

Analytical Study of Some Anti Infective Drugs

THESIS

Presented by

Nermine Samir Abdelshafi Ghoniem

B. Pharm. Sci., 2005

For the fulfillment of Master Degree in Pharmaceutical Sciences
“Analytical Chemistry”

Under the Supervision of

Prof. Dr. Fatma Issa Khattab

Professor of Analytical Chemistry

Faculty of Pharmacy

Cairo University

Dr. Nesrin Khamis Ramadan

Ass. Professor of Analytical Chemistry

Faculty of Pharmacy

Cairo University

Dr. Maha Abdelmonem Hegazy

Lecturer of Analytical Chemistry

Faculty of Pharmacy

Cairo University

Department of Pharmaceutical Analytical Chemistry

Faculty of Pharmacy

Cairo University

2010

This thesis is dedicated to my late grandfather

Prof. Dr. Mohamed Mohamed Yousef Amer

Professor of Analytical Chemistry, Faculty of
Pharmacy, Cairo University

Acknowledgment

Firstly, I feel always indebted to “ALLAH”, the kindest and the most merciful.

I would like to express my gratitude to **Prof. Dr. Fatma Issa Khattab**, Professor of Analytical Chemistry, Faculty of Pharmacy, Cairo University, for her prudent supervision, valuable advice and sincere continuous support.

I would like to express my deep thanks to **Ass. Prof. Dr. Nesrin Khamis Ramadan**, Assistant Professor of Analytical Chemistry, Faculty of Pharmacy, Cairo University, for her invaluable help and fruitful criticism.

I wish to express my gratitude to **Dr. Maha Abdelmonem Hegazy**, Lecturer of Analytical Chemistry, Faculty of Pharmacy, Cairo University, for her sincere help, kind guidance and valuable assistance during the preparation of all parts of the thesis.

My deep thanks to all my colleagues in Analytical Chemistry Department for their productive co-operation, continuous support and their sympathetic feelings.

Most important, I would like to express my deep gratitude to my parents, my brother, my best friend Amany and all my family for their love, help, patience, support, encouragement and non stopping prayers.

Nermine Samir Abdelshafy

2010

List of Figures.....	xvi
List of Tables.....	xxi
List of Abbreviations.....	xxvi
Preface.....	xxx
Summary.....	xxxi

Part I

General Introduction

I.1. Infection.....	1
I.1.1. Definition.....	1
I.1.2. Types of infections	1
I.1.2.1. Bacterial infection	1
I.1.2.2. Viral infections	1
I.1.2.3. Fungal infections	1
I.1.2.4. Protozoal infections	1
I.2. Anti infective drugs	2
I.2.1. Definition.....	2
I.2.2. Classification of anti infective drugs.....	2
I.2.2.1. Anti bacterial drugs	2
I.2.2.2. Antiviral drugs.....	3
I.2.2.3. Antifungal drugs.....	3
I.2.2.4. Antiprotozoal drugs.....	3
I.3. Drugs under investigation.....	4
I.3.1. Metronidazole and Ornidazole	4

I.3.1.1. Mode of action.....	4
I.3.1.2. Uses	4
I.3.1.3. Adverse effects	5
I.3.2. Spiramycin.....	5
I.3.2.1. Mode of action.....	5
I.3.2.2. Uses	5
I.3.2.3. Adverse effects	6

Part II

Simultaneous Determination of Metronidazole and Spiramycin

Section A

Literature Review

II. A. 1. Compounds under study.....	7
II. A. 2. Methods of analysis.....	8
II. A. 2. 1. Spectrophotometric methods.....	8
II. A. 2. 2. Chemometric methods	9
II. A. 2. 3. Electrochemical Methods.....	10
II. A. 2. 4. Chromatographic Methods.....	11
II. A. 2. 5. NMR method.....	13
II. A. 2. 6. Methods for the combination of both drugs.....	13

Section B

**Simultaneous Determination of Metronidazole and Spiramycin by Direct
and Derivative Spectrophotometry**

II.B.1. Introduction	15
II.B.2. Experimental.....	15
II.B.2.1. Instruments	15
II.B.2.2. Materials	16
II.B.2.2.1. Samples.....	16
II.B.2.2.2. Chemicals and reagents	16
II.B.2.3. Solutions	16
II.B.2.4. Laboratory prepared mixtures	17
II.B.2.5. Procedure	17
II.B.2.5.1. spectral characteristics of MZ and SP	17
II.B.2.5.2. Linearity	17
II.B.2.5.3. Accuracy	18
II.B.2.5.4. Precision	18
II.B.2.5.5. Analysis of laboratory prepared mixtures	18
II.B.2.5.6. Analysis of pharmaceutical dosage form (Spirazole [®] tablets).	19
II.B.3. Results and discussion.....	19

