Biochemical Detection of Some Proteins Associated with Schistosomiasis

By

Hisham Ismail Mohammed Osman

B.Sc. (Chemistry), Mansoura University, (1990)
Chemist, Gastro-Enterology Center, Mansoura University.

A THESIS

Submitted for the master degree of Science in Organic Chemistry
(Biochemistry)

SUPERVISORS

Prof. Dr.

Abdel-Moneim A. El-Torgoman

Prof. of Organic Chemistry
Faculty of Science
Menofia University

Abdel Moneim El Torgoman

Prof. Dr.

Abdelfattah M. Attallah

Prof. of Immunology & Genetics
Gastro-Enterology Center
Mansoura University

Abdelfattah M. Attallah

Prof. Dr.

Salah M. El-Kousy

Prof. of Organic Chemistry
Faculty of Science
Menofia University

Salah M. El-Kousy

Referee Committee Decision

Name : Hisham Ismail Mohammed Osman.

**Title : Biochemical detection of some proteins associated
with Schistosomiasis.**

Referee Committee :

No	Name	Position
1.	Prof. Dr. Mohamed M. Abdelfattah	. Prof. of Biochemistry, Faculty of Science , Ain Shams University, Cairo, Egypt.
2.	Prof. Dr. Yehia S. Shaker	. Prof. of Biochemistry, National Research Center, Cairo, Egypt.
3.	Prof. Dr. Abdelfattah M. Attallah	. Prof. of Immunology, George Washington University, USA.
4.	Prof. Dr. Salah M. El- Kousy	. Prof. of Organic Chemistry, Faculty of Science, Menofia University.

Date : 29 / 6 / 1997.

Grade :

Referee Committee Signature :

No	Name	Signature
1.	Prof. Dr. Mohamed M. Abdelfattah	M. Abdel Fattah
2.	Prof. Dr. Yehia S. Shaker	Yehia Shaker
3.	Prof. Dr. Abdelfattah M. Attallah	a. m. attallah
4.	Prof. Dr. Salah M. El- Kousy	Salah M. El Kousy

TO
SOULS OF MY
FATHER AND MOTHER
WHOM
I NEVER FORGET

H. ISMAIL

Acknowledgment

Firstly, all thanks to **Allah** who gives me more and more than I deserve.

I wish to express my deep thanks to Prof. Dr. **Abdel Moniem A .El -Torgoman** , Professor of Organic Chemistry , Faculty of Science, Menofeia University for his sincere supervision, revision, and continuous encouragement and advices throughout the study .

Gratefully, I would like to owes special thanks to Prof. Dr. **Abdelfattah M. Attallah**, Professor of Immunology and Genetics, George Washington University, USA, and Head supervisor of Biotechnology Research Laboratories , Gastro-Enterology Center, Mansoura University, who deserves great thanks than I can give,for suggesting the research point, and his invaluable continuous advices and encouragement

I wish to express my deep thanks to Prof. Dr. **Salah M. El- Kousy** , Professor of Organic Chemistry , Faculty of Science, Menofeia University for sincere supervision, revision, and his invaluable advices, and comments throughout the study.

I wish to express my deep thanks to Dr. **Gamal Sheha**, Assistance Prof. of Internal Medicine, Faculty of Medicine, Mansoura University for his medical assistance throughout this study .

Finally, I am also greatly indebted to to all my colleagues in Gastro-Enterology Center, Mansoura University, Mansoura, and Biotechnology Research Center, New Dameitta City, especially Dr. S. El Masry, Dr. E. Toson, Dr. A. Nawar, Dr. H. Attia, E. Yones, H. Hamid, A. Saad, A. Tallat, M. Wahba, and M. Abdelfattah for their kind help.

List of Contents

Subject	Page
I. INTRODUCTION AND AIM OF THE WORK.....	1
II. REVIEW OF LITERATURE.....	2
1. Human Schistosomiasis.....	2
1. Historical notes and Geographical distribution.....	2
2. Life cycle of a schistosoma.....	5
3. Disease due to schistosomiasis.....	7
2. Chemistry of antigen-antibody reaction.....	11
1. The molecular basis of antigen-antibody reactions.....	11
2. General application of antigen-antibody reactions.....	16
3. Schistosomiasis antigens & antibodies.....	17
1. Sources of schistosome antigens.....	17
2. Application of schistosome antigens.....	19
3. Schistosomiasis antibodies.....	23
4. Monoclonal antibodies.....	24
1. Production and application of monoclonal antibodies.....	25
2. The use of monoclonal antibodies in schistosomiasis.....	28
5. Diagnosis of human schistosomiasis.....	29
1. Traditional parasitological methods.....	29
2. Enzyme immunochemical assays.....	31
2.1. Antibody - dependence techniques.....	31
2.2. Antigen - dependence techniques.....	35
6. Schistosomicidal compounds.....	40
1. Chemotherapeutic control.....	40
2. Praziquantel.....	43
3. Post-chemotherapy considerations.....	47

Subject	Page
III. MATERIALS AND METHODS.....	51
1. Urine and blood samples.....	51
2. Soluble worm antigenic preparation (SWAP).....	53
3. Protein content determination.....	54
4. Monoclonal antibody.....	56
5. Polyacrylamide Gel Electrophoresis.....	57
6. Coomassie Brilliant blue staining of protein.....	60
7. Protein blotting technique.....	62
8. Enzyme linked immunosorbent assay (ELISA technique)....	65
9. Fast Dot - ELISA technique.....	70
10. Statistical Analysis.....	75
 IV . RESULTS.....	 76
V . DISCUSSION.....	102
VI . SUMMARY.....	113
VII . REFERENCES.....	116
VIII . ARABIC SUMMARY
