ADSORPTION OF SURFACTANTS FROM AQUEOUS SYSTEMS ONTO SOME SOLID SURFACES

THESIS

Submitted in fulfillment of the requirements for the degree of

Philosophy of Science (Ph. D.)

(Chemistry)

By

REDA RAMZY GAYED

B.Sc. in Chemistry, Cairo University 1984

M.Sc. in Chemistry, Ain Shams University 1990

Department of Chemistry

ACKNOWLEDGMENT

The author is highly indebted to the following individuals and organizations for their contribution to this work :

Professor Youssef Barakat Youssef, Head of Specialty Processes Laboratory, Process Design and Development Department, Egyptian Petroleum Research Institute (EPRI), for supervising this work and for his teachings which went far beyond research matters.

Dr. El-Sayed I. El-Wakeel, Chemistry Department, Faculty of Science, Suez Canal University, Ismalia, Egypt, for many interesting discussions and valuable support at critical points in this study.

Dr. Attia I. M. Mead, Chemistry Department, Faculty of Education, Suez Canal University, Al-Arich, Egypt, for his fruitful guidance and helpful suggestions on surfactant and related subjects.

Chemistry Department, Faculty of Science, Suez Canal University, for offering every possible help on UV measurements. Dr. Tahany S. Gendy, EPRI for all the computational work and the least-squares regression analysis.
