ACKNOWLEDGEMENTS

The writer wishes to express his deepest gratitude and appreciation to Dr. Mohamed Kassem Mohamed Khalifa, professor of Agronomy, Faculty of Agriculture, University of Zagazig; Dr. Hassan, Ramadan El-Deepah, professor of Agronomy, Faculty of Agriculture University of Zagazig and Dr. Maher, Talaat Ragab, Chief Researcher, Cotton Technology Research Division, Ministry of Agriculture, for their supervision, advice, valuable guidance and helpful criticism throughout the investigation and during the preparation of the manuscript . Thanks are due to Dr. Samier, Hasanain El-Hariry, Chief Researcher of the Cotton Fiber Research Technology Section, for his kind help in the statistical analysis .

The writer is also indebted to the staff of the Cotton Grades Research Section, and more gratitude, goes specially to the Director Dr. Mostaffa Mohamed Kamal, for his interest, encouragement and help .
