## Acknowledgement

Luckily, I have done my work under the supervision of creative pioneers and towering figures in the field of neuropsychiatry.

I would like to express my sincere appreciation to **Prof. Dr. Adel Sadek**, Chairman of Neuropsychiatric department, Ain Shams University, for his honoring me by supervising this work, and for his continuous guidance and encouragement. I thank him for his helping hands that accompanied me from the very beginning to the end.

I would like to express my gratitude and appreciation to **Prof. Dr. Mohamed El Gabry**, Chairman of Neuropsychiatric department, Military Medical Academy, for his marked and undeniable efforts. I appreciate his helpful guidance and precious encouragement so much.

I would like to express my deepest gratitude and utmost appreciation to **Prof. Dr. Mohamed Refaat El Fiky**, Professor of Psychiatry, Ain Shams University, who continuously guided me with his constructive criticism, careful supervisions and endless enthusiasm, without which this work could have not been created.

I should also thank my colleagues and friends as well as the nursing staff in Abbassia Mental Hospital and Military Psychiatric hospitals for their cooperation and support.

Lastly, I have to thank those, who without their encouragement nothing could ever be done, my wife and my son.
