Acknowledgement

I would like to express my deepest gratitude and thanks to Prof. Dr. Magid Samy Barsoum, professor of general surgery, faculty of medicine, Cairo University, for his paternal guidance, moral support and help. Frankly I am very lucky and honored to work under his supervision.

My highest appreciation to Prof. Dr. Mohamed Sherif Talaat Hathout, professor of general surgery faculty of medicine, Cairo University, for his unlimited support, generous care, and continuous observation thorough all phases of the work.

This study was supported by grants from Prof. Dr. Naguib Zohier Mostafa professor of clinical pathology (haematology). Cairo University. Who spent a lot of time with me to get the results of this thesis.

No one can deny the great efforts from Dr. Antoin Halipian assistant professor of general surgery Cairo University who spent most of his time with me to reach the better picture of this thesis.

I would like to express my deepest gratitude and respect to Dr. George Abdel Fady, lecturer in general surgery faculty of medicine, Cairo University, who sacrificed great deal of his valuable time in meticulously revising this work, guiding and support me all through and for whom no words or praise are sufficient.
