# STUDIES ON FMD VACCINATION IN BUFFALOES

Thesis Presented by  
**ABU BAKR MOHAMED AHMED AGGOUR**  
*B.V.Sc. Cairo University, (1984)*  
*M. V. Sc. Alexandria University (1991)*  
*(Infectious Diseases)*

*For*  
**Ph. D. Veterinary Degree**  
*(Infectious Diseases)*

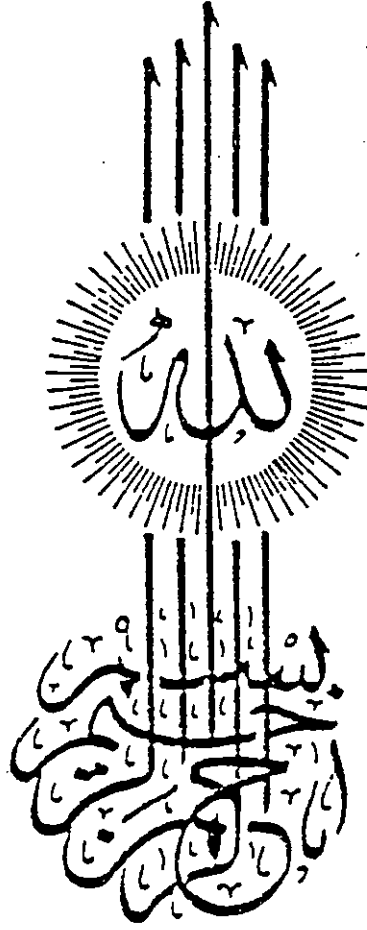

*Under supervision of*  
**Prof. Dr. ADEL ABDEL-AZIM FAYED**  
*Prof. of Infectious Diseases*  
*Faculty of Veterinary Medicine*  
*Cairo University*

**Prof. Dr. HASSAN MOHAMED YOUSSEF**  
*Prof. of Infectious Diseases*  
*Faculty of Veterinary Medicine*  
*Cairo University*

**Dr. ADEL OMAR ABDEL-RAHMAN**  
*Chief Researcher and Head of Foot and*  
*Mouth Disease Department, Veterinary Serum*  
*and Vaccine Research Institute*  
*Abbassia - Cairo*

**(1996)**

G. S. A. A.

﴿ وقل اعملوا فسيرى الله عملكم ﴾

ورسوله والمؤمنون ﴿

صدق الله العظيم [التوبة ١٠٥]

**CAIRO UNIVERSITY  
FACULTY OF VETERINARY MEDICINE  
DEPARTMENT OF INTERNAL MEDICINE,  
INFECTIOUS DISEASES AND FISH**

*A. Fayed*

**APPROVAL SHEET**

This is to approve that the dissertation presented by **ABU BAKR MOHAMED AHMED AGGOUR** to Cairo University entitled "**Studies on FMD vaccination in buffaloes**" for the degree of Ph. D. V. Sc. has been approved by the examining committee :

**Prof. Dr. Ahmed Mahmoud Daoud**

*Ahmed Daoud*

Director of Veterinary Serum and Vaccine Research Institute  
Abbassia, Agricultural Research Center.

**Prof. Dr. Abdel Monaim Ahmed Salem**

*A. A. Salem*

Prof. of Infectious Diseases  
Faculty of Veterinary Medicine , Cairo University

**Prof. Dr. Adel Abdel Azim Fayed**

*A. Fayed*

Prof. of Infectious Diseases  
Faculty of Veterinary Medicine , Cairo University  
Supervisor of the thesis

Date : 28 / 5 / 1996

## *Acknowledgment*

*I wish to express my sincere gratitude for the kindness and encouragement of Prof. Dr. Adel Abdel-Azim Fayed, Prof. of Infectious Diseases, Faculty of Veterinary Medicine, Cairo University Under whose stimulating, supervision, guidances and criticism this work was carried out.*

*I should thank Prof. Dr. Hassan Mohamed Youssef, Prof. of Infectious Diseases, Faculty of Veterinary Medicine, Cairo University, for his help.*

*I would like to offer my great appreciation to Dr. Adel Omar Abdel-Rahman, Chief Researcher, and Head of Foot and Mouth Disease Department, Veterinary Serum and Vaccine Research Institute, Abbassia, Cairo, for advice , continued encouragement, valuable help and for giving me the facilities to fulfill this work.*

*Sincere thanks are due to Prof Dr. A.M. Daoud, Director of Veterinary Serum and Vaccine Research Institute, Abbassia, Cairo for giving me the chance to carry this work.*

*I should thank Dr. Samira El-Kilany, Senior Researcher in Foot and Mouth Disease Department for her encouragement and assistance during the course of this work.*

*My thanks are also due to all staff members of Foot and Mouth Disease Department, for their encouragement and stimulating help.*

*I thank my family for supporting me.*

# CONTENTS

<b>1.</b>	<b>INTRODUCTION</b>	<b>1</b>
<b>2.</b>	<b>LITERATURE.</b>	<b>5</b>
2.1	Foot and mouth disease virus (FMDV)	5
2.2	Foot and mouth disease in the world	7
2.3	Foot and mouth disease in Egypt.	9
2.4	Foot and mouth disease in Buffaloes	12
2.5	Transmission of FMD	15
2.6	Susceptibility	16
2.7	Pathogenesis of FMD in farm animals	18
2.8	Carriers of FMDV	22
2.9	Laboratory diagnosis	28
2.9.1	Susceptibility of laboratory animals to FMDV	28
2.9.2	Isolation of FMDV in primary cells.	28
2.9.3	Laboratory diagnosis techniques	30
2.9.3.1	Complement fixation test (CFT)	30
2.9.3.2	Serum neutralization test (SNT)	34
2.9.3.3	Enzyme-linked immunosorbent assay (ELISA)	40
2.9.3.4	Polymerase chain reaction (PCR)	43
2.9.3.5	Cross-protection test	47
2.10	Foot and mout disease vaccine	48
2.11	Control of foot and mouth disease	52
<b>3 -</b>	<b>MATERIALS AND METHODS</b>	
3.1	<b>Materials</b>	54
3.1.1	Large animals	54