Section C

**Simultaneous Determination of Metronidazole and Spiramycin by Direct
and Derivative Ratio Spectrophotometry**

II.C.1. Introduction	29
II.C.2. Experimental.....	29

II.C.2.1. Instruments	29
II.C.2.2. Materials	29
II.C.2.2.1. Samples.....	29
II.C.2.2.2. Chemicals and reagents	29
II.C.2.3. Solutions	29
II.C.2.4. Laboratory prepared mixtures	29
II.C.2.5. Procedure	30
II.C.2.5.1. Spectral characteristics of MZ and SP	30
II.C.2.5.2. Linearity	30
II.C.2.5.3. Accuracy	30
II.C.2.5.4. Precision	31
II.C.2.5.5. Analysis of laboratory prepared mixtures	31
II.C.2.5.6. Analysis of pharmaceutical dosage form (Spirazole® tablets.)	31
II.C.3. Results and discussion.....	31

Section D

Simultaneous Determination of Metronidazole and Spiramycin by Mean Centering of Ratio Spectra Method

II.D.1. Introduction	40
II.D.2. Experimental	43
II.D.2.1. Instruments	43
II.D.2.2. Software	43
II.D.2.3. Materials	43
II.D.2.3.1. Samples	43

II.D.2.3.2. Chemicals and reagents.....	43
II.D.2.4. Solutions.....	43
II.D.2.5. Laboratory prepared mixtures.....	43
II.D.2.6. Procedure.....	43
II.D.2.6.1.Spectral characteristics of MZ and SP.....	43
II.D.2.6.2.Linearity.....	43
II.D.2.6.3. Accuracy.....	44
II.D.2.6.4. Precision.....	44
II.D.2.6.5. Analysis of laboratory prepared mixtures.....	45
II.D.2.6.6. Analysis of pharmaceutical dosage form (Spirazole [®] tablets).	45
II.D.3. Results and discussion.....	45

Section E

Simultaneous Determination of Metronidazole and Spiramycin by Isoabsorptive Point Method

II.E.1. Introduction.....	55
II.E.2. Experimental.....	57
II.E.2.1. Instruments.....	57
II.E.2.2. Materials.....	57
II.E.2.2.1. Samples.....	57
II.E.2.2.2. Chemicals and reagents.....	57
II.E.2.3. Solutions.....	57
II.E.2.4. Laboratory prepared mixtures.....	57
II.E.2.5. Procedure.....	57

II.E.2.5.1.Spectral characteristics of MZ and SP.....	57
II.E.2.5.2.Linearity.....	57
II.E.2.5.3. Accuracy	58
II.E.2.5.4. Precision	58
II.E.2.5.5. Analysis of laboratory prepared mixtures	59
II.E.2.5.6. Analysis of pharmaceutical dosage form (Spirazole [®] tablets.)	59
II.E.3. Results and discussion	59

Section F

Simultaneous Determination of Metronidazole and Spiramycin by Ratio Subtraction Method

II.F.1.Introduction.....	67
II.F.2. Experimental	68
II.F.2.1. Instruments.....	68
II.F.2.2. Materials	68
II.F.2.2.1. Samples	68
II.F.2.2.2. Chemicals and reagents	68
II.F.2.3. Solutions	68
II.F.2.4. Laboratory prepared mixtures.....	68
II.F.2.5. Procedure	69
II.F.2.5.1. Spectral characteristics of MZ and SP.....	69
II.F.2.5.2.Linearity	69
II.F.2.5.3. Accuracy	69
II.F.2.5.4. Precision.....	70

II.F.2.5.5. Analysis of laboratory prepared mixtures.....	70
II.F.2.5.6. Analysis of pharmaceutical dosage form (Spirazole [®] tablets).	70
II.F.3. Results and discussion	70

Section G

Simultaneous Determination of Metronidazole and Spiramycin by Multivariate Calibration Methods

II.G.1. Introduction	80
II.G.1.1. Theoretical background to multivariate analysis	80
II.G.1.2. Data pre-treatment:.....	81
II.G.1.3. Multivariate calibration	82
II.G.1.3.1. Classical least squares (CLS)	82
II.G.1.3.2. Inverse least squares (ILS)	83
II.G.1.3.3. Principal Component Regression (PCR)	84
II.G.1.3.4. Partial Least Squares (PLS)	85
II.G.1.4. Model Validation.....	86
II.G.1.4.1 Cross validation.....	86
II.G.1.4.2 External validation	86
II.G.1.5. Experimental Design	87
II.G.2. Experimental	88
II.G.2.1. Instruments	88
II.G.2.2. Software	88
II.G.2.3. Materials	88
II.G.2.3.1. Samples	88

