ACKNOWLEDGMENTS

The candidate would like to express her profound gratitude and sincere thanks to **Professor Dr. Mohamed Sayed Ghallab**, Geography Department, Institute of African Research and Studies, Cairo University, for his kind and valuable supervision, constant encouragement, advice and guidance throughout the conduction of this work.

The candidate would also offer her warmiest and cordial thanks to **Professor Dr. Farouk Shuwaqah**, Department of Anthropology, Institute of African Research and Studies, Cairo University, for his kindness, valuable guidance and continuous supervision. His scientific and practical encouragement during the entire course of this work is greatly appreciated.

Special and deep gratitude is rendered to **Dr. Tarek Essawy**, Lecturer of oral biology, Department of Oral Biology, Faculty of Oral and Dental Medicine, Cairo University, for his efforts in planning, supervising and continuous encouragement and help at every phase of this thesis.

Thanks are also due to **Dr. Ahmed Wael Aly Abou Zeid**, Researcher in the Department of Basic Medical Sciences, National Research Center, for his great cooperation, kind advice and generous help in the statistical evaluation of the results.

Finally, thanks are offered to the Egyptian and Sudanese Nubians in Cairo, for their cooperation during the practical work.

To My Mother, Father, Husband Brother and Son.