3.1.2 Laboratory animals	54
3.1.3 Sera samples	55
3.1.4 Viruses	56
3.1.5 Tissue cultures	56
3.1.6 Media and antibiotics	57
3.1.7 Biological reagents	58
3.1.8 Chemical reagents	61
3.1.9 ELISA reagents	66
3.1.10 Reagents and equipments used for PCR	69
3.1.10.1 RNA extraction	69
3.1.10.2 Transcription (conversion of RNA into c-DNA)	71
3.1.10.3 Polymerase chain reaction	71
3.1.10.4 Electrophoresis	74
<b>3.2. Methods</b>	
3.2.1 Preparation of field samples for virus isolation	75
3.2.2 Typing of isolates	76
3.2.3 Adaptation of the isolates in tissue culture	76
3.2.4 Virus titration	77
3.2.4.1 In tissue culture	77
3.2.4.2 In baby mice	77
3.2.4.3 Antigenicity titration	78
3.2.4.3.1 Complement titration with the tested antigen	78
3.2.4.3.2 The test proper	79
3.2.5 Preparation of primary cell culture	81

3.2.6	Chloroform treatment	81
3.2.7	Inactivation of FMDV	82
3.2.8	Preparation of 4 batches of FMD vaccine	82
3.2.9	Vaccine testing	84
3.2.9.1	Sterility test	84
3.2.9.2	Safety test	85
3.2.9.3	potency test of FMD vaccines	87
3.2.9.3.1	Passive mouse protection test	87
3.2.10	Cross-protection test in buffaloes	88
3.2.11	Immune response of cattle and buffaloes in different governorates vaccinated with FMD vaccine batch No. (4)	89
3.2.12	Serological tests.	89
3.2.12.1	Serum neutralization test	89
3.2.12.2	Enzyme-linked immunosorbent assay (ELISA)	91
3.2.12.3	Polymerase chain reaction (PCR)	93
<b>4 -</b>	<b>EXPERIMENT AND RESULTS</b>	
4.1.	Isolation and characterization of FMD viruses isolated from cattle and buffaloes in different outbreaks .	96
4.2	Polymerase chain reaction (PCR) on different FMD isolates from cattle and buffaloes.	100
4.3	Evaluation of different isolates of FMD virus by using checkerboard complement fixation test.	104
4.4.	Evaluation of sterility and safety of the BEI	132

	inactivated FMD vaccines.	
4.5	Cross-protection test in buffaloes vaccinated by two different FMD vaccines.	136
4.6	Evaluation of different prepared inactivated vaccines from different isolates of FMD virus isolated from cattle and buffalo by using passive protection test in suckling mice.	140
4.7	Serological survey of FMD antibodies in cattle and buffaloes vaccinated with locally prepared FMD vaccine in different governorates.	152
5 -	<b>DISCUSSION</b>	161
6 -	<b>SUMMARY</b>	175
7 -	<b>REFERENCES</b>	181
	<b>ARABIC SUMMARY</b>	

## ***LIST OF TABLES***

<b>Tab.</b>	<b>Title</b>	<b>Page</b>
<b>No.</b>		<b>No.</b>
1	Protocol of cross-protection test in buffaloes	88
2	Typing of virus field isolates by CFT using reference hyperimmune sera	99
3	Matrix of pairwise similarity of transcripts from 3 FMDV.	103
4	Matrix of pairwise similarity scores of amino acid sequences.	103
5	Results of checkerboard CFT between hyperimmune sera of O <sub>1</sub> /4/93 (buffalo - Giza), O <sub>1</sub> /3/93 (buffalo - Giza) and their homologous and heterologous antigens.	105
6	Results of checkerboard CFT between hyperimmune sera of O <sub>1</sub> /4/93 (buffalo - Giza), O <sub>1</sub> /4/93 (buffalo - Ismailia) and their homologous and heterologous antigens.	110
7	Results of checkerboard CFT between hyperimmune sera of O <sub>1</sub> /4/93 (buffalo - Giza), O <sub>1</sub> /3/93 (cattle - Aga) and their homologous and heterologous antigens.	114

8	Results of checkerboard CFT between hyperimmune sera of O <sub>1</sub> /3/93 (buffalo - Giza), O <sub>1</sub> /4/93 (buffalo - Ismailia) and their homologous and heterologous antigens.	118
9	Results of checkerboard CFT between hyperimmune sera of O <sub>1</sub> /3/93 (buffalo - Giza), O <sub>1</sub> /3/93 (cattle - Aga) and their homologous and heterologous antigens.	121
10	Results of checkerboard CFT between hyperimmune sera of O <sub>1</sub> /4/93 (buffalo - Ismailia), O <sub>1</sub> /3/93 (cattle - Aga) and their homologous and heterologous antigens.	125
11	Summary of the results of the antigenic relationship between R-value and R%-value of the different isolates of FMD virus.	129
12	Summary of the results of antigenic relationship and dominance between the four different isolates of FMD virus.	130
13	Results of safety test of the prepared vaccines of FMD in the tissue cultures.	134
14	Results of safety test of the prepared vaccines of FMD in the animals.	135
15	Cross challenge protection percentage in buffalo between the buffalo strain (3) O <sub>1</sub> /4/93 (buffalo - Ismailia) and the vaccinal cattle strain (4) O <sub>1</sub> /3/93 (cattle - Aga).	137
