"Possible Pharmacological Effects of Co-administration of Rosiglitazone and Alpha lipoic acid in Experimentally Induced Diabetes in Rats"

Research Proposal for Partial Fulfillment of M.Sc. Thesis in
Pharmaceutical Sciences
(Pharmacology & Toxicology)

By

Mohamed Mahmoud M. Amin
(Pharmacist)
Medicinal & Pharmaceutical Chemistry Dept.
National Research Center

Under Supervision of

Dr. Ezzeddin El-Denshary
Professor of Pharmacology & Toxicology
Pharmacology & Toxicology Department
Faculty of Pharmacy
Cairo University

Dr. Youserya Aly Aly Maklad
Professor of Pharmacology
Medicinal & Pharmaceutical Chemistry
Department
National Research Center, Dokki, Giza

Dr. Noha Nagah Nassar
Lecturer of Pharmacology & Toxicology
Pharmacology & Toxicology Department
Faculty of Pharmacy
Cairo University

Submitted to
Faculty of Pharmacy, Cairo University

2010

Prerequisite Postgraduate Courses

Besides the study presented in this thesis, the candidate has attended the following courses:
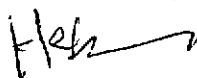

<u>General Courses:</u>

1. Computer and its application.
2. Literature search and scientific English language.
3. Basic statistics.

<u>Special Courses:</u>

1. Pharmacometrics.
2. Toxicometrics.
3. Immunopharmacology.
4. Pathophysiology of diseases.

The candidate had successfully passed examination in these courses.

Prof. Dr. Hekma A. Abd El-Latif

Professor and Head of

Pharmacology & Toxicology

Department

Examination Board Approval Sheet

Thesis Approval Committee

1. **Prof. Dr. Ezzeddin S. El-Denshary** ....
   Professor of Pharmacology & Toxicology, Faculty of Pharmacy,
   Cairo University.

2. **Prof. Dr. Afaf Abdel-Monem Ain Shouka** ....
   Professor of Pharmacology & Toxicology, Faculty of Pharmacy,
   Cairo University.

3. **Prof. Dr. Moushira Ibrahim Batta** ....
   Professor of Pharmacology & Toxicology, Faculty of Pharmacy,
   Misr International University.

Date:14/ /0/ **2010**

Acknowledgements

*I was fortunate to have **Dr. Ezzeddin El-Denshay**, Professor of Pharmacology and Toxicology, Faculty of Pharmacy, Cairo University as my supervisor. To him, I would like to express my sincere gratitude and appreciation for his kind and constructive criticism, guidance and support. A professor of such deep experience all respect and I am so proud to be his student.*

*She was more than a supervisor, she was kind and patient like a mother, supporting like a friend and indeed a great pharmacologist, **Dr. Youserya Ali Ali Maklad**, professor of Pharmacology and Head of pharmaceutical Medicinal Chemistry Department, National Research Center, I would like to express my sincere thanks to her for suggesting the research point and guiding me throughout the experimental part. I am deeply indebted to her for his insight and enthusiasm which enlighted my path. Her kindness, continuous encouragement and advices had helped me continue the long hard time without her physical presence.*

*My profound thanks go to **Dr. Noha Nagah Nassar** Lecturer of Pharmacology & Toxicology, Faculty of Pharmacy, Cairo University, who has always, supporting me professionally and personally as well. Her kindly support and inspiring supervision, and had me work with great comfort and pleasure.*

*I am greatful for **Dr. Kawkab Abd El-Aziz Ahmed**, Assistant Professor of Pathology, Faculty of Veterinary Medicine, Cairo University, for performing the histopathological part of the thesis.*

*Also, I am deeply grateful to my colleagues at **Pharmaceutical and Medicinal Chemistry Department**, who were very supportive, cooperative and extremely helped me keep tempo of work.*

*Nonetheless, I would like to thank **my family**, in particular, my parents. I have no doubt that without their patience and faith in me, I would have gone down that long difficult path which I begun. I dedicate my thesis to them and I hope I have made them happier.*

Mohamed M. Amin
