THE ROLE OF BANKS IN FINANCING POLLUTION PREVENTION PROGRAMS IN THE INDUSTRIAL SECTOR

Thesis

*Submitted to The Institute of Graduate Studies and Research
in partial fulfillment for the requirement of the
Master Degree in Environmental Studies*

Presented By

Abd El Hameed Abou Bakr M. H. El Gammal

B.Sc. in Accounting 1986

**Faculty of Commerce
University of Alexandria**

**Department of Environmental Studies
Institute of Graduate Studies and Research
University of Alexandria**

SUPERVISORS

Prof. Dr. Ismail Ahmed El-Shenawi

Associate Prof. in Economics

Faculty of Commerce

University of Alexandria

Dr. Farid R. Nomeir

Lecturer of Pesticide Chemistry and Toxicology

Department of Environmental Studies

Institute of Graduate Studies and Research

University of Alexandria

Approved

Committee in Charge

Date: / /2002

Acknowledgement

Before, after and above all, I thank **ALLAH** for all that was achieved in this thesis, and pray that he kindly awards all those who helped me with my work.

I thank dearly **Associate Prof. Dr. Ismail Ahmed El-Shenawi** for his support, guidance; and help in the planning and completion of the study.

My profound thanks to **Dr. Farid R. Nomeir** for his valuable supervision through out the work.

Last but not least, I deeply thank my family; my mother for their support, encouragement, and endurance with me.

List of Tables

Table	Page
(1) The most dangerous gas pollutants and their industrial activity source	4
(2) Industry is the most important pollution source	5-6
(3) Banking density A, B, C	20-21
(4) Most civilized countries set out technical authorities specialized in environmental protection	27
(5) Growth rates and relative importance in GDP by sector	38
(6) Gross domestic product and the real growth rate at 1996/1997 prices	58
(7) The relative importance of the public and private sectors in the GDP	58
(8) GDP by economic sectors at factor cost and constant prices 1998/1999	59
(9) Structure of external debt (US \$ million)	65
(10) Population, labor force and unemployment	69
(11) Selling technique of companies in privatization	115
(12) Number of sold companies / years	117
(13) Loans of the financial year 1989, according to sectors	175

Table		Page
(14)	Holding company's name and No. of companies (public sector)	198
(15)	Production activity type	199
(16)	Type of industry and number of buildings	200
(17)	Distribution of production capacities among different sectors	200
(18)	Value progress of yarn and textile products in Egypt	211
(19)	Egyptian exports of the textile industries	212
(20)	Sales value (L.E million)	219
(21)	Pollution kinds and means of treatment	222
(22)	The average production capacity	225
(23)	The essential and secondary raw materials	226
(24)	Water consumption	226
(25)	Energy consumption	226
(26)	Analysis results of the company's grouts	227
(27)	Used amounts of natural gas	227
(28)	Drains centers and ratios	229
(29)	Quantity of reduction of pollution ton/year	232

List of Figures

Figure	Page
(1) Banking density A, B, C in Beheira, Cairo and Alexandria	21-22
(2) The percentages of flow rates of liquid wastes in the industries in Alexandria	29
(3) Percentages of loads of organic wastes resulting from the big industries in Alexandria	30
(4) Percentages of loads of pollution with oils and greases resulting from the big industries in Alexandria	31
(5) Percentages of loads of pollution with suspended wastes resulting from the big industries in Alexandria	32
(6) GDP by economic sectors at factor cost and constant prices-private sector 1998/1999 (74.0%)	60
(7) GDP by economic sectors at factor cost and constant prices-public sector 1998/1999 (26.0%)	61
(8) Unstability of the selling process	118
(9) Opinions about environment law	166
(10) Opinions about possibility of implementing the penalties	166

Figure		Page
(11)	Opinions about time of law	167
(12)	Willing to pay for receiving technical support	167
(13)	Did you hear law No. 4/94 about environmental protection?	168
(14)	Sales value (L.E. million)	220
(15)	The industrial processes of cotton spinning pass through the stages	221

CONTENTS

<i>Chapter</i>	<i>Page</i>
List of tables	
List of figures	
Chapter 1: Introduction	1
1- Industrialization and pollution	1
2- Industrialization in the Egyptian economy	6
3- Importance of the study	8
4- Plan of the study	10
Aim of the work	12
Chapter 2: The importance of the industrialization in the Egyptian economic development programs and the pollution problems	13
1- Wars and free economy stage	16
2- Backing to the planning and Egyptian economic liberation stage	16
Chapter 3: Economic reform program and the lessons from another countries	42
1- Economic reform program concepts, stages, aims and economic and non-economic impacts.	42
2- Economic reform program in Egypt	47
- Results of the economic reform	54
3- Economic reform program in Chile	73
- Results of the economic reform	81
- Lessons of the Mexican Peso Crisis	88
Chapter 4: The Egyptian privatization programs is the cornerstone of the economic reform program	105
- Shifting to private ownership "concept and prospective impacts"	110
1- Privatization forms	112
2- Stages of shifting into private ownership	119
2.1 Preparing a suitable legislative and organizational framework	119

2.2	Selecting the sectors and enterprises scheduled for privatization	120
2.3	Carrying out a meticulous and fair evaluation for the enterprises	125
2.4	Adopting the executive steps deemed necessary in this respect	127
3-	Potential impacts of shifting	128
3.1	Finance	128
3.2	Labor	131
3.3	Ownership of production tools	135
3.4	Monopoly	136
-	Privatization through public offerings:	141
-	Lessons from two Jamaican cases	141
-	Lessons from New Zealand	144
Chapter 5:	Importance of the relationship between environment, privatization policy and pollution prevention programs	146
1-	Pollution and the environment (concepts)	146
1.1	Meaning of the environmental pollution	147
1.2	Types of pollutants	150
1.2.a	Classifying pollutants according to their source	151
1.2.b	Classifying pollutants according to the nature of their effect	151
1.2.c	Classifying pollutants according to their ability to decay	151
2-	Applications of environment law in industrial sector	161
2.1	Difficulties related to the economic policies and environmental management	161
2.2	Difficulties related to the environmental problems of international meaning and bearing	163
2.3	The environmental considerations and the economy	163
