**COMPARITIVE STUDY ON THE EFFICIENCY OF USING PULSED
AND DIRECT CURRENT ELECTRIC FIELDS COMBINED WITH A
CYTOTOXIC DRUG IN TREATING EHRlich TUMOR**

A Thesis

**Presented to the Medical Research Institute
University of Alexandria
In Partial Fulfillment of the
Requirements for the Degree**

of

Ph.D.

in

Bio-Medical Physics

By

Mamdouh Mohammed Shawki Ali

**M.Sc. In Bio-medical Physics- Medical Research Institute
Alexandria University-2006
Assistant Lecturer in Bio-physics Department
Medical Research Institute - Alexandria University**

2009

COMPARITIVE STUDY ON THE EFFICIENCY OF USING PULSED AND DIRECT CURRENT ELECTRIC FIELDS COMBINED WITH A CYTOTOXIC DRUG IN TREATING EHRlich TUMOR

Presented by

Mamdouh Mohammed Shawki Ali

M.Sc. In Bio-medical Physics- Medical research institute
Alexandria University-2006
Assistant Lecturer in Bio-physics Department
Medical Research Institute - Alexandria University

For The Ph.D.

Degree

In

Bio-Medical Physics

Examiner's committee

Prof. Dr. Fadel Mohamed Aly

Professor of Biophysics

Faculty of Sciences

Cairo University

Prof. Dr. Youssef Selim Youssef

Professor of Biophysics

Medical Research Institute

University of Alexandria

Prof. Dr. Metwally Ali Metwally Kotb

Professor of Biophysics

Medical Research Institute

University of Alexandria

Prof. Dr.

Professor of

Acknowledgement

*Before all, thank GOD,
who gave me the strength and patience to fulfill this work,*

*I would like to express my deepest gratitude and appreciation to Prof. Dr.,
Youssef Selim Youssef Professor of Biophysics, Medical Research Institute,
Alexandria University, for his suggestion to the topic of this work, for his laborious
effort, indispensable help, patience, as well as for his constant moral support and
encouragement.*

*I am greatly indebted and grateful to Prof. Dr. Metwally Aly M. Kotb,
Professor of Biophysics, Medical Research Institute, Alexandria University, for his
precious advice, constructive guidance, willing assistance, kindness, valuable
support and encouragement. I can hardly express my thanks for all what he has done
throughout this work,*

*Really words can not describe how indebted and grateful I am for Prof. Dr.
Thanaa Ibrahim Shalaby , Professor of Biophysics, Medical Research Institute,
Alexandria University, who devoted great efforts and lot of her time and interest in
supervising this work together with her guidance and careful instructions from the
start to the end of this study.*

*I am also indebted and grateful to Dr. Mohamed Abdal-Aziz Elbelbese,
Lecturer of Biophysics, Medical Research Institute, Alexandria University, for his
kind supervision, continuous guidance, and constant encouragement, unlimited
help which made his supervision a great pleasure to me and generous help.*

*Finally, I would like to express my deepest gratitude to my family
who supported and saw me through this work,*
