STUDIES ON PERSISTENCE AND TOXICITY OF TWO ORGANOPHOSPHORUS INSECTICIDES AND PLANT EXTRACTS TO STORED PRODUCT INSECTS

BY

MAHROUS EL-SAYED HASSAN NASR

B.Sc. Agric. Sci., Zagazig University (1987)

M.Sc. Agric. Sci. (Plant Protection), Zagazig University (1999)

Under the Supervision of:

Prof. Dr. Faris Amin Mohamed El-Lakwah Faris El-Lakwah

Professor of Economic Entomology & Control of Stopred Products Pests, Dept. of Plant Protection
Fac. of Agric. Moshtohor, Zagazig Univ.

Prof. Dr. Mohamed Khierat Ibrahim Saleh ..Khierat.....

Professor of Pesticides, Dept. of Plant Protection
Fac. of Agric. Moshtohor, Zagazig Univ.

Dr. Abd El-Aziz El-Sayed Abd El-Aziz Rafa Abd El-Aziz

First Researcher, Plant Protection Research Institute,
Agric. Res., Center, Ministry of Agriculture

STUDIES ON PERSISTENCE AND TOXICITY OF TWO ORGANOPHOSPHORUS INSECTICIDES AND PLANT EXTRACTS TO STORED PRODUCT INSECTS

BY

MAHROUS EL-SAYED HASSAN NASR

B.Sc. Agric. Sci., Zagazig University (1987)
M.Sc. Agric. Sci. (Plant Protection), Zagazig University (1999)

This thesis for Ph.D. degree has been

Approved by:

Prof. Dr. Sami A. El-Dessouki S. A. El-Dessouki

Professor of Insect Ecology & Pest Control, Plant Protection Department, Faculty of Agriculture, EL-Azhar University.

Prof. Dr. Faris Amin Mohamed El-Lakwah Faris El-Lakwah

Professor of Economic Entomology & Control of Stopred Products Pests, Dept. of Plant Protection
Fac. of Agric. Moshtohor, Zagazig Univ.

Prof. Dr. Adel Abdel-Hamied Hafez Adel Hafez

Professor of Economic Entomology, Plant Protection Department, Faculty of Agriculture, Moshtohor, Zagazig University.

Dr. Abd El-Aziz El-Sayed Abd El-Aziz Rafa Abd El-Aziz

First Researcher, Plant Protection Research Institute (ARC).

(Committee in Charge)

Date of Examination: 17 / 8 / 2004

ACKNOWLEDGEMENT

Firstly, ultimate thanks to my God, *ALLAH.*

The author wishes to express his deepest thanks and gratitude to ***Prof. Dr. Faris Amin Mohamed El-Lakwah*** Professor of Economic Entomology and Control of stored product pests at the Plant Protection Dept. Fac. Agric. Moshtohor, Zagazig University for supervision, suggesting the subject, valuable assistance and reviewing the manuscript.

My deep cordial thanks also extended to ***Prof. Dr. Mohamed Kheirat Ibrahim Saleh*** Professor of Pesticides at same department for supervision of this work, but he died, God bless him.

I'm thankful also to ***Dr. Abd El-Aziz El-Sayed Abd El-Aziz Rafaa*** first researcher of Economic Entomology at Plant Protection Research Institute Agric. Res., Center, Ministry of Agriculture for the supervision and helpful advice.

Also, I want to express my deep thanks to all staff of the Plant Protection department of the Faculty of Agric., Moshtohor for their help.

This present study was conducted and supported by the National Project of integrated pest management for post-harvest pests, financed by EEC-Counter part funds through the Egyptian Ministry of Agriculture and Land Reclamation. The author is highly indebted to authorities of this National Project.

CONTENTS

Subject	Page
I. INTRODUCTION	1
II. REVIEW OF LITERATURE	5
1- Toxicity of insecticides against stored product insects	5
2- Effect of plant extracts and dusts on stored grain insects	11
3- Residual toxicity of pesticides and plant extracts in stored products	27
4- Persistence of pesticides in cereal grains and legume seeds	34
5- Effect of CO_2 and plant extracts alone and under modified atmospheres on insect populations and weight loss caused by stored product insects	38
6- Effect of plant extracts or insecticides on seed germination and chlorophyll content of the seedlings	50
7- Effect of sublethal concentrations of plant extracts and insecticides on some biological aspects of stored grain insects	54
III- MATERIALS AND METHODS	58
1- Insect species used	58
1.1- Stock culture of insects	58
2- Materials	59
2.1- Insecticides used	59
2.2- Plant extracts used	59
3- Bioassay tests	59
3.1- Insecticides solution	59
3.2- Plant extracts	60
4- persistence of the tested insecticides and plant extracts	61
4.1- Bioassay test	61
4.2- Gas chromatography (GLC) test	62

Subject	Page
5- Population and weight loss studies	63
6- Grain germination tests	63
7- Effect of sublethal concentrations of two plant extracts, malathion and pirimiphos-methyl on some biological aspects of *T. castaneum*	66
7.1- Number of eggs	66
7.2- The incubation period and the developmental span	67
IV- RESULTS AND DISCUSSION	68
1- Toxicity of malathion and pirimiphos-methyl to some stored product insects	68
1.1- Lethal concentrations of malathion and pirimiphos-methyl (Actellic) to the adults of certain stored product insect species	73
2- Effect of the plant extracts on some stored product insects ..	77
2.1- Effect of Cubeb fruits (*P. cubeba*) acetone extract	77
2.2- Effect of Cubeb fruits (*P. cubeba*) petroleum ether extract	78
2.3- Effect of Thyme flowering buds (*T. vulgaris*) acetone extract	78
2.4- Effect of Thyme flowering buds (*T. vulgaris*) petroleum ether extract	79
2.5- Effect of Damsissa leaves (*A. maritima*) acetone extract	79
2.6- Effect of Damsissa leaves (*A. maritima*) petroleum ether extract	80
2.7- Effect of Marjoram (*M. hortensis*) acetone extract ...	80
2.8- Effect of Marjoram (*M. hortensis*) petroleum ether extract	81
