EFFECT OF MINERAL AND BIO-FERTILIZATION ON SOME VARIETIES OF SAFFLOWER UNDER CALCAREOUS SOILS

By

ABLA MOHAMED DESSOUKY KISHIK

B.Sc. Fac. of Agric. (Agronomy), Cairo University, 1984.

M.Sc. Fac. of Agric. at Moshtohor (Agronomy),
Zagazig University, 1992.

THISIS

**Submitted in Partial Fulfilment to the
Requirements for the Degree of**

DOCTOR OF PHILOSOPHY

IN

(AGRONOMY)

**Agronomy Department
Faculty of Agriculture at Moshtohor
Zagazig University (Banha Branch)**

2000

SUPERVISION SHEET

**EFFECT OF MINERAL AND BIO-FERTILIZATION
ON SOME VARIETIES OF SAFFLOWER
UNDER CALCAREOUS SOILS**

By

ABLA MOHAMED DESSOUKY KISHK

B.Sc. Fac. of Agric. (Agronomy), Cairo University, 1984.

M.Sc. Fac. of Agric. at Moshtohor (Agronomy),
Zagazig University, 1992.

THESIS

Submitted in Partial Fulfilment to the
Requirements for the Degree of
DOCTOR OF PHILOSOPHY

IN

(AGRONOMY)

Agronomy Department
Faculty of Agriculture at Moshtohor
Zagazig University (Banha Branch)

Advisory Committee :

1. **Prof. Dr. GABER ABD EL-LATIF SARY**
Professor of Agronomy, Fac. of Agric. Moshtohor, Zagazig University,
(Banha Branch).
2. **Prof. Dr. ABLA HASHEM ASHOUB**
Professor of Agronomy, Desert Research Center, Matarya, Cairo,
Egypt.

بسم الله الرحمن الرحيم

قالوا سبحانك لا علم لنا إلا ما علمتنا
انك انت العليم الحكيم

صدق الله العظيم

In the name of Allah, the beneficent the merciful

They said : " Be glorified, we have no knowledge
except that which you have thought
us. Indeed you are the knows, the
Wise ".

INTRODUCTION	1
REVIEW OF LITERATURE	3
1. Effect of Varieties	3
Effect of Nitrogen Fertilizer	7
Effect of Phosphorus Fertilizer	29
Effect of the Interaction	38
MATERIALS AND METHODS	42
RESULTS AND DISCUSSION	50
I. Effect of Varieties	50
1. Growth characters and petal yield	50
1.1. Stem characters	50
1.2. Leaf characters	52
1.3. Fresh and dry weight of different parts	53
1. Fresh and dry weight of stem and branches/plant (g)	53
2. Fresh and dry weight of leaves/plant (g)	56
1.4. Petal yield (kg/fed)	56
2. Seed yield and its components	58
2.1. Heads number/plant	58
2.2. Head weight (g)	58
2.3. Head diameter (cm)	59
2.4. Seeds number / head	59
2.5. Seeds weight / head (g)	59
2.6. Weight of 1000-seed (g)	61
2.7. Seed yield (kg/fed)	61
3. Oil yield and chemical contents	61
3.1. Protein, phosphorus and oil %	61
3.2. Oil yield (kg/fed)	63
II. Effect of Nitrogen Fertilizer	63
1. Growth characters and petal yield	63
1.1. Stem characters	64
1.2. Leaf characters	66
1.3. Fresh and dry weight of different parts	70
1. Fresh and dry weight of stem and branches/ plant (g)	70
2. Fresh and dry weight of leaves/plant (g)	70
1.4. Petal yield (kg/fed)	72

	Page
2. Seed yield and its components	74
2.1. Heads number/plant	74
2.2. Head weight (g)	75
2.3. Head diameter (cm)	75
2.4. Seeds number / head	75
2.5. Seeds weight / head (g)	76
2.6. Weight of 1000-seed (g)	76
2.7. Seed yield (kg/fed)	78
3. Oil yield and chemical contents	79
3.1. Protein, phosphorus and oil %	79
3.2. Oil yield (kg/fed)	81
III. Effect of Phosphorus Fertilizer	82
1. Growth charactersand petal yield	82
1.1. Stem characters	82
1.2. Leaf characters	84
1.3. Fresh and dry weight of different parts	87
1. Fresh and dry weight of stem and branches/ plant (g)	87
2. Fresh and dry weight of leaves/plant (g)	87
1.4. Petal yield (kg/fed)	90
2. Seed yield and its components	90
2.1. Heads number/plant	90
2.2. Head weight (g)	90
2.3. Head diameter (cm)	90
2.4. Seeds number / head	92
2.5. Seeds weight / head (g)	92
2.6. Weight of 1000-seed (g)	92
2.7. Seed yield (kg/fed)	92
3. Oil yield and chemical contents	94
3.1. Protein, phosphorus and oil %	94
3.2. Oil yield (kg/fed)	96
IV. Effect of the Interaction	98
1. Interaction between varieties and nitrogen fertilizer	98
1.1. Growth characters and petal yield	98
1.2. Seed yield and its components	101
1.3. Oil yield and chemical contents	101
2. Interaction between varieties and phosphorus fertilizer ..	103
2.1. Growth characters and petal yield	103

