***Elemental and Radioactivity Concentration in Some
Environmental Samples from South Sinai***

A Thesis

Submitted in Partial Fulfillment for the requirements of the
Degree of Master of Science in Physics

By

Noha Mohamed Ali Ahmed

B.Sc. (Physics), 2011, Ain Shams University

Supervisors

Prof. Dr/ Samir Yousha El-Khamisy

*Professor of Nuclear Physics
Ain Shams University*

Dr./Abdullah Sulaiman Abdullah

*Assistant Professor of Geophysics
Nuclear Materials Authority*

Dr./Hanan Mohammed Diab

*Assistant Professor of Nuclear Physics
Nuclear and Radiological Regulatory Authority*

(2015)

وَقُلْ رَبِّ زِدْنِي عِلْمًا

In the Name of Allah, the Most Gracious, the Most Merciful

“..And Say: My Lord! Increase me in Knowledge”

“TAHA/114, the Glorious QurAn”

Acknowledgment

Acknowledgement

First of all, author would like to thank “Allah” who paved the way and only by his will everything can be achieved.

*Author is extremely grateful to her advisor **Prof. Dr. Samir Yousha El khamisy**, Professor of Nuclear Physics, Faculty of Science, Ain Shams University for suggesting the point of research, his continuous guidance, effective supervision, helpful comments, constructive support and scientific supervision that enabled the author to accomplish this study.*

*Author is deeply grateful to her advisor **Dr. / Hanan Mohammed Diab**, Assistant professor of Radiation physics at Nuclear and Radiological Regulatory Authority for her constant encouragement, sincere helps, useful discussion, continuous guidance and kind supervising throughout this work.*

*Author is also grateful to her advisor **Dr. / Abdullah Sulaiman Abdullah**, Assistant Professor of Geophysics, Nuclear Materials Authority for providing many facilities during preparation and experimental measurements, and scientific supervision that enabled me to accomplish this study.*

*Finally special appreciation and greeting to my **Husband and Mother** for the efforts they did for me in my whole life.*

Contents

Acknowledgement	I
Contents	II
List of Tables	VII
List of Figures	VIII
Abstract	X
Summary	XI

Chapter One

Introduction & Literature Survey

1.1. Introduction and Aim of The Work	1
1.2. Literature Survey	3

Chapter Two

Sources of Radiation

2.1. Types of Radiation	9
2.2. Principles of Radioactive Transformations	9
I- Secular Equilibrium	11
2.3. Radiation Environments	11
2.3.1. Terrestrial Environments	12
2.3.2. Space Environments	13
2.3.3. Artificial Radio nuclides	14
2.4. Naturally Occurring Radioactive Series	15
2.4.1. Uranium-238 Series	15
2.4.2. Actinium Series	17
2.4.3. Thorium-232	18
