Application form of Research Approval

A) Title :

Study of the factors affecting kidney allograft functioning over 10 years.

B)Summary:

In spite of the great development in the field of transplantation & immunosuppression, chronic allograft rejection continues to be a major problem & is the leading cause of graft loss in Renal Transplant recipient.

The aim of the work is to study the risk factors in patients with kidney allograft functioning over 10 years. Whether non immunological factors such as (age, sex, donor source, weight) or immunological factors such as (HLA typing, Cyclosporine level, acute rejection episodes).

Factors affecting the

C)Key Words : Immunological & nonimmunological risk factor.

D)Date submission :

E)Date of approval :

F)Personal data of principle investigator :

Name: Wael Mohammed Marouf

Occupation.: Resident of Nephrology in Police Hospital

Address : 25 El Nasr St. Maadi

Tel. No.: 5192584

G)Personal data of Supervisor investigator :

- ***Prof Dr May Abdel-Moneim Hasaballa***
Assist Professor of Internal Medicine
Faculty of Medicine – Cairo University.
- ***Prof Ibrahim El Ebrashy***
Assist Professor of Internal Medicine
Faculty of Medicine – Cairo University.
- ***Prof Badawy El Khoully***
Assist Professor of Clinical Pathology
Faculty of Medicine – Cairo University.

Importe de la factura:

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
