EFFECT OF SOME ENVIRONMENTAL STRESSORS ON THYROID GLAND

Thesis

Submitted for partial fulfillment of the M.D. Degree
In **PHYSIOLOGY**

Presented By

Girgis Sabry Youssef Hanna
M.B., B.Ch. - M.Sc. (Physiology)

Supervised by

Prof. Dr. Mohamed Adel Shalaby Abd El-Latif

Professor of Physiology,
Faculty of Medicine, Al-Azhar University

Prof. Dr. Mohamed Zakaria Al-Etreby

Professor of Physiology
Faculty of Medicine, Al-Azhar University

Prof. Dr. Soheir Abd El-Hamid Saleh

Professor and Head of Physiology Dept.,
Faculty of Medicine, Menoufiya University

**FACULTY OF MEDICINE
MENOUEFIYA UNIVERSITY**

1999

Acknowledgement

*I would like to express my sincere gratitude and heartly thanks to **Prof. Dr. Mohamed Adel Shalaby Abdel-Latif**, Professor of Physiology, Faculty of Medicine, Al-Azhar University for his sincere help, continuous advice, close supervision on the practical work and critical revisions.*

*It is a genuine pleasure to endorse my deepest gratitude to **Prof. Dr. Mohamed Zakaria Al-Etreby**, Professor of Physiology, Faculty of Medicine, Al-Azhar University for his sincere assistance, close supervision and continuous encouragement which had passed me over many difficulties.*

*I wish to express my sincere gratitude to **Prof. Dr. Sohair Abdel-Hamid Saleh**, Professor and Head of Physiology Department, Faculty of Medicine, Menoufiya University for her help, continuous advice, fruitful suggestion and discussion during the whole work.*

*I also wish to express my deepest gratitude to **Dr. Abeer Abou-Shadi**, Assistant Lecturer of Histochemistry, Histology Department, Menoufiya University for her kind and sincere help during the histochemical practical part of this work.*

LIST OF TABLES& FIGURES

	Page
<i>Table (1) and Figure (1) : The effect of crowding stress on serum T₃ level (ng/ml) in adult rats.</i>	53
<i>Table (2) & Figure (2): The effect of crowding stress on serum T₃ level (ng/ml) in weaned rats.</i>	55
<i>Table (3) & Figure (3): The effect of crowding stress on serum T₄ level (µg/dl) in adult crowded groups.</i>	57
<i>Table (4) & Figure (4): The effect of crowding stress on serum T₄ level (µg/dl) in weaned crowded groups.</i>	59
<i>Table (5) & Figure (5): The effect of crowding stress on cholesterol level (mg/dl) in adult crowded groups.</i>	61
<i>Table (6) & Figure (6): The effect of crowding stress on cholesterol level (mg/dl) in weaned crowded groups.</i>	63
<i>Table (7) and Figure (7): The effect of crowding stress on TG level (mg/dl) in adult crowded groups.</i>	65
<i>Table (8) & Figure (8): The effect of crowding stress on TG level (mg/dl) in weaned crowded groups.</i>	67
<i>Table (9) & Figure (9): The effect of crowding stress on HDL level (mg/dl) in adult crowded groups.</i>	68
<i>Table (10) and Figure (10): The effect of crowding stress on HDL level (mg/dl) in weaned crowded groups.</i>	70
<i>Table (11) and Figure (11): The effect of crowding stress on LDL level (mg/dl) in adult crowded groups.</i>	72

<i>Table (12) and Figure (12): The effect of crowding stress on LDL level (mg/dl) in weaned crowded groups.</i>	74
<i>Table (13) & Figure (13): The effect of crowding stress on blood sugar level (mg%) in adult crowded groups.</i>	76
<i>Table (14) and (Figure 14): The effect of crowding stress on blood sugar level (mg%) in weaned crowded groups.</i>	78
<i>Table (15) & (Figure 15): The effect of crowding stress on liver glycogen level (mg/g liver tissue) in adult crowded groups.</i>	80
<i>Table (16) & (Figure 16): The effect of crowding stress on liver glycogen level (mg/g liver tissue) in weaned crowded groups.</i>	82
<i>Table (17) & (Figure 17): The effect of crowding stress on glucose produced by the kidney (mg/g wet renal tissue) in adult crowded groups.</i>	84
<i>Table (18) & (Figure 18): The effect of crowding stress on glucose produced by the kidney (mg/g wet renal tissue) in weaned crowded groups.</i>	86
<i>Table (19) & Figure (19): The effect of crowding stress on O₂ uptake of the heart (ml/hour) in adult crowded groups.</i>	88
<i>Table (20) & Figure (20): The effect of crowding stress on O₂ uptake of the heart (ml/hour) in adult weaned groups.</i>	91
<i>Table (21) & Figure (21): The effect of crowding stress on O₂ uptake of the brain (ml/hour) in adult crowded groups.</i>	94

<i>Table (22) & Figure (22): The effect of crowding stress on O₂ uptake of the brain (ml/hour) in adult weaned groups.</i>	98
<i>Table (23) & Figure (23): The effect of crowding stress on O₂ uptake of skeletal muscles (ml/hour) in adult crowded groups.</i>	101
<i>Table (24) & Figure (24): The effect of crowding stress on O₂ uptake of skeletal muscles (ml/hour) in adult weaned groups.</i>	104
<i>Table (25) & Figure (25): The effect of crowding stress on food intake (g/rat/day) in adult crowded groups.</i>	107
<i>Table (26) & Figure (26): The effect of crowding stress on food intake (g/rat/day) in weaned crowded groups.</i>	109
<i>Table (27) & Figure (27): The effect of crowding stress on body weight (g) in adult crowded groups.</i>	111
<i>Table (28) & Figure (28): The effect of crowding stress on body weight (g) in weaned crowded groups.</i>	113
<i>Figure (29): Effect of continuous crowding in adult rats on acidic lipid material</i>	115
<i>Table (29): The effects of continuous crowding in adult and weaned rats.</i>	117
<i>Table (30): The effects of intermittent crowding in adult and weaned rats.</i>	118
<i>Table (31): The effects of continuous crowding with antithyroid therapy in adult and weaned rats.</i>	120