II.G.2.3.2. Chemicals and reagents.....	88
II.G.2.4. Solutions.....	88
II.G.2.5. Calibration and validation sets	88
II.G.2.6. Procedure.....	89
II.G.2.6.1. Spectral characteristics of MZ and SP	89
II.G.2.6.2. Analysis of pharmaceutical dosage form (Spirazole [®] tablets).	89
II.G.3. Results and discussion.....	89

Section H

Simultaneous Determination of Metronidazole and Spiramycin by High Performance Liquid Chromatography

II.H.1. Introduction	98
II.H.2. Experimental	98
II.H.2.1. Instruments	98
II.H.2.2. Materials	99
II.H.2.2.1. Samples	99
II.H.2.2.2. Chemicals and reagents.....	99
II.H.2.3. Solutions.....	99
II.H.2.4. Procedure.....	99
II.H.2.4.1. Linearity	99
II.H.2.4.2. Accuracy.....	100
II.H.2.4.3. Precision	100
II.H.2.4.4. Analysis of pharmaceutical dosage form (Spirazole [®] tablets).	101

II.H.2.4.5. System suitability	101
II.H.3. Results and discussion.....	101

Section I

Simultaneous Determination of Metronidazole and Spiramycin by Ion selective Electrode Technique

II.I.1. Introduction.....	109
II.I.2. Experimental	111
II.I.2.1. Instruments.....	111
II.I.2.2. Materials	111
II.I.2.2.1. Samples	111
II.I.2.2.2. Chemicals and reagents	112
II.I.2.3. Standard solutions.....	112
II.I.2.4. Procedure	113
II.I.2.4.1. Preparation of electroactive coating membrane	113
II.I.2.4.2. Direct determination of MZ and SP in their pure powdered samples	113
II.I.2.4.3. Study of the experimental conditions	114
II.I.2.4.4. Analysis of pharmaceutical dosage form (Spirazole [®] tablets).	115
II.I.3. Result and discussion.....	116
II.I.3.1. Sensors fabrication.....	116
II.I.3.2. Sensors calibration and response time.....	119
II.I.3.3. Effect of pH and temperature	119
II.I.3.4. Sensor selectivity	120

Pat III

Stability Indicating Methods for the Determination of Ornidazole

Section A

Literature Review

III. A. 1. Compound under study	130
III. A. 2. Methods of analysis	130
III. A. 2.1. Titrimetric methods.....	130
III. A. 2.2. Spectrophotometric methods	131
III. A. 2.3. Electrochemical methods	131
III. A. 2.4. Chromatographic methods	132
III. A. 2.5. Chemiluminescent method	134

Section B

Stability Indicating Method for the Determination of Ornidazole by Derivative Spectrophotometry

III.B.1. Introduction	135
III.B.2. Experimental	135
III.B.2.1. Instruments	135
III.B.2.2. Materials.....	135
III.B.2.2.1. Samples	135
III.B.2.2.2. Chemicals and reagents.....	136
III.B.2.3. Solutions.....	136
III.B.2.4. Laboratory prepared mixtures	136
III.B.2.5. Procedure.....	137

III.B.2.5.1. Spectral characteristics of OZ and OZ Deg	137
III.B.2.5.2. Linearity	137
III.B.2.5.3. Accuracy	137
III.B.2.5.4. Precision	137
III.B.2.5.5. Analysis of laboratory prepared mixtures	138
III.B.2.5.6. Analysis of pharmaceutical dosage form (Tibezole [®] tablets.)	138
III.B.3. Results and discussion	138

Section C

Stability Indicating Method for the Determination of Ornidazole by Derivative Ratio Spectrophotometry

III.C.1. Introduction	153
III.C.2. Experimental	153
III.C.2.1. Instruments	153
III.C.2.2. Materials	153
III.C.2.2.1. Samples	153
III.C.2.2.2. Chemicals and reagents	153
III.C.2.3. Solutions	153
III.C.2.4. Laboratory prepared mixtures	153
III.C.2.5. Procedure	153
III.C.2.5.1. Spectral characteristics of OZ and OZ Deg	153
III.C.2.5.2. Linearity	154
III.C.2.5.3. Accuracy	154
III.C.2.5.4. Precision	154