	Page
2.2. Seed yield and its components	106
2.3. Oil yield and chemical contents	108
3. Interaction between nitrogen and phosphorus fertilizer ...	108
3.1. Growth characters and petal yield	108
3.2. Seed yield and its components	115
3.3. Oil yield and chemical contents	115
4. Interaction among varieties, nitrogen and phosphorus fertilizer	115
4.1. Growth characters and petal yield	116
4.2. Seed yield and its components	116
4.3. Oil yield and chemical contents	116

LIST OF TABLES

No.	Table	Page
1	Mechanical and chemical analysis of Mariut soils as average of the two seasons 1994/1995 and 1995/1996	43
2	Monthly meteorological of Mariut station during period in 1994/1995 and 1995/1996 seasons	44
3	Effect of safflower varieties on stem characters in 1994/1995 and 1995/1996 seasons	51
4	Effect of safflower varieties on leaf characters in 1994/1995 and 1995/1996 seasons	54
5	Effect of safflower varieties on fresh and dry weight of different parts in 1994/1995 and 1995/1996 seasons	55
6	Effect of safflower varieties on petal yield (kg/fed) in 1994/1995 and 1995/1996 seasons	57
7	Effect of safflower varieties on seed yield and its components in 1994/1995 and 1995/1996 seasons	60
8	Effect of safflower varieties on oil yield and chemical contents in 1994/1995 and 1995/1996 seasons	62
9	Effect of nitrogen fertilizer on stem characters in 1994/1995 and 1995/1996 seasons	65
10	Effect of nitrogen fertilizer on leaf characters in 1994/1995 and 1995/1996 seasons	67
11	Effect of nitrogen fertilizer on fresh and dry weight of different parts 1994/1995 and 1995/1996 seasons	71
12	Effect of nitrogen fertilizer on petal yield (kg/fed) in 1994/1995 and 1995/1996 seasons	73
13	Effect of nitrogen fertilizer on seed yield and its components in 1994/1995 and 1995/1996 seasons	77

No.	Table	Page
14	Effect of nitrogen fertilizer on oil yield and chemical contents of safflower seed in 1994/1995 and 1995/1996 seasons	80
15	Effect of phosphorus fertilizer on stem characters in 1994/1995 and 1995/1996 seasons	83
16	Effect of phosphorus fertilizer on leaf characters in 1994/1995 and 1995/1996 seasons	85
17	Effect of phosphorus fertilizer on fresh and dry weight of different parts in 1994/1995 and 1995/1996 seasons	88
18	Effect of phosphorus fertilizer on petal yield (kg/fed) in 1994/1995 and 1995/1996 seasons	91
19	Effect of phosphorus fertilizer on seed yield and its components in 1994/1995 and 1995/1996 seasons	93
20	Effect of phosphorus fertilizer on oil yield and chemical contents of safflower seed in 1994/1995 and 1995/1996 seasons	95
21	Effect of the interaction between varieties and nitrogen fertilizer on all studied characters in 1994/1995 and 1995/1996 seasons	99
22	Effect of the interaction between varieties and nitrogen fertilizer on stem diameter (cm) at 120 days from sowing in the first season, 1994/1995	100
23	Effect of the interaction between varieties and nitrogen fertilizer on no. of leaves/plant at 60 days from sowing in the second season, 1995/1996	100
24	Effect of the interaction between varieties and nitrogen fertilizer on no. of leaves/plant at 120 days from sowing in the second season, 1995/1996	102

No.	Table	Page
25	Effect of the interaction between varieties and nitrogen fertilizer on leaves fresh weight/plant (g) at 120 days from sowing in the first season 1994/1995	102
26	Effect of the interaction between varieties and nitrogen fertilizer on protein % of safflower seed in the first season 1994/1995	104
27	Effect of the interaction between varieties and phosphorus fertilizer on all studied characters in 1994/1995 and 1995/1996 seasons	105
28	Effect of the interaction between varieties and phosphorus fertilizer on specific leaf weight (mg/cm ²) at 120 days from sowing in the second season 1995/1996	107
29	Effect of the interaction between varieties and phosphorus fertilizer on dry weight of leaves/plant (g) at 120 days from sowing in the second season 1995/1996	107
30	Effect of the interaction between varieties and phosphorus fertilizer on fresh and dry weight of petal yield (kg/fed) in the first season 1994/1995	109
31	Effect of the interaction between varieties and phosphorus fertilizer on head number/plant in the first season 1994/1995	109
32	Effect of the interaction between nitrogen and phosphorus fertilizer on all studied characters in 1994/1995 and 1995/1996 seasons	110
33	Effect of the interaction between nitrogen and phosphorus fertilizer on stem fresh weight/plant (g) at 90 days from sowing in the first season 1994/1995	112
34	Effect of the interaction between nitrogen and phosphorus fertilizer on stem fresh weight/plant (g) at 120 days from sowing in the first season 1994/1995	112
