ACKNOWLEDGEMENT

Firstly thanks to ALLAH for giving me the patience to achieve this work and for helping me to overcome all problems that faced me throughout this work.

I wish to express my deep gratitude and sincere thanks to Prof. Dr. Amin Erfan Dowidar, Professor of Plant Physiology, Department of Biological and Geological Sciences, Faculty of Education, Ain Shams University for his valuable guidance, endless generosity, kind heart and his forbearance.

Particular gratitude and thanks are due to Prof. Dr. Laila Mohammed Zaky, Professor of Plant Physiology, Department of Biological and Geological Sciences, Faculty of Education, Ain Shams University for suggesting the point of research, her direct and keen supervision of the research program, her valuable guidance, assistance, constructive criticism and unfailing help in presenting this thesis and for her kind help, encouragement and valuable assistance to overcome all problems that faced me during the completion of this work. It is a real honor for me to work under her supervision.

Great thanks are due to Dr. Ali Abdel-Aziz Abdallah, Associate Professor of Plant Physiology, Department of Biological and Geological Sciences, Faculty of Education, Ain Shams University for his kind supervision unlimited support on

scientific level and for his sincere guidance from the very beginning and up to writing the manuscript.

I am deeply indebted and great sincere thanks to Dr. Abdel Haleem Mohammed Ahmed, Associate Professor of Plant Physiology, Department of Biological and Geological Sciences, Faculty of Education, Ain Shams University for his direct and kind supervision, suggesting the problem, directing me throughout the work and revising the manuscript, continuous material and moral support, valuable advices and being a very effective factor in driving over this work successfully.

Great appreciation and gratitude are due to Prof. Dr. Hesham Abdel Hammed Professor of Plant taxonomy, Department of Biological and Geological Sciences, Faculty of Education, Ain Shams University.

Many Thanks are also afforded to Prof. Dr. Naglaa Zaky El-Alfy, Head of Department of Biological and Geological Sciences, Faculty of Education, Ain Shams University for providing valuable facilities, encouragement and support.

Grateful thanks are recorded to Dr. Mohamed Hamed Abdel Aal, Vice Dean of Postgraduate Studies and Researches, Faculty of Education, Ain Shams University for his kind help, providing valuable facilities and valuable assistance to overcome all problems during this work.

Sincere thanks to all friends of staff members of Biological and Geological Sciences, Faculty of Education, Ain Shams University for their amicability, encouragement through this work.

ACNOWLEDGEMENT

Last but not least, I offer special thanks and gratitudes to my parents and my husband for their valuable help, continuous encouragement, patience and support offered to me during this study.
