Hussein and Dr. Sherifa M. Fahmi Lecturers of Pharmacognosy, Faculty of Pharmacy, Cairo University, for their continuous support and encouragement.

My deep appreciation is extended to all my colleagues in the Pharmacognosy Department specially Dr. Shahira E. El Komy and Dr. Hosam AbdAllah, Lecturers of Pharamcognosy for their unlimited co-operation and great support.

Finally my very special thanks, everlasting gratitude and sincere love are devoted to my beloved mother and father to whom words are not enough to describe their care, tenderness and support. They provided me with the suitable atmosphere to work and supplied me with moral and adequate financial support. I owe them my success. I am deeply thankful to my dear brother who spared no effort to give me all the assistance, encouragement and love.

Dalia Adel M. Al Mahdy
