**Randomized Study Of Metallic
Valvulotome Versus Double Balloon
Technique For Percutaneous Mitral
Valvotomy In patients With
Rheumatic Mitral Stenosis**

Thesis

Submitted in partial fulfillment of master degree in cardiology

By

Amr Mahmoud Elsherbiny
(Ain Shams University)

Supervisors

Prof. Adel EI-Etriby
Prof. Of Cardiology, Ain Shams University

Prof. Tarek zaki
Prof. Of Cardiology, Ain Shams University

Ass. Prof. Osama Refaie
Ass. Prof. Of Cardiology, Ain Shams University

Faculty of Medicine

Acknowledgment

I would like to express my deep appreciation and indebtedness to Prof. Ali Ramzy, President of the Egyptian Society of Cardiology for his continuous support.

I would like to express my sincere gratitude to Prof. Adel El-Etriby professor of Cardiology, Ain Shams University for the assistance and guidance given throughout the process of this thesis.

I would like to state the great appreciation to the help and advice given by Prof. Tarek Zaki, Professor of Cardiology, Ain Shams University.

I would like to state the great gratitude for Dr Osama Refaei Assistant Professor of Cardiology for his thorough revision of this work.

Contents

Introduction.....	1
Aim of the work	3
Review of literature	5
Introduction.....	5
Historical Development:	5
A-Percutaneous balloon mitral valvuloplasty (PBMV):.....	7
□ Techniques.....	7
□ Transseptal left heart catheterization:	8
□ Double Balloon:	9
□ Caveats about double balloon technique:.....	11
□ Indications of PBMV:.....	12
□ Contraindications of PBMV:.....	13
□ Mechanism of mitral valve dilatation in PBMV:.....	14
□ Usefulness of echocardiography in PBMV:	15
□ Echocardiography during PBMV:	18
□ Echocardiography after PBMV:.....	18
□ Results and clinical series of PBMV:.....	19
□ PBMV in pregnancy:.....	21
□ PBMV for restenosis after surgical commissurotomy:.....	21
□ Factors determining outcome of PBMV:.....	22
□ Complications of PBMV:.....	26

□ <i>Conclusion:</i>	29
B- Percutaneous Mechanical Mitral Commissurotomy With Metallic	
Valvulotome:	30
□ <i>Description of the device:</i>	30
□ <i>Technique of percutaneous mechanical mitral commissurotomy:</i>	32
□ <i>Mechanism of action:</i>	33
Immediate results of the initial experience in 153 patients Underwent	
Percutaneous Mechanical Mitral Commissurotomy Cribier et al (1999).	35
□ <i>Study population:</i>	35
□ <i>Technical considerations:</i>	36
□ <i>Results</i>	38
□ <i>Complications:</i>	40
□ <i>Predictive role of baseline variables on changes of MVA:</i>	41
Comparison with the results of balloon techniques:	42
□ <i>Economical aspects:</i>	44
Future of the procedure:	45
Patients and Methods	47
Patients	47
<i>Group I:</i>	47
<i>Group II:</i>	47
Methods	47
<i>A-Transthoracic echocardiography:</i>	47

<i>B. The transesophageal echocardiography (TEE):</i>	50
Procedure	50
<i>A-Double balloon mitral valvuloplasty: (Group II patients)</i>	50
<i>B- Percutaneous Metal Valvotomy: (Group I patients)</i>	51
<i>Follow-up protocol:</i>	52
<i>Statistical analysis:</i>	53
Results	55
Baseline Data	55
<i>Clinical characteristics:</i>	55
Data immediately following the procedure (PBMV) / commissurotomy:	63
Data immediately following the procedure (PBMV) / commissurotomy:	64
Follow-up data:	67
Master Table	74
DISCUSSION	77
Results Of Percutaneous Mitral Valvotomy Using The Metal Valvotome:	77
Comparison Between the Metal Valvulotome And The Double Balloon Technique	82
Study limitations	85
Conclusion	86
