Acknowledgements

A word of thanks to Allah, the source of all knowledge by whose abundant grace this work has come to completion.

I feel like showing my greatest and deepest appreciation to the most generous, kind and patient team. I have got the honor to work with.

I wish to express my appreciation and sincere gratitude to Prof. Dr. Abdel Rahman El Shabrawy, Professor of Pharmacognosy, Faculty of Pharmacy, Cairo University, for his kind help, indispensable advice and encouragement from the beginning of this work.

I would like to express my deep everlasting gratitude to Prof. Dr. Hamida El Gohary, Professor of Pharmacognosy, Faculty of Pharmacy, Cairo University, for her supervision, fruitful advice, constant valuable guidance and for her effort in the presentation of this work.

I am grateful to Dr. Mohamad Youssef Assistant Professor of Pharmacognosy, Faculty of Pharmacy, Cairo University, for his kind assistance, help, and support.

I am very grateful to my supervisors who were keen on seeing the successful completion of this thesis. I am for ever indebted to them and hope that their good deeds return to them many folds.

I would like to thank Prof Dr. Amani A. Sleem from the Pharmacology Department National

Research Center, for carrying out the pharmacological study.

I have taken advantage of the generosity of too many members of the Pharmacognosy Department. Of very special consideration in this respect are Dr. Shahera El Komy and Mohamad nabil, Pharmacognosy Department, Faculty of Pharmacy, Cairo University, for their unlimited co-operation and great support.

A heartily gratitude, appreciation and indefinite thanks are owed to my dear Parents and to my husband who are keen on seeing my future success and prosperity. I owe them my life and success; they gave and still give me all what I need.

Rania Ahmad El-Gedaily

Contents

Subject	Page
Introduction.....	1
Review of literature.....	3
Taxonomy.....	23
Materials, Apparatus and Techniques.....	28

Part I Botanical Study

Chapter I: Macromorphology of *Pongamia pinnata* Linn.

1-The stem.....	34
2-The leaf.....	34
3-The flower.....	37
4-The fruit.....	40
5-The seed.....	40

Chapter II: Micromorphology of *Pongamia pinnata* Linn.

1-The stem.....	43
2-The leaf.....	49
3-The flower.....	56
4-The fruit.....	69
5-The seed.....	74

Part II Phytochemical Study

Chapter I: Preliminary Phytochemical Screening.....83

Chapter II: study of the volatile oil of the flowers of *Pongamia pinnata* Linn.....85

Chapter III: Investigation of the lipid contents of the seeds and flowers of *Pongamia pinnata* Linn.89

Chapter IV: Investigation of the phenolic contents of the flowers and seeds of <i>Pongamia pinnata</i> Linn.....	95
A: Investigation of the petroleum ether extract of the flowers.....	95
B: Investigation of the ethyl acetate extract of the flowers	118
C: Investigation of the petroleum ether extract of the seeds (fixed oil)	131

Part II

Biological Study

Pharmacological Studies:

1-Determination of the median lethal dose.....	138
2-Anti-inflammatory activity.....	141
3- Anti- pyretic activity.....	143
4- Analgesic activity.....	146
5-Anti-ulcer activity.....	149
6-Anti-diabetic activity.....	151
General Summary.....	157
Recommendations.....	168
References.....	169
Arabic Summary	

List of tables

Table	Page
1. List of compounds isolated from different organs of <i>Pongamia pinnata</i> Linn.....	12
2. Conditions for GC/MS analysis of volatile oil of the flowers....	32
3. Conditions for GLC analysis of the fatty acid methyl esters and unsaponifiable matter.	33
4. Microscopical measurements of different organs of <i>Pongamia pinnata</i> Linn. (in microns).....	80
5. Results of the phytochemical screening of the different organs of <i>Pongamia pinnata</i> Linn.....	84
6. Results of GC\MS analysis of the volatile oil of the flowers of <i>Pongamia pinnata</i> Linn.....	87
7. Summary of the results of GC\MS analysis of the volatile oil...	88
8. Results of GLC analysis of the unsaponifiable matter of the fixed oil of the seeds of <i>Pongamia pinnata</i> Linn.....	91
9. Results of GLC analysis of the unsaponifiable matter of the petroleum ether extract of the flowers of <i>Pongamia pinnata</i> Linn.....	92
10. Results of GLC analysis of the fatty acid methyl esters of the fixed oil of the seeds of <i>Pongamia pinnata</i> Linn.....	93
11. Results of GLC analysis of fatty acid methyl esters of the petroleum ether extract of the flowers of <i>Pongamia pinnata</i> Linn.....	94
12. Data of compound F ₁	99
13. Data of compound F ₂	104
14. Data of compound F ₃	109
15. Data of compound F ₄	112
16. Data of compound T.....	116

17. Data of compound F ₅	120
18. Data of compound F ₆	123
19. Data of compound F ₇	127
20. Data of compound F ₈	134
21. LD50 of the seed oil, detoxified seed oil, the aqueous and alcoholic extracts of different organs of <i>Pongamia pinnata</i> Linn.....	139
22. Acute anti-inflammatory activity of the seed oil, detoxified seed oil, the aqueous and alcoholic extracts of different organs of <i>Pongamia pinnata</i> Linn.....	141
23. Antipyretic activity of the seed oil, detoxified seed oil, the aqueous and alcoholic extracts of different organs of <i>Pongamia</i> <i>pinnata</i> Linn	144
24. Analgesic activity of the seed oil, detoxified seed oil, the aqueous and alcoholic extracts of different organs of <i>Pongamia pinnata</i> Linn	147
25. Antiulcer activity of the seed oil, detoxified seed oil, the aqueous and alcoholic extracts of different organs of <i>Pongamia pinnata</i> Linn.....	149
26. Effect of the aqueous extracts of different organs of <i>Pongamia</i> <i>pinnata</i> Linn. on blood glucose level in diabetic rats.....	152
27. Effect of seed oil, detoxified seed oil and the alcoholic extracts of different organs of <i>Pongamia pinnata</i> Linn. on blood glucose level in diabetic rats.....	153
